The Smithsonian Book of Birds Jake Page, 1989 *Birds of Prey* Floyd Scholz, 1993 Raptors have intrigued and inspired artists and naturalists for thousands of years Floyd Scholz s own fascination with these winged hunters began when he took up bird carving in the 1970 s but he was long frustrated by the lack of close up detailed reference photographs of these birds He decided to team up with photographer Tad Merrick to fill that void **Birds in Flight** Carrol L. Henderson, 2008-10-22 Describes adaptations for avian aerodynamics and offers tips on spotting and identifying airborne birds Mental Zoo Salman Akhtar, Vamik D. Volkan, 2018-04-17 This book offers a detailed and thorough perspective on the psychological meanings of animals to human beings and on their role in the development of the human mind and its psychopathology It presents a multitude of new observations on human interactions with animals **The Gift of Birds** Larry Habegger, Amy Greimann Carlson, 1999 Whether it roots us in our own backyard or takes us across continents watching birds calls us to stillness and demands our keen attention to the details that flicker around us This collection of stories will appeal to bird lovers everywhere Bird Feathers S. David Scott, Casey McFarland, 2010-09-03 Over 400 photos of representative feathers from 379 species **Avian Illuminations** Boria Sax, 2021-10-13 An exquisitely illustrated journey through the complex and crucial relationship between humans and birds Avian Illuminations examines the many roles birds have played in human society from food messengers deities and pets to omens muses timekeepers custodians hunting companions decorative motifs and most importantly embodiments of our aspirations Boria Sax narrates the history of our relationships with a host of bird species including crows owls parrots falcons eagles nightingales hummingbirds and many more Along the way Sax describes how birds nesting has symbolized human romance how their flight has inspired inventors throughout history and he concludes by showing that the interconnections between birds and humans are so manifold that a world without birds would effectively mean an end to human culture itself Beautifully illustrated Avian Illuminations is a superb overview of humanity s long and rich association with our avian companions **The Ruby-throated Hummingbird** June Osborne, 2010-07-22 In this invitingly written book June Osborne paints a fully detailed portrait of perhaps the best known hummingbird in the United States the ruby throat There is no mistaking a hummingbird Even people who hardly know a robin from a sparrow recognize that flash of iridescent feathers and the distinctive hovering flight So popular have hummers become that even casual birdwatchers now travel great distances to hummingbird hot spots to see masses of birds in their annual migrations Drawing from her own birdwatching experiences June Osborne offers an up close and personal look at a female ruby throat

building her nest and rearing young as well as an account of a day in the life of a male ruby throat and stories of the hummers migrations between their summer breeding grounds in the United States and Canada and their winter homes in Mexico and Central America In addition to this life history Osborne recounts early hummingbird sightings and tells how the bird received its common and scientific names After an overview of hummingbirds distinctive ways of feeding flying and conserving energy she offers a detailed description of the ruby throat that will help you tell females from males immature birds from adults and ruby throats from similar species Osborne also takes you on a visit to the Hummer Bird Celebration at Rockport reviews hummingbird banding programs and explains how to attract hummingbirds to your yard or apartment balcony
