Losing Isaiah:

Adoptive Families in a Diverse Society Katarina Wedar, 2006 Adoptive Families in a Diverse Society brings together twenty one prominent scholars to explore the experience practice and policy of adoption in North America While much existing literature tends to stress the potential problems inherent in non biological kinship the essays in this volume consider adoptive family life in a broad and balanced context Bringing new perspectives to the topics of kinship identity and belonging this path breaking book expands more than our understandings of adoptive family life it urges us to rethink the limits and possibilities of diversity and assimilation in American society *New York Magazine* ,1995-04-03 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea New York Magazine ,1995-04-10 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea New York Magazine ,1995-04-10 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea **New York Magazine** ,1995-03-27 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea **Gender Struggles** Constance L. Mui,Julien S. Murphy,2002 Contemporary feminist theory and postmodernism have left significant marks on how we think about practical matters most notably the old and new forms of gender struggles that many women confront in their daily lives The essays collected in Gender Struggles are designed to highlight those influences by addressing the following questions What is practical feminism in a postmodern world How does rethinking the nature and boundaries of philosophy affect the way we understand practical issues that we confront daily What new forms of freedom autonomy subjectivity social welfare motherhood public and private space and political resistance have emerged from this new philosophical sense Together the sixteen essays in this volume represent many different voices of feminists who boldly

take up familiar everyday concerns from unorthodox vantage points within new conceptual and theoretical frameworks The essays in *Gender Struggles* address a wide range of issues in gender struggles from the more familiar ones that for the last thirty years have been the mainstay of feminist scholarship such as motherhood beauty and sexual violence to new topics inspired by post industrialization and multiculturalism such as the welfare state cyberspace hate speech and queer politics and finally to topics that traditionally have not been seen as appropriate subjects for philosophizing such as adoption care work and the home Incorporating the latest most cutting edge material on feminism this volume aims at reaching a broad spectrum of readers by connecting postmodern feminist theory with concrete issues that are practical and relevant to their daily lives and experiences

The Ethics of Transracial Adoption Hawley Fogg-Davis, 2018-10-18 Transracial adoption is one of the most contentious issues in adoption politics and in the politics of race more generally Some who support transracial adoption use a theory of colorblindness while many who oppose it draw a causal connection between race and culture and argue that a black child's racial and cultural interests are best served by black adoptive parents Hawley Fogg Davis carves out a middle ground between these positions She believes that race should not be a barrier to adoption but neither should it be absent from the minds of prospective adopters and adoption practitioners Fogg Davis's argument in favor of transracial adoption is based on the moral and legal principle of nondiscrimination and a theory of race consciousness she terms racial navigation Challenging the notion that children get their racial identity from their parents she argues that children through the process of racial navigation should cultivate their self identification in dialogue with others *The Ethics of Transracial Adoption* explores new ground in the transracial adoption debate by examining the relationship between personal and public conceptions of race and racism before during and after adoption
