Myth and Reality Mircea Eliade, 1968 *Martin Buber on Myth (RLE Myth)* S. Daniel Breslauer, 2015-03-05 This book first published in 1990 summarizes and evaluates the contribution of Martin Buber as a theorist of myth Buber provides explicit guidelines for understanding and evaluating myths He describes reality as twofold people live either in a world of things to which they relate as a subject controlling its objects or in a world of self conscious others with whom one relates as fellow subjects Human beings require both types of reality but also a means of moving from one to the other Buber understands myths as one such means by which people pass from I It reality to I You meeting In studying myths he focuses on the myths in the traditions he knows best but offers his advice and interpretation of mythology and scholarship about mythology generally

Legends of People, Myths of State Bruce Kapferer, 2011-12-01 The civil war in Sri Lanka and the part that nationalism seemed to play in it inspired the writing of this book some twenty three years ago The argument was developed through a comparative analysis of nationalism in Sri Lanka with the author's native Australia At the time this constituted an innovative approach to comparison in anthropology as well as to nationalism and its possibilities It was not based on differences but on the way in which perspectives from within the two nationalisms when seen side by side could present an understanding of their implication in producing the violence of war racism and social exclusion The book has lost none of its importance and urgency as proven by the chapters in the Appendix written by top scholars working in Sri Lanka and in Australia These contributions bring together new material and critically explore the book's themes and their continued relevance to the various trajectories in nationalist processes since the first publication of the book

Teaching Freud Diane Jonte-Pace Professor of Religious Studies and Associate Vice Provost for Faculty Development Santa Clara University, 2003-03-04 As one of the first theorists to explore the unconscious fantasies fears and desires underlying religious ideas and practices Freud can be considered one of the grandparents of the field of Religious Studies Yet his legacy is deeply contested How can Freud be taught in a climate of critique and controversy The fourteen contributors to this volume all recognized scholars of religion and psychoanalysis describe how they address Freud's contested legacy they teach the debates They go on to describe their courses on Freud and religion their innovative pedagogical practices and the creative ways they work with resistance

Fascist Mythologies Federico Finchelstein, 2022-07-05 For fascism myth was reality or was realer than the real Fascist notions of the leader the nation power and violence were steeped in mythic imagery and the fantasy of transcending history A mythologized primordial past would inspire the heroic overthrow of a debased present to achieve a violently redeemed future What is distinctive about fascist mythology and how does this aspect of fascism help explain its perils in the past and present Federico Finchelstein draws on a striking combination of thinkers Jorge Luis Borges Sigmund Freud and Carl Schmitt to consider fascism as a form of political mythmaking He shows that Borges's literary and critical work and Freud's psychoanalytic writing both emphasize the mythical and unconscious dimensions of fascist politics Finchelstein considers their ideas of the self violence and the sacred as well as the relationship between the victims of fascist violence and the ideological myths of its perpetrators He draws on Freud and Borges to analyze the work of a variety of Latin American and European fascist intellectuals with particular attention to Schmitt's political theology Contrasting their approaches to the

logic of unreason Finchelstein probes the limits of the dichotomy between myth and reason and shows the centrality of this opposition to understanding the ideology of fascism At a moment when forces redolent of fascism cast a shadow over world affairs this book provides a timely historical and critical analysis of the dangers of myth in modern politics **Virtual**

Worlds Benjamin Woolley,1993 In *Virtual Worlds* Benjamin Woolley examines the reality of virtual reality He looks at the dramatic intellectual and cultural upheavals that gave birth to it the hype that surrounds it the people who have promoted it and the dramatic implications of its development Virtual reality is not simply a technology it is a way of thinking created and promoted by a group of technologists and thinkers that sees itself as creating our future *Virtual Worlds* reveals the politics and culture of these virtual realists and examines whether they are creating reality or losing their grasp of it 12 photographs

Teaching Freud Diane Elizabeth Jonte-Pace,2003 Freud can be considered one of the grandparents of the field of religious studies yet students often assume that Freud is sexist dangerous passe and irrelevant to the study of religion The contributors to this volume describe how they address Freud s contested legacy *Docu-Fictions of War* Tatiana Prorokova,2019-05-01 Historical writing and fiction are not the same thing though historians often creatively manipulate material in imposing plot structures selecting starting and ending points and fashioning compelling literary characters from historical figures In *Docu Fictions of War* Tatiana Prorokova argues that the opposite is also true war fiction offers a kind of history that both documents its subjects and provides a snapshot of the cultural representation of the United States most recent military involvements She covers a largely neglected body of cinematic and literary texts about the First Gulf War the Balkan War the Afghanistan War and the Iraq War to open a fresh analysis of cultural texts on war Prorokova contends that these texts are not pure fiction but docu fictions works of imagination that can document their subjects while disclosing the social political and historical link between war and culture during the last three decades *Docu Fictions of War* analyzes how these representational narratives have highlighted a humanitarian rationale behind American involvement in each war whether the stated goals were to free the oppressed from tyranny stop genocide or rid the world of terrorism The book explores the gap between history what allegedly happened and the cultural mythology that is both true and inexact tangible and sensed recognized and undocumented The Absence of Myth Sophia Heller,2012-02-01 In this provocative work Sophia Heller challenges the assumption that we cannot be without myth that myth is necessary to vital soulful living Indeed Heller argues we have been living in a world without myth for a long time *The Absence of Myth* examines the loss of a religious mode of being in the world and demonstrates how theorists who insist on the presence of myth deny its historical end Absence of myth may seem obvious evidenced by our lack of cult and ritual and by our de animated natural world as well as in the emergence of conceptual thought and psychological awareness which could only arise with the dissolution of a prereflective mythic mode of being in the world But what appears to be straightforward becomes complicated when myth is intentionally conflated with thought and reflection usually in the attempt to cultivate a mythic consciousness that aims to

restore meaning to life and assuage the spiritual malaise of contemporary culture Myth cannot rest in peace It must be continually unearthed redefined and recontextualized such that modern and postmodern notions of myth are made to substitute for something that has never been experienced only imagined The Aesthetics of Mythmaking in German Postwar Culture André Fischer,2024-03-15 Myths are a central part of our reality But merely debunking them lets us forget why they are created in the first place and why we need them Andr Fischer draws on key examples from German postwar culture from novelists Hans Henny Jahn and Hubert Fichte to sculptor and performance artist Joseph Beuys and filmmaker Werner Herzog to show that mythmaking is an indispensable human practice in times of crisis Against the background of mythologies based in nineteenth century romanticism and their ideological continuation in Nazism fresh forms of mythmaking in the narrative visual and performative arts emerged as an aesthetic paradigm in postwar modernism Boldly rewriting the cultural history of an era and setting in transition The Aesthetics of Mythmaking in German Postwar Culture counters the predominant narrative of an exclusively rational Vergangenheitsbewältigung coming to terms with the past Far from being merely reactionary the turn toward myth offered a dimension of existential orientation that had been neglected by other influential aesthetic paradigms of the postwar period Fischer's wide ranging transmedia account offers an inclusive perspective on myth beyond storytelling and instead develops mythopoesis as a formal strategy of modernism at large
