Revolution And Socialist Construction In Korea Selected Writings Of Kim Il Sung:

Revolution and Socialist Construction in Korea Il-söng Kim,1971 **Revolution and Socialist Construction in Korea** Il-söng Kim,1971 **Kim Il Sung** Dae-Sook Suh,1988 Examines the rule of the Korean dictator who was premier and then president of North Korea until his death **Everyday Life in the North Korean Revolution, 1945-1950** Suzy Kim,2013-08-09 During the founding of North Korea competing visions of an ideal modern state proliferated Independence and democracy were touted by all but plans for the future of North Korea differed in their ideas about how everyday life should be organized Daily life came under scrutiny as the primary arena for social change in public and private life In *Everyday Life in the North Korean Revolution 1945-1950* Kim examines the revolutionary events that shaped people's lives in the development of the Democratic People's Republic of Korea By shifting the historical focus from the state and the Great Leader to how villagers experienced social revolution Kim offers new insights into why North Korea insists on setting its own course Kim's innovative use of documents seized by U.S. military forces during the Korean War and now stored in the National Archives personnel files autobiographies minutes of organizational meetings educational materials women's magazines and court documents together with oral histories allows her to present the first social history of North Korea during its formative years In an account that makes clear the leading role of women in these efforts Kim examines how villagers experienced understood and later remembered such events as the first land reform and modern elections in Korea's history as well as practices in literacy schools communal halls mass organizations and study sessions that transformed daily routine **A History of Korea** Michael J. Seth,2010-10-16 In this comprehensive yet compact book Michael J. Seth surveys Korean history from Neolithic times to the present He explores the origins and development of Korean society politics and its still little known cultural heritage from their inception to the two Korean states of today Telling the remarkable story of the origins and evolution of a society that borrowed and adopted from abroad Seth describes how various tribal peoples in the peninsula came together to form one of the world's most distinctive communities He shows how this ancient culturally and ethnically homogeneous society was wrenched into the world of late nineteenth century imperialism fell victim to Japanese expansionism and then became arbitrarily divided into two opposed halves North and South after World War II Tracing the past seven decades the book explains how the two Koreas with their deeply different political and social systems and geopolitical orientations evolved into sharply contrasting societies South Korea after an unpromising start became one of the few postcolonial developing states to enter the ranks of the first world with a globally competitive economy a democratic political system and a cosmopolitan and dynamic culture North Korea by contrast became one of the world's most totalitarian and isolated societies a nuclear power with an impoverished and famine stricken population Seth describes and analyzes the radically different and historically unprecedented trajectories of the two Koreas formerly one tight knit society Throughout he adds a rich dimension by placing

Korean history into broader global perspective and by including primary readings from each era All readers looking for a balanced knowledgeable history will be richly rewarded with this clear and concise book *A Concise History of Korea* Michael J. Seth,2024-01-04 This comprehensive book surveys Korean history from Neolithic times to the present Michael J Seth explores the origins and development of Korean society politics and still little known cultural heritage from their inception to the two Korean states of today Throughout he adds a rare dimension by placing Korean history into broader global perspective All readers looking for a balanced knowledgeable history will be richly rewarded with this clear and concise book **Communism and Reform in East Asia (RLE Modern East and South East Asia)** David Goodman,2015-04-10 The West no longer regards communism in East Asia as a threat On the contrary because the communist party states of East Asia appear to be undergoing a process of reform directed primarily at economic modernization it is now regarded as a potential market The West s attitude is reinforced by the recognition of East Asia s economic importance more generally a perception which in itself undoubtedly stimulated reform in the region s communist party states The causes extent and consequences of reform in the East Asian communist party states are the concerns of the contributions to this volume first published in 1988 It includes chapters on the reform process in China North Korea Vietnam and Mongolia as well as examinations of the roles played by both China and the Soviet Union in the Asia Pacific region They demonstrate that a belief in a simple single process of economic and political liberalization brought about by the drive for economic modernization the production imperative is a misleading argument Although the production imperative might act as a stimulus to reform it is neither a sufficient nor even a necessary condition In individual countries the communist party s search for legitimacy a change of leadership or the relationship with the USSR have equally been the spur to reform The drive for economic modernization may even be a consequence of the communist party s desire to reform rather than a cause The absence of a uniform pattern does not detract from the potential consequences of economic and political change These challenge socialist thinking on the nature of collective life ownership and rural society **The Journal of Korean Studies, Volume 17, Number 1 (Spring 2012)** Clark W. Sorensen,Donald Baker,2012-06-21 The University of Washington Korea Studies Program in collaboration with Rowman Littlefield Publishers is proud to publish the Journal of Korean Studies In 1979 Dr James Palais PhD Harvard 1968 former UW professor of Korean History edited and published the first volume of the Journal of Korean Studies For thirteen years it was a leading academic forum for innovative in depth research on Korea In 2004 former editors Gi Wook Shin and John Duncan revived this outstanding publication at Stanford University In August 2008 editorial responsibility transferred back to the University of Washington With the editorial guidance of Clark Sorensen and Donald Baker the Journal of Korean Studies JKS continues to be dedicated to publishing outstanding articles from all disciplines on a broad range of historical and contemporary topics concerning Korea In addition the JKS publishes reviews of the latest Korea related books To subscribe to the Journal of Korean Studies or order print back issues please click here

Selected Works [of] Kim Il Sung Il-sŏng Kim, 1971 *A Concise History of Modern Korea* Michael J. Seth, 2024-03-12

Now in a fully revised and updated edition including new primary sources and illustrations this comprehensive and balanced history of modern Korea explores the social economic and political issues it has faced since being catapulted into the wider world at the end of the nineteenth century Placing this formerly insular society in a global context Michael J Seth describes how this ancient culturally and ethnically homogeneous society first fell victim to Japanese imperialist expansionism and then was arbitrarily divided in half after World War II Seth traces the postwar paths of the two Koreas with different political and social systems and different geopolitical orientations as they evolved into sharply contrasting societies South Korea after an unpromising start became one of the few postcolonial developing states to enter the ranks of the first world with a globally competitive economy a democratic political system and a cosmopolitan and dynamic culture By contrast North Korea became one of the world's most totalitarian and isolated societies a nuclear power with an impoverished and famine stricken population Considering the radically different and historically unprecedented trajectories of the two Koreas Seth assesses the insights they offer for understanding not only modern Korea but the broader perspective of world history All readers looking for a balanced knowledgeable history will be richly rewarded with this clear and concise book [The Capitalist Unconscious](#) Hyun Ok Park, 2015-09-01 The unification of North and South Korea is widely considered an unresolved and volatile matter for the global order but this book argues capital has already unified Korea in a transnational form As Hyun Ok Park demonstrates rather than territorial integration and family union the capitalist unconscious drives the current unification imagining the capitalist integration of the Korean peninsula and the Korean diaspora as a new democratic moment Based on extensive archival and ethnographic research in South Korea and China *The Capitalist Unconscious* shows how the hegemonic democratic politics of the post Cold War era reparation peace and human rights have consigned the rights of migrant laborers protagonists of transnational Korea to identity politics constitutionalism and cosmopolitanism Park reveals the riveting capitalist logic of these politics which underpins legal and policy debates social activism and media spectacle While rethinking the historical trajectory of Cold War industrialism and its subsequent liberal path this book also probes memories of such key events as the North Korean and Chinese revolutions which are integral to migrants reckoning with capitalist allures and communal possibilities Casting capitalist democracy within an innovative framework of historical repetition Park elucidates the form and content of the capitalist unconscious at different historical moments and dissolves the modern opposition among socialism democracy and dictatorship *The Capitalist Unconscious* astutely explores the neoliberal present's past and introduces a compelling approach to the question of history and contemporaneity [State Capitalism and Development in East Asia since 1945](#) , 2023-08-28 During the second half of the twentieth century the countries of East Asia saw one of the most remarkable transformations in human history from relatively poor societies to global powerhouses of accumulation proletarianisation and mega urbanisation This volume features Marxist scholars from East Asia and Europe

who are pioneering a new approach to this transformation using the theory of state capitalism The essays analyse the histories of countries on either side of the Cold War divide within the broader framework of twentieth century global capitalist expansion while at the same time offering a sophisticated critique of Developmental State Theory Contributors are Tobias ten Brink Gareth Dale Jeong Seongjin Michael Haynes Kim Ha young Kim Yong uk Lee Jeong goo and Owen Miller

Kim Jong-il's Leadership of North Korea Jae-Cheon Lim,2008-11-24 Kim Jong Il came to power after the death of his father Kim Il Sung in 1994 Contrary to expectations he has succeeded in maintaining enough political stability to remain in power Kim Jong Il s Leadership of North Korea is an examination of how political power has been developed transmitted from father to son and now operates in North Korea Using a variety of original North Korean sources as well as South Korean materials Jae Cheon Lim pieces together the ostensibly contradictory and inconsistent facts into a conceptual coherent framework This book considers Kim and his leadership through an analytical framework composed of four main elements i Kim as a leader of a totalitarian society ii as a politician iii as a Korean and iv as an individual person This illuminating account of what constitutes power and how it is used makes an important contribution to the understanding of an opaque and difficult regime It will be of interest for upper level undergraduate postgraduates and academics interested in North Korean politics and also those in Political theory **North Korea and the Geopolitics of Development** Kevin Gray,Jong-Woon

Lee,2021-04-15 Kevin Gray and Jong Woon Lee focus on three geopolitical moments that have been crucial to the shaping of the North Korean system colonialism the Cold War and the rise of China to demonstrate how broader processes of geopolitical contestation have fundamentally shaped the emergence and subsequent development of the North Korean political economy They argue that placing the nexus between geopolitics and development at the centre of the analysis helps explain the country s rapid catch up industrialisation its subsequent secular decline followed by collapse in the 1990s and why the reform process has been markedly more conservative compared to other state socialist societies As such they draw attention to the specificities of North Korea s experience of late development but also place it in a broader comparative context by understanding the country not solely through the analytical lens of state socialism but also as an instance of post colonial national development Revolution and Socialist Construction in Korea Sung Kim II,1971 **Catalog of**
