Throsby,2004-08-19 In spite of the fact that almost eighty percent of all IVF cycles are unsuccessful the dominant representations of the technology are of its success Based on extensive interviews with women and couples who have undergone IVF unsuccessfully and who have since stopped treatment and taking an overtly feminist approach the book explores the ways in which IVF failure is experienced and accounted for The book argues that IVF failure and the end of treatment have to be carefully managed over time in order to construct the self as normal in the profoundly gendered context of reproductive normativity Treatment failure is identified in the book not only as a central but largely excluded aspect of the experience of IVF but also of a proliferating range of new more controversial reproductive and genetic technologies

this field **The Family in America** Joseph M. Hawes, Elizabeth F. Shores, 2002-05-22 An incisive multidisciplinary look at the American family over the past 200 years written by respected scholars and researchers Family in America offers two powerful antidotes to popular misconceptions about American family life historical perspective and scientific objectivity When we look back at our early history we discover that the idealized 1950s family characterized by a rising birthrate a stable divorce rate and a declining age of marriage was a historical aberration out of line with long term historical trends Working mothers we learn are not a 20th century invention most families throughout American history have needed more than one breadwinner In the exciting new scholarship described here readers will learn precisely what is new in American family life and what is not and acquire the perspective they need to appreciate both the genuine improvements and the losses that come with change Abortion and the Christian Tradition Margaret D. Kamitsuka, 2019-10-29 Abortion remains the most contested political issue in American life Poll results have remained surprisingly constant over the years with roughly equal numbers supporting and opposing it A common perception is that abortion is contrary to Christian teaching and values While some have challenged that perception few have attempted a comprehensive critique and constructive counterargument on Christian ethical and theological grounds Margaret Kamitsuka begins with a careful examination of the church's biblical and historical record refuting the assumption that Christianity has always condemned abortion or that it considered personhood as beginning at the moment of conception She then offers carefully crafted ethical arguments about the pregnant woman's authority to make reproductive decisions and builds a theological rationale for seeing abortion as something other than a sin **Suffering Religion** Robert Gibbs, Elliot R. Wolfson, 2003-09-02 In a diverse and innovative selection of new essays by cutting edge theologians and philosophers Suffering Religion examines one of the most primitive but challenging questions to define human experience why do we suffer As a theme uniting very different religious and cultural traditions the problem of suffering addresses issues of passivity the vulnerability of embodiment the generosity of love and the complexity of gendered desire Interdisciplinary studies bring different kinds of interpretations to meet and enrich each other Can the notion of goodness retain meaning in the face of real affliction or is pain itself in conflict with meaning Themes covered include philosophy's own failure to treat suffering seriously with special reference to the Jewish tradition Martin Buber's celebrated interpretations of scriptural suffering suffering in Kristeva's psychoanalysis focusing on the Christian theology of the cross the pain of childbirth in a home setting as a religiously significant choice God's primal suffering in the kabbalistic tradition Incarnation as a gracious willingness to suffer Handbook of Disability Studies Gary L. Albrecht, Katherine D. Seelman, Michael Bury, 2001 This path breaking international handbook of disability studies signals the emergence of a vital new area of scholarship social policy and activism Drawing on the insights of disability scholars around the world and the creative advice of an international editorial board the book engages the reader in the critical issues and debates framing disability studies and places them in an historical and cultural context Five years in the making this one

volume summarizes the ongoing discourse ranging across continents and traditional academic disciplines To provide insight and perspective the volume is divided into three sections The shaping of disability studies as a field experiencing disability and disability in context Each section written by world class figures consists of original chapters designed to map the field and explore the key conceptual theoretical methodological practice and policy issues that constitute the field Each chapter provides a critical review of an area positions and literature and an agenda for future research and practice The handbook answers the need expressed by the disability community for a thought provoking interdisciplinary international examination of the vibrant field of disability studies The book will be of interest to disabled people scholars policy makers and activists alike The book aims to define the existing field stimulate future debate encourage respectful discourse between different interest groups and move the field a step forward Law, Policy and Reproductive Autonomy Erin Nelson,2014-07-18

Reproductive choices are at once the most private and intimate decisions we make in our lives and undeniably also among the most public Reproductive decision making takes place in a web of overlapping concerns political and ideological socio economic health and health care all of which engage the public and involve strongly held opinions and attitudes about appropriate conduct on the part of individuals and the state Law Policy and Reproductive Autonomy examines the idea of reproductive autonomy noting that in attempting to look closely at the contours of the concept we begin to see some uncertainty about its meaning and legal implications about how to understand reproductive autonomy and how to value it Both mainstream and feminist literature about autonomy contribute valuable insights into the meaning and implications of reproductive autonomy The developing feminist literature on relational autonomy provides a useful starting point for a contextualised conception of reproductive autonomy that creates the opportunity for meaningful exercise of reproductive choice With a contextualised approach to reproductive autonomy as a backdrop the book traces aspects of the regulation of reproduction in Canadian English US and Australian law and policy arguing that not all reproductive decisions necessarily demand the same level of deference in law and policy and making recommendations for reform **Ourselves Unborn** Sara Dubow,2017 INTRODUCTION FETAL STORIES 1 Discovering Fetal Life 1870s 1920s 2 Interpreting Fetal Bodies 1930s 1970s 3 Defining Fetal Personhood 1973 1976 4 Defending Fetal Rights 1970s 1990s 5 Debating Fetal Pain 1984 2007 EPILOGUE FETAL MEANINGS NOTES BIBLIOGRAPHY **Ethics for Bioengineers** Monique Frize,2022-06-01
