conservative and created a new Republican majority In *Moral Victories* Marty Cohen seeks to chronicle this significant political phenomenon and place it in both historical and theoretical contexts This is a story not only of the growing importance of moral issues but also of the way party coalitions change and how this particular change began with religiously motivated activists determined to ban abortion thwart gay rights and restore traditional morality to the country Beginning in the early 1980s and steadily building from that point religious activists backed like minded candidates Traditional Republican candidates more concerned about taxes and small government resisted the newcomers and were often defeated As a result increasing numbers of House Republican nominees were against abortion and gay rights Voters responded by placing moral issues above their interests in economic policies which led to the election of ever more socially conservative representatives As a result the House Republican caucus evolved from a body that advocated largely for low taxes and small government to one equally invested in moral and social issues especially abortion and gay rights The new moralistic Republican candidates were able to win in districts where traditional business Republicans could not thereby creating the foundation for a durable Republican majority in the House and reshaping the American political landscape
