John Lyman Book Award by the North American Society for Oceanic History Freed from restrictions of British mercantilism in the years following the War of Independence Yankee merchants embarked on numerous voyages of commerce and discovery into distant seas Through the news from the East carried in mariners reports ship logs journals and correspondence Americans at home imagined the world as a map of dangerous and deranged places This was a world that was profoundly disordered hobbled by tyranny and oppression or steeped in chaos and anarchy often deadly always uncertain unpredictable and unstable yet amenable to American influence Focusing on four representative arenas the Ottoman Empire China India and the Great South Sea collectively the East Indies Oceana and the American continent s Northwest coast Eastward of Good Hope recasts the relationship between America and the world by examining the early years of the republic when its national character was particularly pliable and its foundational posture in the world was forming Drawing on recent scholarship in global ethnohistory Dane A Morrison recounts how reports of cannibal encounters shipboard massacres shipwrecks tropical fever and other tragedies in distant seas led Americans to imagine each region as a distinct set of threats to their republic He also demonstrates how the concept of justification through self doubt allowed for aggressive expansionism and for the foundations of imperialism to develop Morrison reconsiders American ideas about the world through three questions How did British Americans imagine the world before independence allowed them to travel Eastward of Good Hope What were the signal encounters that filled the public sphere in their early years of global encounter And finally how did Americans contacts with other peoples inflect their ideas about the world and their place in it Written in a lively engaging style Eastward of Good Hope will appeal to scholars and the general public alike **Turkey and Greece**

Deniz Bölükbaşı, 2012-12-06 The Aegean disputes between Turkey and Greece represent one of the longest standing contemporary conflicts in existence These disagreements encompass a wide range of issues including the seabed maritime areas and airspace of the Aegean The territorial status of a number of islands and rocks as well as specific demilitarization conferred upon Greek islands in the Eastern Aegean under international treaties is also a matter of dispute The Aegean disputes which still remain unresolved are a major source of tension and conflict in Turkish Greek relations The stalemate in reaching a settlement is liable to give rise to new frictions resulting in an acute strain on relations From time to time the disputes have erupted into crisis bringing the two countries to the verge of confrontation These disputes are immensely complex and involve a broad range of interrelated issues with complicated political and legal aspects This study represents the first attempt of its kind providing in a single volume a comprehensive review and analysis of the legal and political aspects of the Aegean disputes which constitute a unique case study in international law involving two neighbours in the Aegean that share a unique history and geography *Medieval Horizons* Ian Mortimer, 2023-02-23 The essential introduction to the Middle Ages by the author of *The Time Traveller's Guide* series the most remarkable medieval historian of our time *The Times* UK We tend to think of the Middle Ages as a dark backward and unchanging time characterized by

violence ignorance and superstition By contrast we believe progress arose from science and technological innovation and that inventions of recent centuries created the modern world But as Ian Mortimer shows in this fascinating book we couldn't be more wrong In this revelatory history Mortimer shows how people's horizons their knowledge experience and understanding of the world were utterly transformed between 1000 and 1600 marking the transition from a warrior led society to that of Shakespeare Medieval Horizons sheds light on the enormous cultural changes that took place from literacy to living standards inequality and even the developing sense of self Mortimer demonstrates why this was a revolutionary age of fundamental importance in the development of the Western world Books on Turkey ,2005 **A Brief History of**

The Rise of Political Islam in Turkey Kayhan Delibas,2014-12-19 Turkey officially a secular state voted in an Islamist party in 2002 2007 and 2011 How far does this reflect the trend which has seen the rise of political Islam across the Middle East Does this indicate a growing tendency in the direction of Islamisation amongst the Turkish population If not what are the underlying reasons behind the electoral triumphs of the Islamist Justice and Development Party the AKP Kayhan Delibas seeks to answer these questions through an in depth examination of the appeal of this political party exploring its ideology the routes and motives which produce party activists and local party organisations Concluding that the AKP's success has been built on its criticism of growing inequalities widespread corruption unemployment poverty and lack of basic services Delibas draws a nuanced portrait of modern Turkish society and the relationship between religion and politics Delibas offers an explanation based on research carried out amongst grassroots activists for the rise of Islamic fundamentalism in Turkey Islamic movements are often described as anti modernist thought to be supported by fundamentalist groups living in a bygone age isolated from the rest of the modern world In recent years particularly since the events of 9 11 such movements have also been seen as a threat to the Western way of life But Delibas argues that these movements and particularly those in Turkey did not arise out of religious fervour or hatred of Western civilisation as is often claimed Rather they were founded and have thrived as a response to socio economic and political conditions that have been aggravated by neoliberal economic policies rapid urbanisation and the globalization of culture By exploring the structural conditions in which an Islamic movement emerged and became popular in a seemingly secular state The Rise of Political Islam in Turkey offers vital analysis for all those researching modern Turkey and the growth of Islamist politics throughout the Middle East and North Africa

The Snake Stone Jason Goodwin,2008-09-30 The captivating return of Yashim the eunuch investigator from the intelligent elliptical and beguilingly written The Times London bestseller The Janissary Tree When a French archaeologist

arrives in 1830s Istanbul determined to track down a lost Byzantine treasure the local Greek communities are uncertain how to react the man seems dangerously well informed Yashim Togalu who so brilliantly solved the mysterious murders in *The Janissary Tree* is once again enlisted to investigate But when the archaeologist's mutilated body is discovered outside the French embassy it turns out there is only one suspect Yashim himself The New York Times celebrated *The Janissary Tree* as the perfect escapist mystery and The Daily Telegraph called it A tremendous first novel Beautifully written perfectly judged humane witty and captivating With *The Snake Stone* Jason Goodwin delights us with another transporting romp through the back streets of nineteenth century Istanbul Yashim finds himself racing against time once again to uncover the startling truth behind a shadowy society dedicated to the revival of the Byzantine Empire encountering along the way such vibrant characters as Lord Byron's doctor and the sultan's West Indies born mother the Valide Armed only with a unique sixteenth century book the dashing eunuch leads us into a world where the stakes are high betrayal is death and the pleasure to the reader is immense *Lords Of The Horizons* Shiloh Carscallen,2021-05-30

From the time of Martin Luther's writing of *On War Against the Turk* in 1529 to American Lutheran military chaplains serving in the U S led invasion of Iraq in 2003 Lutheranism has had a symbiotic relationship with Islam in the Middle East framed across cultural and religious borders There have been those who have crossed these borders to engage in mission and dialogue In *Piety Politics and Power* David Grafton examines the origins of the American Lutheran missionary movement in the Middle East with a focus on its encounter with Muslims and the varied Lutheran theological responses toward Islam The narrative is placed within historical contexts to provide an overarching background of Middle Eastern history and Christian Muslim Relations The survey covers Lutheran missionary communities in Persia Iraq Egypt Lebanon and Jerusalem and the West Bank including the work of the Lutherans working for the American Board of Commissioners for Foreign Missionaries the Anglican Church Missionary Society the Lutheran Orient Mission the Lutheran Church Missouri Synod and the Evangelical Lutheran Church in America Whether enthusiastic Pietists seeking the conversion of Muslims and Jews cautious theologians in dialogue with Islam Judaism or Oriental Orthodoxy or social activists working on behalf of refugees in Egypt and the West Bank Grafton argues that these Christian missionaries were all enmeshed in the politics of the communities in which they lived and either

contributed to or suffered from the realities of Middle Eastern and international politics Given the current reality of Pax Americana in the Middle East the author asks the driving question about the role of American Lutheran missions and Lutheran Middle Eastern Muslim dialogue in the age of American power in the Middle East **Greenback** Jason Goodwin,2003-01-07 With the wry and admiring eye of a modern Tocqueville Goodwin has written a biography of the dollar giving the story of its astonishing career through the wilds of American history Greenback looks at the dollar over the years as a form of art a kind of advertising a reflection of American attitudes and a builder of empires The Great Experiment Strobe Talbott,2008-01-01 This dramatic narrative of breathtaking scope and riveting focus puts the story back into history It is the saga of how the most ambitious of big ideas that a world made up of many nations can govern itself peacefully has played out over the millennia Humankind s Great Experiment goes back to the most ancient of days literally to the Garden of Eden and into the present with an eye to the future Strobe Talbott looks back to the consolidation of tribes into nations starting with Israel and the absorption of those nations into the empires of Hammurabi the Pharaohs Alexander the Caesars Charlemagne Genghis Khan the Ottomans and the Hapsburgs through incessant wars of territory and religion to modern alliances and the global conflagrations of the twentieth century He traces the breakthroughs and breakdowns of peace along the way the Pax Romana the Treaty of Westphalia the Concert of Europe the false start of the League of Nations the creation of the flawed but indispensable United Nations the effort to build a new world order after the cold war and America s unique role in modern history as the master builder of the international system Offering an insider s view of how the world is governed today Talbott interweaves through this epic tale personal insights and experiences and takes us with him behind the scenes and into the presence of world leaders as they square off or cut deals with each other As an acclaimed journalist he covered the standoff between the superpowers for more than two decades as a high level diplomat he was in the thick of tumultuous events in the 1990s when the bipolar equilibrium gave way to chaos in the Balkans the emergence of a new breed of international terrorist and America s assertiveness during its unipolar moment which he sees as the latest but not the last stage in the Great Experiment Talbott concludes with a trenchant critique of the worldview and policies of George W Bush whose presidency he calls a consequential aberration in the history of American foreign policy Then looking beyond the morass in Iraq and the battle for the White House he argues that the United States can regain the trust of the world by leading the effort to avert the perils of climate change and nuclear catastrophe **The Greenfield Papyrus in the British Museum** Sir Ernest Alfred Wallis Budge,1912 **Anytime** Cynthia C. Davidson,1999 Architects artists and intellectuals address architecture s relationship to space and time in this latest addition to the series that began with Anyone Architecture functions between tradition and innovation between historical archetypes and that which as yet has no form This historicity and concurrent openness to futurity are two of the subjects discussed in Anytime which probes architecture s relationships with space and time After a section called Beginnings in which ten young architects address rupture change and movement

the book is organized into five sections Trajectories The Collapse of Time M anytimes Futures and Rethinking Space and Time ContributorsAkira Asada Hubert Damisch Peter Eisenman Zaha Hadid Arata Isozaki Fredric Jameson Rem Koolhaas Bruce Mau John Rajchman Michael Sorkin and Bernard Tschumi as well as architects whose work many American readers will encounter here for the first time Anytime is the eighth book in the ongoing series that began in 1991 with Anyone and was followed by Anywhere Anyway Anyplace Anywise Anybody and Anyhow Each volume is based on a conference at which architects and leaders in other fields come together to present papers and discuss a particular a particular idea in architecture from a multicultural and multidisciplinary perspective The conference upon which Anytime is based took place in Ankara Turkey in June 1998 Anytime will be followed by Anymore and Anything
