Republic Hungary Slovenia Bulgaria and Romania To approach the questions standing at the beginning of my work I went way back to early socialist theorists protagonists and movements and their ideas and goals I was particularly interested in women and gender issues in these theories and ideas The next step was trying to grasp the state socialist reality From this vantage point I could finally analyse the changes and transformation processes that have been taking place since the implosion of state socialism I decided to use a feminist approach with gender as a central category of analysis This is a very fruitful way to discover and reveal social interconnections causes and outcomes of economic political and social processes as well as crucial patterns that have been influencing and or directing the processes in the East Central European countries under consideration over the last decades Since the topic of my thesis is in the realm of international politics I am taking a look at the encounters of feminist approaches and international relations at the beginning of my work After that I am giving an overview of the main approaches to researching and theorizing the transformation processes in the former state socialist countries of East Central Europe followed by an explanation of the approach I am taking Then I am

Parallel Lives Calin Goina, 2024-12-15 This book explores the articulation between macro social historical transformations and the opportunities and constraints that the resultant political and property regimes presented for villagers It builds on ethnographic analyses of rural Eastern Europe by adding an historical analysis of the configurations and reconfigurations of life trajectories across three successive generations The villagers studied lived a succession of property and political configurations democratic and authoritarian regimes grounded in free market and private property until 1947 a totalitarian regime of state socialism until 1989 and a liberal democracy re building a free market economy from 1990 until today It also brings forward an empirical exploration of the concept of generation grounded on a re reading of Karl Mannheim The book is distinctive in its historical breath covering a century via a detailed rich ethnographic study that includes a diversity of social positions from the richest members of the community to those of very poor means and a diversity of three ethnicities and religions

The New Yugoslav Woman Branka Bogdan, 2025-09-30 From 1945 to 1989 the Yugoslav state connected its claims of progressive politics and gender equality to its support of free healthcare sex education and contraception and laws that supported reproductive choice Yugoslav men and women internalized these messages proclaiming their homeland s superior care for its citizens in comparison to postwar Europe and the United States Even as Yugoslav women faced stigma and abuse for their usage of contraceptives and medical practitioners grappled with new regulations and technology alongside personal ideologies Yugoslavs celebrated their own reformation into new politically minded citizens who carefully navigated tradition and

modernity as they reconstructed the nation The New Yugoslav Woman provides a social and cultural history of how Yugoslav communists used reproductive regulation to build a platform of socialism through self management and to position the country as a conduit between the global North and South Author Branka Bogdan traces reproduction as a central facet of socialist Yugoslavia's state formation through the nation's laws medical infrastructure technological growth and state run sex education programs Bringing this history to the present day with a discussion of more than two dozen interviews with Yugoslav patients and medical professionals Bogdan reveals how these recollections show key continuities with the past rather than an abrupt break between the socialist and post socialist worlds Drawing Yugoslavian women's experiences into the geopolitical history of reproduction and the Cold War era state The New Yugoslav Woman reveals the centrality of reproduction contraception and abortion to socialist Yugoslavia's self conception as the developed leader of the developing world

Barren States Carrie B. Douglass, 2020-05-25 The fertility rate has dramatically declined across Europe in recent years Globally over sixty four countries have fallen below generation replacement levels and countries in eastern and southern Europe are registering the lowest birth rates in the history of humanity Demographers emphasize that these developments could have serious repercussions for society and public policy from a projected drastic loss of national population numbers to labor shortages and a swelling population of over 65s Typically analysts have approached the issue of low fertility quantitatively and from state levels As a result most research tends to elide any nuanced understanding of this significant trend Filling a major gap this timely book goes well beyond existing studies to investigate how people experience understand and speak about what is called low fertility On the individual level is there such a thing How do people understand their choices and the perceived limitations on their lives What is the meaning of motherhood for women today How has the definition of family changed What are the particularities of fertility decline in each country And perhaps most importantly what does this tendency toward fewer births mean to the women and men who ultimately become demographic statistics Offering new readings and a much deeper understanding of Europe's decline in fertility this exciting book adds the voices of everyday people to previous state centered studies Overturning a number of assumptions case studies show that having fewer children is often understood positively in Europe as a means to freedom and self empowerment Anyone wishing to understand what low fertility means to the people who live it will find this book essential reading

Nature Protests Edward Snajdr,2008 In this book Edward Snajdr demonstrates how concerns about ecology generated a social movement that led to political dialogue about freedom ethnicity and power He connects the role that green dissidents played in communism s collapse with the forces in Slovak society that replaced them Through ethnographic interviews and archival materials he explains why Slovakia s ecology movement so strong under socialism fell apart so rapidly despite the persistence of serious ecological maladies in the region Synthesizing theory in anthropology and political ecology he suggests that the fate of environmentalism in Slovakia marks the beginning of a global post ecological age where nature is culturally maginalized in new ways
