Hungry Sheila Himmel, Lisa Himmel, 2009-08-04. A unique eating disorder memoir written by a mother and daughter. Unbeknownst to food critic Sheila Himmel as she reviewed exotic cuisines from bistro to brasserie, her daughter Lisa was at home starving herself. Before Sheila fully grasped what was happening, her fourteen-year-old with a thirst for life and a palate for the flavors of Vietnam and Afghanistan was replaced by a weight-obsessed, antisocial, hundred-pound, nineteen-year-old. From anorexia to bulimia and back again many times, the Himmels feared for Lisa's life as her disorder took its toll on her physical and emotional well-being. *Hungry* is the first memoir to connect eating disorders with a food-obsessed culture in a very personal way, following the stumbles, heartbreaks, and even the funny moments as a mother-daughter relationship and an entire family struggles toward healing.

Recognising Postnatal Depression Andrea Taub-Da Costa, 2012-09-28. The journey to motherhood is sometimes clouded with unrealistic expectations and society's unfair judgement of any woman who isn't immediately blissfully happy with her new baby. Giving birth is a major life adjustment and rite of passage for all mothers. This book is for anyone who is struggling or has struggled on that journey who may be grappling with confusion, anxiety, fear, or anger. It offers hope, support, and comfort and a clear path out of what may feel like a bewildering or overwhelming situation. Postnatal depression affects around 30 per cent of mothers, but partners, children, extended family, friends, and colleagues all feel its ripple effect, and many mothers do not know or do not wish to acknowledge that this misunderstood illness can be treated just like any other. Written by a medical doctor, a clinical psychologist, and their patient, each author contributes her own personal experience and expertise in the area of postnatal depression to an open and enlightening discussion of just what this illness is, how to recognise it, and ways to achieve recovery of body, mind, and spirit. They call on health care professionals and society at large to respond timeously, knowledgeably, and with empathy to what is for many mothers a medical emergency. Women from different walks of life agreed to share with the authors and now with the reader their tough yet transformational experiences of postnatal depression, offering hope and encouragement and revealing the power of healing through openness and the telling of their stories.
