Francke,2007 Recent works of fiction and popular history have promoted the idea that the Holy Grail symbolizes a physical bloodline that resulted from a union of Jesus Christ and Mary Magdalene It is claimed by some that this is the secret kept tirelessly by certain esoteric movements for the past two millennia Based on her groundbreaking research Sylvia Francke exposes this notion as a blatant misinterpretation of the mystery traditions that preceded and ran parallel to the birth of Christianity She traces the ancient spiritual paths of knowledge from the Cathars the Knights Templar and the enigmatic Rosicrucians to the work of Rudolf Steiner in the twentieth century Here she concludes is true Grail knowledge the Tree of Life and the Holy Grail itself explained in their metaphysical context She suggests a solution to the mystery of sudden wealth

and the strange behavior of Brengel Saunier the mysterious priest of Rennes le Chateau in southern France True Grail knowledge Francke concludes has nothing to do with bloodlines or worldly status rather it is an ancient lifeline to the spiritual origins of creation Its energetic forces radiate out from the Earth and in from the constellations and planets while interacting with human individuals It represents the key to fulfilling humanity's quest and the next step in human evolution The recent explosion of interest in revisionist Christianity history the shadow Grail prompted Sylvia Francke to revise The Tree of Life and the Holy Grail first published in 1996 The result is a completely reworked and expanded book that offers a powerful and convincing refutation of distorted esoteric truths

Mysteries of the Round Towers Christopher

Freeland, 2025-02-04 Reveals how the round towers were built over the crossing of underground waterways and with every stone in magnetic polarity alignment Explains how the siting and magnetic properties of the towers energetically enhances the surrounding environment akin to feng shui and vastu Presents a guide to the energetic principles behind the creation and purpose of the round towers In Ireland and to a lesser extent Scotland in seemingly unconnected locations there are more than 60 enigmatic round towers often 90 feet tall or higher and nearly uniform in their construction Believed to have been built between the 7th and 10th centuries CE the Roman Catholic Church long ago laid claim to them Yet who built them and why is completely unknown and even their date of construction is debatable Presenting a professional dowser's radiesthetic and magnetic analysis of the round towers of Ireland Christopher Freeland examines previously unexplored yet fundamental facts common to all of the round towers including geographic orientation connections to underground waterways historical records and the magnetic polarity of the stones themselves Explaining the basics of radiesthesia the energetic science of dowsing the author shows how the locations of the towers have far reaching ramifications for the health of humans animals and plants in their surrounding areas His in person examinations reveal how systematic magnetic orientation of the stones in these towers walls the unusual construction techniques of the unknown architects and the resulting access to Earth's telluric forces further enhance their energetic effects He explores the types of stone used speculates how many towers once existed and firmly debunks the assertion that they were built by the Church Offering a guide to the creation and purpose of the round towers Freeland shows that we can once again embrace the ancient wisdom of our ancestors about the flow of energy in the Earth and bring back balance and harmony through understanding Nature's alchemy of stone water and magnetism

art artifacts and architecture of the medieval world Finally this fascinating underground language is deciphered revealing powerful messages meant as much for today's truth seekers as for medieval minds **The Tantric Alchemist** Peter Levenda, 2015-09-01 The Tantric Alchemist is a work on alchemy as decoded by Tantra and a work on Tantra as understood by alchemists It uncovers works by Thomas Vaughan and suggests how he and his wife a 17th century Welsh couple unique in the history of western alchemy met their fate when dealing with forces they knew only too well but which were stronger than their ability to control them Using the works of Vaughan as his text Levenda applies the twilight language of Tantra to the surreal prose of the alchemist and in the process lays bare the lineaments of the arcane tradition that gave rise to the legend of Christian Rosenkreutz the reputed founder of Rosicrucianism who learned his art in the East and to the 19th and 20th century occult movements lead by such luminaries as P B Randolph Theodore Reuss Helena Blavatsky and Aleister Crowley who also sought and discovered this technology in the religions and cultures of Asia Readers will find that the many disparate threads of an authentic spiritual tradition are woven together here in a startling tapestry that reveals without pretense or euphemism the psycho sexual technique that is at the root of both Tantra and alchemy that is to say of both Asian and European forms of esoteric praxis **Mysteries and Secrets of the Masons** Patricia Fanthorpe, Lionel Fanthorpe, 2006-05-13 Our world is mysterious and conspiratorial Networking is key people who exercise power accept that success depends upon who you know Some of these networks are obvious and visible while others are hidden Criminals and fundamentalist cults are sinister but some secret societies help and guard us There are wheels within wheels Unsuspected power sources are interconnected Concealed watchers and listeners monitor phones emails and the Internet Knowledge is power and secret knowledge is greater power Masonry has many secrets Signs codes ciphers passwords and symbols abound for those who recognize their meanings Masons are prominent throughout the world today in academic circles armed services police government commerce and industry finance and medicine What are their aims and how important is their influence Researchers believe some of Masonry's famous members have included Edward VIII George VI Franklin Delano Roosevelt Harry S Truman General Douglas MacArthur Gene Autry and Virgil Grisson *Secrets of King's College Chapel* Nigel Pennick, 2012-01-09 Today King's College Chapel is the iconic image of the City of Cambridge The chapel was founded in 1446 by the mystically inclined King Henry VI known in his time as the royal saint The king gave his builders complete instructions for a magnificent chapel of cathedral dimensions every part of which had a mystical and spiritual meaning This final flowering of the Great Work was designed from the principles of sacred geometry laid out and orientated by the ancient geomantic practice of the operative masons who built it This book gives an historic overview of the chapel and a summary of its construction notable for its stunningly beautiful fan vaulting and exceptional stained glass which still exists in its entirety Although the chapel's original significance as a symbolic structure has been eroded over the centuries it remains a place of wonder and reverence for countless thousands of visitors and those who watch on television the annual Christmas carol
