*Forest Resource Economics And Policy Research* Paul V. Ellefson, 2019-04-12 This book reviews the status of discipline wide activity in forest economics and policy research especially investment levels past and current program emphasis program planning and organizational involvement It defines strategic directions for forest economics and policy research

The Microeconomics Of The Timber Industry David H. Jackson, 2019-09-10 First published in 1980 After its completion it was presented to Midwestern Forest Economists meeting in 1975 renamed as The Competitive Theory of Timber Production A Capitalistic Manifesto to Sustained Yield Forestry The purpose of this book is to provide a better linkage between microeconomic theory and forestry The intended audience is forest economists resource economists graduate students interested in forest management and economics and others interested in an economic framework useful in viewing major public policies      **Library of Congress Catalogs** Library of Congress, 1980      *Annual Report - Resources for the Future* Resources for the Future, 1990      *Research in Forest Economics and Forest Policy* Marion Clawson, 2021-10-29 In order to fill a growing need for research into forestry issues Resources for the future held a symposium in 1977 Originally published in the same year all papers in this collection were written specifically for this symposium to highlight the most important forestry issues including pricing policy supply and demand and the role of the public and private forestry sector This title will be of interest to Environmental Students and professionals      **Research Today for Tomorrow's Forests** , 1981

Monographic Series Library of Congress, 1982      **Journal of Economic Literature** , 1978      *Using Economic Incentives to Regulate Toxic Substances* Molly K. Macauley, Michael D. Bowes, Karen L. Palmer, 2017-03-16 Using case studies the authors evaluate the potential attractiveness of incentive based policies for the regulation of four specific toxic substances chlorinated solvents formaldehyde cadmium and brominated flame retardants Originally published in 1992 the authors provide a compelling demonstration of the role of case studies in determining the appropriate regulatory approach for the specific toxic substances This is a valuable title for students concerned with environmental issues and policy making

Forestry Economics John E. Wagner, 2023-12-22 Forestry Economics introduces students and practitioners to the economics of managing forests and forest enterprises The book adopts the approach of managerial economics textbooks and applies this to the unique problems and production processes faced by managers of forests and forest enterprises What many future forest and natural resource managers need is to understand what economic information is and how to use it to make better business and management decisions John E Wagner draws on his 30 years of experience teaching and working in the field of forest resource economics to present students with an accessible understanding of the unique production processes and problems faced by forest and other natural resource managers The second edition has been updated to include Expanded discussion of compounding discounting and capital budgeting as well as an expanded discussion of when to replace a capital asset that has i costs but no direct revenue stream such as a machine ii costs and a direct annual revenue stream such as a

solar array or iii costs and a periodic revenue stream illustrated by the forest rotation problem New practical examples to provide students with applications of the concepts being discussed in the text most notably on New Zealand and a Radiata Pine Pinus radiata Plantation A brand new chapter that develops business plans for for profit businesses to illustrate how a business plan is derived from the economic information contained within the Architectural Plan for Profit and how it can be used to make business decisions about continuing to operate a business or to start a new business This textbook is an invaluable source of clear and accessible information on forestry economics and management not only for economics students but also for students of other disciplines and those already working in forestry and natural resources *Scientific and Technical Aerospace Reports* ,1975 Lists citations with abstracts for aerospace related reports obtained from world wide sources and announces documents that have recently been entered into the NASA Scientific and Technical Information Database *A Citizen's Guide to the Forest and Rangeland Renewable Resources Planning Act* William E. Shands,1981

*Comparing Environmental Risks* J. Clarence Davies,2014-04-04 The budgetary squeeze of the 1990s has made it obvious that the government cannot address every possible environmental problem Comparative risk assessment CRA is increasingly advanced as the means for setting realistic priorities RFF s Center for Risk Management commissioned background papers from leading experts on CRA for a meeting with federal regulatory officials Comparing Environmental Risks presents the revised papers of this workshop Representing the state of the art on programmatic CRA its methodological analyses and practical recommendations will be invaluable to government officials independent analysts and anyone studying environmental policy *Analyzing Superfund* Richard L. Revesz,Richard B. Stewart,2016-03-17 Originally published in 1995 Analyzing Superfund outlines the key issues of the superfund reauthorization debate in the United States The Superfund law faced criticism for being wasteful inefficient and expensive These papers sought to shed light on this argument in relation to clean up standards the liability regime transaction costs and natural resource damage This title will be of interest to students of Environmental Studies and professionals *The Swedish Nuclear Dilemma* William D. Nordhaus,2014-04-04 Renowned economist William Nordhaus has developed many innovative approaches for analyzing complex environmental questions He applies them to the possible phaseout of nuclear power in Sweden in *The Swedish Nuclear Dilemma* Energy and the Environment While making a major contribution to that debate this book has value that extends well beyond the Swedish issue to the careful and well informed consideration of environmental and energy questions that industrialized nations and developing regions now face It is essential for anyone interested in nuclear power issues and climate change The Swedish parliament has moved closer to eliminating nuclear energy even while repeating commitments to reduce the greenhouse gas emissions associated with fossil fuels Nordhaus s Swedish Energy and Environmental Policy SEEP model quantifies the economic results of such a path He analyzes the impact of factors such as deregulation of electricity generation global climate change policies the decline of Sweden s economic growth and the rethinking of its welfare state He also sets the

stage for more informed analysis of similarly difficult issues where economic and environmental goals clash      **Economics of Natural Resources and the Environment** Erhun Kula,1992-02-01 Looks in detail at the history of economic thought on natural resources and the environment the economics of fisheries forestry mining petroleum coal and natural gas deposits There are also chapters devoted to environmental degradation and the economics of the world s natural wonders

*Communicationes Instituti Forestalis Fenniae* ,1983      **Economics of Natural Resources, the Environment and Policies** E. Kula,2012-12-06 The economic activities of humanity particularly during the last couple of centuries have had a profound impact on the natural environment Fast depletion of the world s forest resources fish stocks fossil fuels and mine deposits have raised many moral as well as practical questions concerning present and future generations Furthermore a number of global environmental problems such as acid rain the greenhouse effect and depletion of the ozone layer are causing concern throughout the world What does economics say about the exploitation of nature s scarce resources This book which is a much expanded version of an earlier publication *Economics of Natural Resources and the Environment* aims mostly at final year undergraduates reading subjects such as economics business studies environmental science forestry marine biology agriculture and development studies There is also a good deal of material especially in the chapters on fisheries forestry valuation and discounting that post graduate students may find useful as stepping stones The material presented stems from my lectures to final year students at the University of Ulster during the last 12 years and some of my ongoing research work When I moved to Northern Ireland in 1982 I was given a course called Economics of Exhaustible Resources to teach This has changed its title and focus a number of times along with the structure of the University My early reading lists included a number of journal articles and books written on the subject      **Economic Development and Environmental Sustainability** Ramón López,Michael A. Toman,2006 Publisher description      **Agricultural Economics Research** ,1963
