Pellizzi, 2006-12-31 Res is a journal of anthropology and comparative aesthetics dedicated to the study of the object in particular cult and belief objects and objects of art The journal presents contributions by philosophers art historians archaeologists critics linguists architects artists among others *Iconoclasm* Stacy Boldrick, 2017-07-05 The word

iconoclasm is most often used in relation to sculpture because it is sculptures that most visibly bear witness to physical damage But damage can also be invisible and the actions of iconoclasm can be subtle and varying Iconoclastic acts include the addition of objects and accessories as well as their removal or may be represented in text or imagery that never materially affects the original object This book brings together a collection of essays each of which fundamentally questions the meaning of the word iconoclasm as a descriptive category Each contribution examines the impact of iconoclastic acts on different representational forms and assesses the development and historical implications of these various destructive and transformative behaviours *The Destruction of Art* Dario Gamboni, 2007-05-15 This is the first comprehensive examination

of modern iconoclasm Dario Gamboni looks at deliberate attacks carried out by institutions as well as individuals on paintings buildings sculptures and other works of art in the nineteenth and twentieth centuries Truly international in scope The Destruction of Art examines incidents some comic and others disquieting in the USA France the former Soviet Union and other eastern bloc states Britain Switzerland Germany and elsewhere Motivated in the first instance by the recent destruction of many monuments in Europe's former Communist states which challenged the assumption that iconoclasm was truly a thing of the past the author has discovered just how widespread the destruction of art is today manifested in explicable and inexplicable vandalism political protest and censorship of all sorts Dario Gamboni examines the relationship between contemporary destructions of art older forms of iconoclasm and the development of modern art His analysis is illustrated by case studies from Europe and the United States from Suffragette protests in London's National Gallery to the controversy surrounding the removal of Richard Serra's Tilted Arc in New York and the resultant debate on artists' moral rights The Destruction of Art asks what iconoclasm can teach us about the place of works of art and material culture in society The history of iconoclasm is shown to reflect and to contribute to the changing and conflicting definitions of art itself

Byrd, 2020-10-13 A revelatory and informative presentation of the anti apartheid posters created by Medu Art Ensemble Formed in the late 1970s Medu Art Ensemble forcefully articulated a call to end the apartheid system's racial segregation and violent injustice through posters that combined revolutionary imagery with bold slogans Advocating for decolonization and majority nonwhite rule in South Africa and neighboring countries Medu members were persecuted by the South African Defense Force and operated in exile across the border in Botswana The People Shall Govern features nearly all the surviving posters that Medu created between 1979 and 1985 These objects are exceedingly rare as they were originally smuggled into South Africa and mounted in public places where they were regularly confiscated or torn down on sight Offering new insight into the conceptual framework of Medu's working practice and featuring a beautiful silkscreened cover this volume examines the continuing relevance and impact of its poster production Res Anthropology and Aesthetics Autumn 1988 Evon
