The Two Tests: The Supernatural Claims of Christianity Tried by Two of Its Own Rules Lionel Lisle,2019-12-18 In *The Two Tests The Supernatural Claims of Christianity Tried by Two of Its Own Rules* Lionel Lisle rigorously examines the supernatural assertions within Christianity through a methodical lens rooted in both philosophical inquiry and theological discourse Utilizing a critical yet respectful literary style Lisle juxtaposes the claims of Christianity against its foundational doctrines arguing for a self examination of faith s own inherent rules His approach reflects a broader literary context of inquiry during the late 19th and early 20th centuries where intellectualism and skepticism often challenged established beliefs thereby encouraging a nuanced dialogue about faith and reason Lionel Lisle a keen thinker and theologian was influenced by the philosophical currents of his time particularly the rising tide of rationalism that sought to reconcile faith with empirical evidence His background in theology and his engagement with contemporary philosophical discourse allowed him to craft a work that not only critiques but also seeks to affirm the core tenets of Christianity Lisle s unique perspective emerges from both his scholarly pursuits and personal experiences within faith communities driving him to probe the complexities of belief This book is highly recommended for scholars theologians and lay readers alike who wish to explore a critical yet introspective evaluation of Christianity Lisle s thoughtful examination provides readers with an opportunity to reflect on the intersection of faith and logic ultimately inviting them to engage with the essence of their beliefs in a profound and meaningful way

God's Autopsy and the Living Truth of Soul Hal Childs,2022-08-22 The Grand Narrative of Christianity that the Bible created is dead and the Bible is silent Does the Bible have anything relevant to say to our modern circumstances We ask where did God come from What happened to God God s Autopsy reinterprets soul and God as historical psychological phenomena related to the cultural structure of consciousness the invisible shared context of thought which has changed dramatically over the past three millennia This book offers a new way to understand the trajectory of Western civilization by making the implicit foundation of Western consciousness soul

visible and conscious Our modern Western consciousness is radically different from that of antiquity when the Bible emerged Jung s psychological philosophical insight that whenever we speak about the psyche it is the psyche speaking about itself leads to the realization that today consciousness has come home to itself Beginning with preliterate polytheism the emergence of the transcendent god Yahweh and Christ which led directly to the Enlightenment objective soul continues to unfold itself How did late modernity become a topsy turvy quantum virtual digital impersonal and abstract world that appears to be running away from us The answer is unexpectedly and shockingly in the Bible itself **Satan's Secretary**
