

## Project: Investigation of a settlement

### Introduction - An independent study of a known settlement

For this project, you will be gathering information about a settlement that you know. This settlement may be a rural or urban settlement. You can add to the information that you already know about this settlement by searching the web, reading books or news articles (online, in magazines or newspapers) and through conversations with your parents about what they know of this particular settlement.

### Project outline

1. a) Describe the settlement you have chosen and its different types of land use.  
b) Create a sketch map of this settlement indicating all the different land use types. Refer to the image below for an example of what a sketch map might look like.

Note: This is just an example to give you an idea of what to include in your map. The layout of your own map will depend on the settlement you have chosen and should be drawn on an A4 size sheet of blank paper. Your sketch map should include suitable labels and a map key.

2. Identify specific features or landmarks (natural and/or human-made) that can be found throughout your chosen settlement. Name these and mark them on your sketch map.

Gentrification and Displacement Process Dedar Salam Khoshnaw, 2016-02-02 An obvious question which should be addressed at the outset is why gentrification and displacement is concentrated in these particular neighbourhoods in Erbil Citadel Mustawfi Bakhtiyari and Kurani Ainkawa The removal of Saddam Hussein in 2003 removed all obstacles to economic growth development social change and construction for the Iraqi Kurds Yildiz 2007 and Mati 2010 Gentrification has been widely defined around a number of concepts about class alteration and introduction into a given area these have led to definitions such as the movement of middle class and upper class residents into working class areas of the inner city Munt 1987 1175 Negotiating with and participation of the residents before the application of the process could be the first successful step to think about gentrification differently Exaggerated efforts to protect some original characteristics of the settlement are compulsory such as ethnic differentiation affordable rent values and small scale business Co operation of the local people in the development application of their areas could be more helpful for the authorities to become familiar with the residents problems and involve them with the process instead of displacing them directly or indirectly
