## **Repression Or Revolution:**

*The Sociology of Revolution* Pitirim Aleksandrovich Sorokin, 1925      **Revolution, Revival, and Religious Conflict in Sandinista Nicaragua** Calvin L. Smith, 2007-03-31 This interdisciplinary study breaks new ground by exploring relations between Protestants mainly Pentecostals and the Sandinistas in revolutionary Nicaragua which to date have received scant attention It challenges the view that most Protestants supported the Sandinistas in fact the majority vigorously opposed them and establishes why many believed Nicaragua was heading towards communism or totalitarianism Meanwhile the Sandinistas expressed irritation with Pentecostalism's otherworldliness and support for Israel Pentecostals were harassed even brutally repressed in the northern highlands leading many to join the Contras That a minority of Protestants supported the Sandinistas caused further problems Pentecostals and Sandinistas were ideological rivals offering an alternative vision to the poor revolution or revival As Pentecostalism exploded a collision between the two was inevitable      **Voices of Revolution: Inspiring Leaders and Movements That Changed the World** George Wilton, 2024-04-11 Voices of Revolution Inspiring Leaders and Movements That Changed the World is a compelling anthology that brings to life the stories of courageous individuals and transformative movements that have shaped the course of history From the fiery rhetoric of revolutionaries like Mahatma Gandhi and Nelson Mandela to the impassioned calls for justice by suffragettes and civil rights activists this book illuminates the power of dissent resilience and collective action in the face of oppression and injustice Through a diverse collection of speeches manifestos and personal accounts readers are invited to witness the stirring voices of change that have echoed through the ages inspiring generations to stand up for freedom equality and human rights Whether you're a student of history a social activist or simply someone who believes in the power of hope and solidarity Voices of Revolution offers a poignant reminder of the enduring legacy of those who dared to challenge the status quo and strive for a better world Join us as we listen to the voices that have sparked revolutions and ignited movements for change across the globe      *Repression and Revolution* Walley George Walley, 2021      **The Impossible Revolution** Yassin al-Haj Saleh, 2017-07-27 Yassin al Haj Saleh is a leftist dissident who spent sixteen years as a political prisoner and now lives in exile He describes with precision and fervour the events that led to Syria's 2011 uprising the metamorphosis of the popular revolution into a regional war and the three monsters Saleh sees treading on Syria's corpse the Assad regime and its allies ISIS and other jihadists and Russia and the US Where conventional wisdom has it that Assad's army is now battling religious fanatics for control of the country Saleh argues that the emancipatory democratic mass movement that ignited the revolution still exists though it is beset on all sides The Impossible Revolution is a powerful compelling critique of Syria's catastrophic war which has profoundly reshaped the lives of millions of Syrians      Chronicles of the Egyptian Revolution and its Aftermath: 2011-2016 M. Cherif Bassiouni, 2017 This book analyses Egypt's 2011 Revolution highlighting the struggle for freedom justice and human dignity in the face of economic and social problems and an on going military regime      *A New*

*History of Great Britain: From the accession of James I to the Congress of Vienna* Robert Balmain Mowat, 1921      *Coups and Revolutions* Amy Austin Holmes, 2019-08-01 In 2011 Egypt witnessed more protests than any other country in the world Counter to the received narrative Amy Austin Holmes argues that the ousting of Mubarak in 2011 did not represent the culmination of a revolution or the beginning of a transition period but rather the beginning of a revolutionary process that would unfold in three waves followed by two waves of counterrevolution This book offers the first analysis of both the revolution and counterrevolution in Egypt from January 2011 until June 2018 The period of revolutionary upheaval played out in three uprisings against three distinct forms of authoritarian rule the Mubarak regime and the police state that protected it the unelected military junta known as the Supreme Council of Armed Forces and the religious authoritarianism of the Muslim Brotherhood The counterrevolution occurred over two periods the first under Adly Mansour as interim president and the second after El Sisi was elected president While the regime imprisoned or killed the leadership of the Muslim Brotherhood and many secular activists during the first wave of the counterrevolution it turned against civil society at large during the second NGOs charities media academia and minority groups In addition to providing new and unprecedented empirical data *Coups and Revolutions* makes two theoretical contributions First it presents a new framework for analyzing the state apparatus in Egypt based on four pillars of regime support that can either prop up or press upon whoever is in power These are the Egyptian military the business elite the United States and the multi headed opposition Secondly the book brings together the literature on bottom up revolutionary movements and top down military coups and it introduces the concept of a coup from below in contrast to the revolution from above that took place under Gamal Abdel Nasser      **A New History of Great Britain** Robert Balmain Mowat, 1922      *Unity*, 1919      *Leadership and Social Movements* Colin Barker, Alan Johnson, Michael Lavalette, 2001 Despite the explosion of social movement research in Europe and the US in the last 20 years the question of leadership has been relatively neglected This probing examination of the theory and practice of social movement leadership critically re examines a series of classic cases The essays illuminate the complex dynamics and competing forms taken by social movement leadership as well as its impact on movement successes and failures

**Counterrevolution** James H. Meisel, 2018-02-06 The flow and counter flow of revolution and counterrevolution have become the norm of the twentieth century In this fascinating and well rounded volume the author illuminates the revolutionary process as it has developed from antiquity to the present day from the vantage points of political science history and sociology Meisel s work is presented in the form of twelve absorbing episodes in the history of Western civilization His remarkable for the detail with which he approaches a subject often difficult to define and even more difficult to explain He suggests a new and highly useful perspective of history by viewing it as a process of revolution and counterrevolution and their transitional stages As it is the nature of revolutions to fall short of their objectives and to enjoy only a brief heyday that becomes the stereotype accepted by posterity the author emphasizes their antithetical closing phases

whose lessons posterity tends to forget Meisel's belief is that second echelon figures teach us more about the natural process of revolution than the atypical men of destiny and he illustrates his account with many portrayals of comparative unknowns who lived through all the stages of revolution and counterrevolution But revolutions can also be aborted or be preceded by counterrevolutions as Meisel demonstrates by enlightening analyses of Mussolini's coup d'état at the origins of the Spanish Civil War and General de Gaulle's defeat of a potential army insurrection in behalf of French Algeria In this profound and wide ranging work Meisel achieves an admirable balance between theory action and biography The result is a unique survey of revolutionary history in which a sophisticated thinker provides on almost every page a deepening understanding of the problems of revolution for the scholar and student of political processes political theory and comparative politics The reader with a lively interest in the modus operandi of history will also find this book compelling reading **Some French**
