Lost and Found Traditions, 65-85 Michael D. Coe, Ralph Coe, 1986 *Lost Property* Jennifer Summit, 2000-07 The English literary canon is haunted by the figure of the lost woman writer In our own age she has been a powerful stimulus for the rediscovery of works written by women But as Jennifer Summit argues the lost woman writer also served as an evocative symbol during the very formation of an English literary tradition from the fourteenth through the sixteenth centuries *Lost Property* traces the representation of women writers from Margery Kempe and Christine de Pizan to Elizabeth I and Mary Queen of Scots exploring how the woman writer became a focal point for emerging theories of literature and authorship in English precisely because of her perceived alienation from tradition Through original archival research and readings of key literary texts Summit writes a new history of the woman writer that reflects the impact of such developments as the introduction of printing the Reformation and the rise of the English court as a literary center A major rethinking of the place of women writers in the histories of books authorship and canon formation *Lost Property* demonstrates that rather than being an unimaginable anomaly the idea of the woman writer played a key role in the invention of English literature The Lost Tradition of Economic Equality in America, 1600-1870

Daniel R. Mandell, 2020-04-07 An important examination of the foundational American ideal of economic equality and how we lost it Winner of the Missouri Conference on History Book Award for 2021 The United States has some of the highest levels of both wealth and income inequality in the world Although modern day Americans are increasingly concerned about this growing inequality many nonetheless believe that the country was founded on a person's right to acquire and control property But in *The Lost Tradition of Economic Equality in America 1600-1870* Daniel R. Mandell argues that in fact the United States was originally deeply influenced by the belief that maintaining a rough or relative equality of wealth is essential to the cultivation of a successful republican government Mandell explores the origins and evolution of this ideal He shows how during the Revolutionary War concerns about economic equality helped drive wage and price controls while after its end Americans sought ways to maintain their beloved rough equality against the danger of individuals amassing excessive wealth He also examines how after 1800 this tradition was increasingly marginalized by the growth of the liberal ideal of individual property ownership without limits This politically evenhanded book takes a sweeping detailed view of economic social and cultural developments up to the time of Reconstruction when Congress refused to redistribute plantation lands to the former slaves who had worked it insisting instead that they required only civil and political rights Informing current discussions about the growing gap between rich and poor in the United States *The Lost Tradition of Economic Equality in America* is surprising and enlightening

The Industrial Revolution - Lost in Antiquity - Found in the Renaissance Cort MacLean Johns Ph.D. - HSG, 2021-03-15 Historians of Technology have failed to include the larger contribution and influence of Ctesibius compressor driven Hydraulis with its pneumatic pumps keyboard and organ pipes in the path of critical preparatory events leading up to the Latent Industrial Revolution. One should also realize that Ctesibius had all the parts and sub assemblies on hand to invent the first Steam Hydraulis or Calliope as illustrated on the front book cover of this work. From the Fertile Crescent of the Persian Empire to the Hellenistic Library of Alexandria Vitruvius writing brought the Hydraulis to the Abbey of St Gall in 1414 during the Renaissance. Its path then took it through Italy Germany and the Paris of Louis XIV along the Arch of Industrial Reawakening. This was the Hydraulis 2 millennium path from Antiquity to its return reigniting the Latent Industrial Revolution.

Destination Newman Vandenburg III, 2013 We give thanks to our Heavenly Father for the gift of life. We know that our Heavenly Father will bless and keep us secure from the evil threats portrayed by Satan. We thank our Heavenly Father for granting a pleasurable time in this lifetime. We honor our Heavenly Father because it is important to know that if things do not work out for us as we first thought it would, it could only mean that our Heavenly Father has something better in store for mankind. We must let our Heavenly Father's will be done. We must give thanks to our Heavenly Father for allowing mankind to be successful and prosperous in his lifetime on earth. We give thanks to our Heavenly Father for supplying all our needs according to his riches and glory by the Father of our Heavenly Father. We give thanks to him and his source of supplies that will cover our every need. We give thanks to our Heavenly Father for the universe that is balanced with divine law and order. We thank our Heavenly Father for giving mankind the understanding on how the seeds of principles work. Let me explain: if we give unto others with good measures, it shall be returned back to us in abundance. As you can see, every seed will be given back to the giver through the Heavenly Father. That is why it will be a blessing handed down by the Heavenly Father to give then to receive. We give thanks to our Heavenly Father for our success and prosperity in allowing mankind the knowledge to discover his plans and how mankind can live in the center of that plan.
