**Reproducing Families** David Levine, 1987-08-27 A review of the course of English population history from 1066 to the 1980s with a particular focus on English family forms

**The State of Families** Jennifer Reich, 2020-12-29 The State of Families Law Policy and the Meanings of Relationships collects essential readings on the family to examine the multiple forms of contemporary families the many issues facing families the policies that regulate families and how families and family life have become politicized This text explores various dimensions of the family and uses a critical approach to understand the historical cultural and political constructions of the family Each section takes different aspects of the family to highlight the intersection of individual experience structures of inequality including race class gender sexuality disability and immigration and state power Readings both original and reprinted from a wide range of experts in the field show the multiple forms and meanings of family by delving into topics including the traditional ground of motherhood childhood and marriage while also exploring cutting edge research into fatherhood reproduction child free families and welfare Taking an interdisciplinary approach to the family The State of Families offers students in the social sciences and professionals working with families new ways to identify how social structure and institutional practice shape individual experience

*De Gruyter Handbook of Business Families* Michael Carney, Marleen Dieleman, 2023-01-30 The management field increasingly recognizes that most firms in the world are family firms and that these entities operate differently from the non family firms on which most of our current management theories are based The De Gruyter Handbook of Business Families brings together work from leading academics who explore emerging research themes relevant to business families particularly drawing in new insights from adjacent disciplines that can advance the family business field The handbook challenges the traditional notion of the single firm single family that has characterized most early research on family business Recognizing that families may simultaneously own or control multiple businesses as well as substantial wealth beyond these firms in the form of financial and non financial assets this handbook focuses on business families rather than the narrower construct of family business The contributions in this handbook explore the relatively neglected dynamics between individuals with family ties that shape the interaction between family and business business families with multiple businesses how business families adopt formal rules and processes around their joint activities and the institutionalization of wealth and business families in society The De Gruyter Handbook of Business Families fills a gap in the family business research literature and is an essential reference work for researchers and graduate level students in the area of business families

**Journal of the American Statistical Association** American Statistical Association, 1925 A scientific and educational journal not only for professional statisticians but also for economists business executives research directors government officials university professors and others who are seriously interested in the application of statistical methods to practical problems in the development of more useful methods and in the improvement of basic statistical data

**American Families** Stephanie Coontz, 2013-01-11 In the past forty years

American families have become more racially and ethnically diverse than ever before. Different family forms and living arrangements have also multiplied with single parent families, cohabiting couples with children, divorced couples with children, stepfamilies, and newly visible same sex families. During the same period, socioeconomic inequality among families has risen to levels not seen since the 1920s. This second edition of *American Families* offers several benefits: clear conceptual focus, new attention to the historical origins of contemporary family diversity, well-chosen essays by leading names from across the curriculum, explores the interactions between race, ethnicity, class, gender, and sexuality in shaping family life, completely updated and expanded bibliography of related sources, new companion website with student and instructor resources to enhance learning. Leading off with a comprehensive and teachable introduction to the topic, this completely updated, revised, and expanded second edition of Stephanie Coontz's classic collection *American Families* remains the best resource available on family diversity in America. For additional information and classroom resources, please visit the *American Families* companion website at [www.routledge.com/textbooks/9780415958219](http://www.routledge.com/textbooks/9780415958219).

**Between Families and Frankenstein** Erin Heidt-Forsythe, 2018-06-22. In the United States, egg donation for reproduction and egg donation for research involve the same procedures, the same risks, and the same population of donors: disadvantaged women at the intersections of race and class. Yet cultural attitudes and state-level policies regarding egg donation are dramatically different, depending on whether the donation is for reproduction or for research. Erin Heidt Forsythe explores the ways that framing egg donation itself creates diverse politics in the United States, which, unlike other Western democracies, has no centralized method of regulating donations, relying instead on market forces and state legislatures to regulate egg donation and reproductive technologies. Beginning with a history of scientific research around the human egg, the book connects historical debates about the natural reproduction and unnatural research uses of women's eggs to contemporary political regulation of egg donation. Examining egg donation in California, New York, Arizona, and Louisiana, and coupled with original data on how egg donation has been regulated over the last twenty years, this book is the first comprehensive overview and analysis of the politics of egg donation across the United States.

**Controlling Reproduction** Nancy E. Riley, Nilanjana Chatterjee, 2022-11-08. Controlling reproduction—who has children, how many, and when—is important to states, communities, families, and individuals across the globe. However, the stakes are even higher than might at first be appreciated: control over reproduction is an incredibly powerful tool. Contests over reproduction necessarily involve control over women and their bodies. Yet because reproduction is so intertwined with other social processes and institutions, controlling it also extends far into most corners of social, economic, and political life. Nancy Riley and Nilanjana Chatterjee explore how various social institutions, beyond the individual, including state, religion, market, and family, are involved in the negotiation of reproductive power. They draw on examples from across the world, such as direct fertility policies in China and Romania, the influence of the Catholic Church in Poland and Brazil, racial discrimination and resistance in Mexico and the US, and how Japan and

Norway use laws intended to encourage gender equality to indirectly shape reproduction This engaging book sheds new light on the operations of power and gender in society It will appeal to students taking courses on reproduction in departments of sociology anthropology and gender studies      **Oil Palm Breeding** Aik Chin Soh, Sean Mayes, Jeremy A. Roberts, 2017-08-14

The oil palm is a remarkable crop producing around 40% of the world's vegetable oil from around 6% of the land devoted to oil crops Conventional breeding has clearly been the major focus of genetic improvement in this crop A mix of improved agronomy and management coupled with breeding selection have quadrupled the oil yield of the crop since breeding began in earnest in the 1920s However as for all perennial crops with long breeding cycles oil palm faces immense challenges in the coming years with increased pressure from population growth climate change and the need to develop environmentally sustainable oil palm plantations In *Oil Palm Breeding Genetics and Genomics* world leading organizations and individuals who have been at the forefront of developments in this crop provide their insights and experiences of oil palm research while examining the different challenges that face the future of the oil palm The editors have all been involved in research and breeding of oil palm for many years and use their knowledge of the crop and their disciplinary expertise to provide context and to introduce the different research topics covered      *Reproduction and Development in Annelida* T. J.

Pandian, 2019-01-30 This book is a concise informative elucidation of all aspects of reproduction and development in annelids covering from arenicola to tubifex Annelids flourish between 4 900 m depth to 2 000 m altitude some of them occur in unusual habitats like hydrothermal vents and subterranean aquatic system stigobionts A few have no gut and acquire adequate nutrients through osmotrophism and or engaging symbiotic microbes In the absence of exoskeleton to escape predation the 17 000 speciose annelids have explored bewildering modes of reproduction not surprisingly 42 47% of them are brooders With 13 000 species polychaetes are gonochores but some 207 species of them are hermaphrodites Clitellates are all hermaphrodites of them 76 species are parthenogens of which 56 are earthworms Regenerative potency of annelids ranges from an organ to an entire worm from a single seminal segment The head tail and both together can be regenerated 21 42 and 20 times respectively However the potency is limited to 1% of polychaetes and Heterogametic sex determination is reported to occur only in six polychaete species although karyotype is known for 83 annelid species In temperate polychaetes a dozen neuroendocrines arising mostly from the brain regulates reproductive cycle A complete chapter devoted to vermiculture i recognizes the fast growing candidate species ii distinguishes layers from brooders iii indicates that the harvest of oligochaetes may reduce the input of nitrogenous fertilizer in the ricefield and iv explores the scope for increasing wealth from waste      **Human Reproductive Decisions** R. I. M. Dunbar, 1995-04-12

Reproductive biologists evolutionary biologists demographers and social scientists all have a common interest in the business of human reproduction Their perspectives however are very different and have traditionally prevented them from having much to do with each other The conference on which this book is based brought together contributors from each of these disciplines in an attempt to explore

the common ground that they share and so generate a better understanding of the factors that influence human fertility

*Karl Marx's Social and Political Thought* Bob Jessop, Russell Wheatley, 1999      **Limited Livelihoods** Sonya O.

Rose, 2003-09-02 Integrating analytical tools from feminist theory cultural studies and sociology to illuminate detailed historical evidence Sonya Rose argues that gender was a central organizing principle of the nineteenth century industrial transformation in England She elaborates a cultural theory of gender that suggests why it is an inherent aspect of all social and economic relations Analysing employer strategies and state policies and the role of work in family life she demonstrates that neither industrial transformation nor class relations can be understood when reduced to gender neutral and abstract forces

**The Routledge Handbook of Anthropology and Reproduction** Sallie Han, Cecília Tomori, 2021-11-09 The Routledge Handbook of Anthropology and Reproduction is a comprehensive overview of the topics approaches and trajectories in the anthropological study of human reproduction The book brings together work from across the discipline of anthropology with contributions by established and emerging scholars in archaeological biological linguistic and sociocultural anthropology Across these areas of research consideration is given to the contexts conditions and contingencies that mark and shape the experiences of reproduction as always gendered classed and racialized Over 39 chapters a diverse range of international scholars cover topics including Reproductive governance stratification justice and freedom Fertility and infertility Technologies and imaginations Queering reproduction Pregnancy childbirth and reproductive loss Postpartum and infant care Care kinship and alloparenting This is a valuable reference for scholars and upper level students in anthropology and related disciplines associated with reproduction including sociology gender studies science and technology studies human development and family studies global health public health medicine medical humanities and midwifery and nursing

Families – Beyond the Nuclear Ideal Daniela Cutas, Sarah Chan, 2012-11-22 This book is available as open access through the Bloomsbury Open Access programme and is available on [www.bloomsburycollections.com](http://www.bloomsburycollections.com) This book examines through a multi disciplinary lens the possibilities offered by relationships and family forms that challenge the nuclear family ideal and some of the arguments that recommend or disqualify these as legitimate units in our societies That children should be conceived naturally born to and raised by their two young heterosexual married to each other genetic parents that this relationship between parents is also the ideal relationship between romantic or sexual partners and that romance and sexual intimacy ought to be at the core of our closest personal relationships all these elements converge towards the ideal of the nuclear family The authors consider a range of relationship and family structures that depart from this ideal polyamory and polygamy single and alloparenting parenting by gay and lesbian couples as well as families created through assisted human reproduction

**Feminism and Families** Hilde Lindemann Nelson, 2016-02-04 A ground breaking volume of all new essays covering the conjunction of two topics feminism and families that for all their centrality in our culture have not been adequately examined in light of one another While the family has suffered feminist neglect most women are in fact members

of families living their lives within the social context of families even at a time when the concept of family has become bewilderingly unstable The intersection of families and feminism is thus one in need of philosophical reflection as a basis both for good public policy and for the ethical relationships of intimate life      *Evolutionary Psychology* David M. Buss, 2019-02-22 Where did we come from What is our connection with other life forms What are the mechanisms of mind that define what it means to be a human being Evolutionary psychology is a revolutionary new science a true synthesis of modern principles of psychology and evolutionary biology Since the publication of the award winning first edition of *Evolutionary Psychology* there has been an explosion of research within the field In this book David M Buss examines human behavior from an evolutionary perspective providing students with the conceptual tools needed to study evolutionary psychology and apply them to empirical research on the human mind This edition contains expanded coverage of cultural evolution with a new section on culture gene co evolution additional studies discussing interbreeding between modern humans and Neanderthals expanded discussions of evolutionary hypotheses that have been empirically disconfirmed and much more Evolutionary Psychology features a wealth of student friendly pedagogy including critical thinking questions and case study boxes designed to show how to apply evolutionary psychology to real life situations It is an invaluable resource for undergraduates studying psychology biology and anthropology See Support Material below for new online resources including PowerPoint slides and Instructor s Manual and Test Bank      **Adverse Reproductive Outcomes in Families of Atomic Veterans** Institute of Medicine, Committee to Study the Feasibility of, and Need for, Epidemiologic Studies of Adverse Reproductive Outcomes in the Families of Atomic Veterans, 1995-08-17 Over the past several decades public concern over exposure to ionizing radiation has increased This concern has manifested itself in different ways depending on the perception of risk to different individuals and different groups and the circumstances of their exposure One such group are those U S servicemen the Atomic Veterans who participated in the atmospheric testing of nuclear weapons at the Nevada Test Site or in the Pacific Proving Grounds who served with occupation forces in or near Hiroshima and Nagasaki or who were prisoners of war in or near those cities at the time of or shortly after the atomic bombings This book addresses the feasibility of conducting an epidemiologic study to determine if there is an increased risk of adverse reproductive outcomes in the spouses children and grandchildren of the Atomic Veterans      **The British Review, and London Critical Journal**, 1816      **Assisted Human Reproduction** Dani Singer, Myra Hunter, 2006-02-22 With contributions from Eric Blyth Ken Daniels Julia Feast Robert Lee Nina Martin Alexina McWhinnie Derek Morgan Clare Murray Sharon Pettle Claire Potter Jim Richards and Francoise Shenfield The separation of procreation from conception has broadened notions of parenthood and created novel dilemmas A woman may carry a foetus derived from gametes neither or only one of which came from her or her partner or she may carry a foetus created using in vitro fertilisation IVF with the purpose of handing it to two other parents one neither or both of whom may be genetically related to the prospective child Parents may consist of single sex couples

only one of them genetically related to the child the prospective mother may be past her menopause and genetic parenthood after death is now achievable In a world increasingly reliant on medical science how can the argument that equates traditional with natural and novel with unnatural unethical be justified Should there be legislation which is notoriously slow to change in a field driven by dazzling new possibilities at ever faster rate particularly when restrictions differ from country to country so that those who can afford it travel elsewhere for their treatment of choice Whose rights are paramount the adults hoping to build a family or the prospective child ren s future well being On what basis can apparently competing rights be regulated or adjudicated and how and to what extent can these be enforced in practice      Conceiving Cuba Elise Andaya,2014-05-30 After Cuba s 1959 revolution the Castro government sought to instill a new social order Hoping to achieve a new and egalitarian society the state invested in policies designed to promote the well being of women and children Yet once the Soviet Union fell and Cuba s economic troubles worsened these programs began to collapse with serious results for Cuban families Conceiving Cuba offers an intimate look at how with the island s political and economic future in question reproduction has become the subject of heated public debates and agonizing private decisions Drawing from several years of first hand observations and interviews anthropologist Elise Andaya takes us inside Cuba s households and medical systems Along the way she introduces us to the women who wrestle with the difficult question of whether they can afford a child as well as the doctors who with only meager resources at their disposal struggle to balance the needs of their patients with the mandates of the state Andaya s groundbreaking research considers not only how socialist policies have profoundly affected the ways Cuban families imagine the future but also how the current crisis in reproduction has deeply influenced ordinary Cubans views on socialism and the future of the revolution Casting a sympathetic eye upon a troubled state Conceiving Cuba gives new life to the notion that the personal is always political
