, 1999 **America's God** Mark A. Noll, 2002-10-03 Religious life in early America is often equated with the fire and brimstone Puritanism best embodied by the theology of Cotton Mather Yet by the nineteenth century American theology had shifted dramatically away from the severe European traditions directly descended from the Protestant Reformation of which Puritanism was in the United States the most influential In its place arose a singularly American set of beliefs In America's God Mark Noll has written a biography of this new American ethos In the 125 years preceding the outbreak of the Civil War theology played an extraordinarily important role in American public and private life Its evolution had a profound impact on America's self definition The changes taking place in American theology during this period were marked by heightened spiritual inwardness a new confidence in individual reason and an attentiveness to the economic and market realities of Western life Vividly set in the social and political events of the age America's God is replete with the figures who made up the early American intellectual landscape from theologians such as Jonathan Edwards Nathaniel W Taylor William Ellery Channing and Charles Hodge and religiously inspired writers such as Harriet Beecher Stowe and Catherine Stowe to dominant political leaders of the day like Washington Jefferson and Lincoln The contributions of these thinkers combined with the religious revival of the 1740s colonial warfare with France the consuming struggle for independence and the rise of evangelical Protestantism to form a common intellectual coinage based on a rising republicanism and commonsense principles As this Christian republicanism affirmed itself it imbued in dedicated Christians a conviction that the Bible supported their beliefs over those of all others Tragically this sense of religious purpose set the stage for the Civil War as the conviction of Christians both North and South that God was on their side served to deepen a schism that would soon rend the young nation asunder Mark Noll has given us the definitive history of Christian theology in America from the time of Jonathan Edwards to the presidency of Abraham Lincoln It is a story of a flexible and creative theological energy that over time forged a guiding national ideology the legacies of which remain with us to this day *Towards Jihad?* Eric Morier-Genoud, 2023-10-26 Since 2017 Mozambique has been confronted with a jihadi insurgency This book looks at the

origins of that insurgency and the broader and longer history of the relationship between Islam and politics in the country. Did Mozambique's Muslim politics always point towards jihad? Eric Morier Genoud examines the period immediately after independence when the state engaged in anticlericalism; he then moves across the decades to the 2000s when the ruling party and the opposition alike courted Muslims for electoral purposes, before reaching the 2010s when tensions between mosque and state returned. Along the way he explores a wide variety of phenomena including the rise of Wahhabism, religious competition, state mediation, secularism, the alleged growth and radicalisation of Islam, and the origins of the ongoing insurgency. What emerges is a rich history attentive to different branches and elements of the Muslim community looking far beyond the narrow perspective of jihad. Taking a socio-historical perspective, *Towards Jihad* unpacks a complex dynamic which the jihadi insurgency is in fact now disrupting. Understanding the long history of Muslims' engagement with politics in Mozambique sheds light on where the country has come from, where it stands now amidst violent unrest, and where it might go next.

The New Orleans Sisters of the Holy Family Edward T. Brett, 2012-04-15. The Sisters of the Holy Family, founded in New Orleans in 1842, were the first African American Catholics to serve as missionaries. This story of their little-known missionary efforts in Belize from 1898 to 2008 builds upon their already distinguished work through the Archdiocese of New Orleans of teaching slaves and free people of color, caring for orphans and the elderly, and tending to the poor and needy. Utilizing previously unpublished archival documents along with extensive personal correspondence and interviews, Edward T. Brett has produced a fascinating account of the 110-year mission of the Sisters of the Holy Family to the Garifuna people of Belize. Brett discusses the foundation and growth of the struggling order in New Orleans up to the sisters' decision in 1898 to accept a teaching commitment in the Stann Creek District of what was then British Honduras. The early history of the British Honduras mission concentrates especially on Mother Austin Jones, the superior responsible for expanding the order's work into the mission field. In examining the Belizean mission from the eve of the Second Vatican Council through the post-Vatican II years, Brett sensitively chronicles the sisters' efforts to conform to the spirit of the council and describes the creative innovations that the Holy Family community introduced into the Belizean educational system. In the final chapter, he looks at the congregation's efforts to sustain its missionary work in the face of the shortage of new religious vocations. Brett's study is more than just a chronicle of the Holy Family Sisters' accomplishments in Belize. He treats the issues of racism and gender discrimination that the African American congregation encountered both within the church and in society, demonstrating how the sisters survived and even thrived by learning how to skillfully negotiate with the white-dominant power structure.
