Myth and Reality, Leonard Glenn Smith, Charles R. Kniker, 1975 Narrative, Social Myth and Reality in Contemporary Scottish and Irish Women's Writing Tudor Balinisteanu, 2009-10-02 This book offers an original interdisciplinary analysis of the relations between myth identity and social reality involving elements of narratology theory linguistics philosophy anthropology and social theory harnessed to support an argument firmly located in the area of literary criticism This analysis yields a fairly extensive reinterpretation of the concept of myth which is applied to the examination of the relationship between narrative and social reality as represented in texts by contemporary Scottish and Irish women writers The main theoretical sources are Mikhail Bakhtin's theories of heteroglossia Jacques Derrida's theories of citationality and Judith Butler's theories of subjectivity The analysis framework developed in the book uses these theories to create a new way of understanding how literary texts change readers worldviews by enticing them to accept alternative possibilities of cultural expression of identity and social order The texts analysed in this book reconfigure naturalised stories that have become normative and constraining in conveying identities and visions of legitimate social orders The book's focus on feminine identities places it alongside feminist analyses of reconstructions of fairy tales myths or canonical stories that establish what counts as legitimate feminine identity Studied here for the first time together the writers whose texts form the interest of this book continue the revisionist work begun by other women writers who engage with the male generated literary philosophical and humanist tradition They share a view of narratives as tools for continually negotiating our identities social worlds and socialisation scenarios While the high level theoretical discourse of the first part of the book requires specialised knowledge the second part of the book offering close readings of the texts is both lively and accessible and should engage the interest of the general reader and academic alike This book is written for all those who are interested in the power words have to hold sway over our inner and outer social worlds

Myth and Ideology in Contemporary Brazilian Fiction Daphne Patai, 1983 Analyzing the thematic and formal

characteristics of six contemporary Brazilian novels this study explores the use of myth and its ideological implications The writers examined are Maria Alice Barroso Clarice Lispector Jorge Amado Carlos Heitor Cony Adonias Filho and Autran Dourado **Myth and Reality** ,1987 **Myth and Geology** Luigi Piccardi,W. Bruce Masse,2007 This book is the first peer reviewed collection of papers focusing on the potential of myth storylines to yield data and lessons that are of value to the geological sciences Building on the nascent discipline of geomythology scientists and scholars from a variety of disciplines have contributed to this volume The geological hazards such as earthquakes tsunamis volcanic eruptions and cosmic impacts that have given rise to myths are considered as are the sacred and cultural values associated with rocks fossils geological formations and landscapes There are also discussions about the historical and literary perspectives of geomythology Regional coverage includes Europe and the Mediterranean Afghanistan Cameroon India Australia Japan Pacific islands South America and North America Myth and Geology challenges the widespread notion that myths are fictitious or otherwise lacking in value for the physical sciences BOOK JACKET Renewable Energy: Myths and Obstacles Jean-François Lefebvre,Nicole Moreau,Jonathan Théorêt,2013-06-03T00:00:00-04:00 Oil production has peaked The climate is askew We are in a race to make the inevitable transition to renewable energies and energy conservation But numerous obstacles stand in the way of important and necessary energy developments Opposition to hydropower projects is now spilling over onto wind and solar projects By redeeming hydropower and telling the truth about the potential and limitations of other renewables the authors dispel myths and identify obstacles to the implementation of a truly sustainable energy strategy *Planks of Reason* Barry Keith Grant,Christopher Sharrett,2004-09-24 The original edition of Planks of Reason was the first academic critical anthology on horror In retrospect it appeared as a kind of homage to the golden age of the American horror film as this genre played an increasing role in film culture and American life The original material represented the history of the genre through the early 1980s and is a crucial part of the book's value then and now The first edition helped legitimize academic writing on the horror genre by addressing breakthrough works of such directors as John Carpenter Tobe Hooper George Romero David Cronenberg and Wes Craven This revised edition retains the spirit of the original but also offers new takes on rediscovered classics and recent developments in the genre In addition to reprinting 17 essays including Robin Wood's An Introduction to the American Horror Film this revised edition features a new essay on the yuppie horror film by editor Barry Keith Grant as well as an updated analysis of The Texas Chainsaw Massacre by co editor Christopher Sharrett Other new essays focus on William Castle's The Tingler and Roger Corman's Pit and the Pendulum and the recent wave of Japanese horror films Contains more than 60 photos **Reality and Truth in Literature** Irena Avsenik Nabergoj,2013-04-24 This study provides a critical survey of views on reality and truth in the realm of philosophy and literary theory Its aim is to show how important it is to focus our critical attention on literature itself as a way of conveying a general view of totality of things with special attention to human life and death effort and suffering success and failure A work of literature and art does not characterize

experience and knowledge as such but rather the response of concrete characters to the problems of human existence and fate The monograph deals with pre modern philosophical reflection on reality and truth with post modern ways of representation of reality in myth history biography autobiography and fiction and with sublime perceptions of beauty love and forgiveness The views of the writers show that there are important differences in presenting reality and truth in relation to material and historical facts But the most important distinction is in dealing with dimensions of true life of human persons in their ineffable feelings and ideas

YHWH in the Wind(s) Violet Chiswa Gandiya,2025-01-31 From interdisciplinary intertextual and comparative analytical perspectives this book engages with the epistemologies of the Global South and Global North to reveal a fresh insight into the image of YHWH in the guise of the phenomenal wind s and the purpose of this image in the biblical Hebrew tradition Therefore this book showcases YHWH appearing with the potent wind s to create and transform chaos into cosmic order at primal creation Likewise this discourse presents YHWH breaking into the historical and social realm in his various sociopolitical roles to destroy all forms of chaotic force by his bluster of wind s and to establish maintain or restore world social order founded on his rule of justice and righteousness This accounts for the view that all creation and order originate from YHWH and are maintained by YHWH s innate rules of ethical governance This fresh insight into the sights and sounds of YHWH asserting his rule in the dramaturgical wind s not only renders new meaning to biblical texts within their contexts but also offers a persuasive message and alluring theological reflections that can shape new discourses to engage and address contemporary theological and social issues of equity justice and harmony within YHWH s intended design of world and social order
