*Research and Development in Eastern and Southern Africa* Eastern and Southern African Universities Research Programme, 1995      Training for Agricultural Research and Development in Eastern and Southern Africa Joseph K. Mkiibi, I. M. Omari, 1989      **Genetically modified crops in Africa** Falck-Zepeda, José Benjamin, Gruère, Guillaume P., Sithole-Niang, Idah, 2013-10-02 A variable climate political instability and other constraints have limited agricultural development in African countries south of the Sahara Genetically modified GM crops are one tool for enhancing agricultural productivity and food security despite such constraints Genetically Modified Crops in Africa Economic and Policy Lessons from Countries South of the Sahara investigates how this tool might be effectively used by evaluating the benefits costs and risks for African countries of adopting GM crops The authors gather together studies on GM crops economic effects and impact on trade how consumers view such crops and other issues They find that GM crops have had on average a positive economic effect in the nations where they were used and identify future steps for enhancing GM crop adoption s positive effects Promising policy initiatives include making biosafety regulations that do not make GM crop development prohibitively expensive fostering intraregional trade in GM crops and providing more and better information about GM crops to consumers who might currently be skeptical of them These and other findings in Genetically Modified Crops in Africa indicate ways biotechnology can contribute to economic development in Africa south of the Sahara      **Eastern and Southern Africa** Debby Potts, T.A.S. Bowyer-Bower, 2016-02-04 A unique and comprehensive introduction to contemporary development issues in East and Southern Africa and represents a significant departure from the often descriptive approach adopted by existing regional and development texts on African regions Each contribution is carefully chosen to highlight the theoretical basis to development issues and the practical problems of implementing development plans in this vital subregion Overall this produces comprehensive and balanced coverage of historical economic political and social issues The twin issues of globalisation and modernisation give the book a clear focus      **Capacity Building for a Reforming African Power Sector** J. Baguant, 2002 Capacity building for the power sector is an important national responsibility which Governments in Africa need to seriously address The inability of Governments to mobilize the required level of investment and commitment to the development and retention of a wide array of skills needed by the power sector is in part responsible for many of the difficulties that are faced by the region s electricity industry Under the aegis of the AFREPREN Capacity Building Theme Group a regional study and four country studies Zimbabwe Mauritius Ethiopia and South Africa addressed the capacity building question in the African power sector This volume presents the findings of the studies The studies analyse issues of manpower recruitment training and retention in national power utilities They also highlight the challenges and implications of capacity building initiatives in a reforming electricity industry and propose innovative options for capacity building in the region s power sector

**Monthly Catalog of United States Government Publications** , 2004      **Biotechnology in Africa** Florence

Wambugu, Daniel Kamanga, 2014-05-10 In this book Florence Wambugu and Daniel Kamanga of Africa Harvest Biotech Foundation International bring together expert African authorities to critique various biotechnology initiatives and project future developments in the field in Africa For the first time African voices from multidisciplinary fields as diverse as economics agriculture biotechnology law politics and academia demand to be allowed to set the continent's biotech development agenda This book argues that there is a great future for biotechnology in Africa which sidesteps western interests that do not match those of the local populace In these diverse chapters Africa's political and scientific leaders demand a greater say in how research and development funds are allocated and spent They argue that Africa's political leaders must see both clear benefits and have elbow room to drive the change required This is the way that African governments can employ workable policies suitable biosafety legislation and regulation and respond effectively to public private partnerships Wambugu and Kamanga show that biotechnology has the potential to improve food security and standard of living as well as mitigate the detrimental effects of climate change on the African continent Southern African Landscapes and Environmental Change Peter J. Holmes, John Boardman, 2018-07-04 This volume provides a textbook and reference work on the physical and biotic landscapes of Southern Africa It examines the links between these environments and the ways in which they have been and will likely be subject to change It covers the geomorphology soils vegetation and land use across a range of landscapes including mountains coasts savannah drylands and wetlands and identifies the impacts of current and potential climate change and other factors on these environments The geographical focus is on the region defined by Namibia South Africa Botswana Mozambique Zimbabwe Lesotho and Swaziland Illustrated throughout in full colour the book will serve as a reference volume for researchers and environmental professionals internationally as well as a textbook for senior undergraduate and graduate level students of geography ecology and environmental studies in Southern Africa The Flexible Multi-Partner Mechanism Food and Agriculture Organization of the United Nations, 2021-12-20 The Flexible Multi Partner Mechanism FMM as FAO's main pooled multi partner flexible funding instrument enables resource partners to contribute voluntary and less earmarked financial resources to support the delivery of programmatic results under FAO's Strategic Framework This report highlights the key achievements of the FMM in 2020 both in terms of its accomplishments as a funding mechanism and the delivery of transformative results on the ground through FMM funded Programmes and Subprogrammes **Research Resources in National Research Institutions in Eastern and Southern Africa** Z. M. Nyiira, Z M Nyiira, 1991 Research Resources in National Research Institutions in Eastern and Southern Africa **Transfrontier Conservation Areas** Jens Andersson, Michel de Garine-Wichatitsky, David Cumming, Vupenyu Dzingirai, Ken Giller, 2017-07-14 The introduction of transfrontier conservation areas TFCAs in southern Africa was based on an enchanting promise simultaneously contributing to global biodiversity conservation initiatives regional peace and integration and the sustainable socio economic development of rural communities Cross border

collaboration and eco tourism became seen as the vehicles of this promise which would enhance regional peace and stability along the way However as these highly political projects take shape conservation and development policymaking progressively shifts from the national to regional and global arenas and the peoples most affected by TFCA formation tend to disappear from view This book focuses on the forgotten people displaced by or living on the edge of protected wildlife areas It moves beyond the grand enchanting promise of conservation and development across frontiers and unfounded notions of TFCAs as integrated social ecological systems Peoples dependency on natural resources the specific combination of crop cultivation livestock keeping and natural resource harvesting activities varies enormously along the conservation frontier as does their reliance on resources on the other side of the conservation boundary Hence the studies in this book move from the dream of eco tourism fuelled development supporting nature conservation and people towards the local realities facing marginalized people living adjacent to protected areas in environments often poorly suited to agriculture

**Development Practice in Eastern and Southern Africa** Tshilidzi Madzivhandila,Sepo Hachigonta,Joseph Francis,Joseph Kamuzhanje,Oluwatoyin Dare Kolawole,Shirley DeWolf,2022-03-29 This book is a rare collection of reflective and reflexive stories that reveal how seasoned academics agents of grassroots social change leaders and journalists transformed and shaped the development landscape in eastern and southern Africa Whereas practical experiences are crucial assets and resources for shaping the academic environment and development practice landscape most of the existing literature recommended as key learning materials in tertiary institutions is rarely in synch with the practical realities of development practice The shared individual lived experiences from academic endeavours and fieldwork provide hands on tools for students and emerging practitioners who might be involved in or are currently facilitating development work The thrust of the book therefore is to demystify the day to day experiences of development practitioners while contributing to learning pathways or strategies for achieving viable solutions to the myriad of challenges which grassroots communities face The relevance of the book as a crucial resource for students pursuing development oriented degree programmes in colleges and universities is obvious Without any doubt the compilation will be handy in the implementation of diverse development oriented transformation agenda at academic programming and policy levels
