more **The Ethics of Romanticism** Laurence S. Lockridge, 1989-11-02 Laurence Lockridge argues that a focus on the ethical dimension of literature is the single most powerful strategy for structuring a writer's work as a whole and that it can even prove congenial. He gives original interrelated readings of eight major British Romantic writers. Reason, Grace, and Sentiment: Volume 2, Shaftesbury to Hume Isabel Rivers, 2000-03-09 This volume completes Isabel Rivers' widely acclaimed exploration of the relationship between religion and ethics from the mid-seventeenth to the later eighteenth centuries. She investigates the effect of attempts to separate ethics from religion and to locate the foundation of morals in the constitution of human nature. Focusing on moral philosophy and the educational institutions in which or in spite of which these ideas were developed, the book pays close attention to the movement of ideas through the British Isles, in particular the spread of Shaftesbury's thought from England to Ireland and Scotland and the varied reception of Hume's scepticism north and south of the border. It also demonstrates the enormous influence of Shaftesbury's moral thought and the ultimate triumph of the English interpretation of Shaftesbury with the rise of Butler. Meticulously researched and accessibly written, this volume makes a vital contribution to our understanding of eighteenth-century thought. *Exploring a Theory of Morality and Religion: Moderate Constructivism* Charles Goossens, 2020-12-01 This book is a fundamental contribution to well-known debates about intuitionism in ethics in light of older traditions. Debates about moral intuitionism do not take into account the theoretical resources of moderate voluntarism. The author submits that these debates should focus attention on intellectualism versus voluntarism instead of intuitionism versus utilitarianism. Whereas, according to moral intellectualism, moral duty is seen by intuition or detected otherwise, according to moderate voluntarism, moral duty is created or generated by moral commitment, commitment being used in a broad technical sense. The author argues for moderate voluntarism. According to moderate voluntarism, moral duty can be explained by bringing out moral commitments which are correctly articulated by principles of moral duty at issue. A question about moral duty is whether pertinent moral commitments are reasonable and acceptable. Absolute moral duty too is generated or constructed rather than detected. Moderate voluntarism does not deny that moral duties independent of commitment exist. The title of the first edition was *Exploring an Explanation of Moral Duty: Moderate Voluntarism*. This second edition is enlarged by a new essay on moderate religious constructivism, which is similar to moderate voluntarism. Moderate constructivism does not explain religion using traditional ways of access such as revelation of a divine message. People may create a higher world by extrapolation from things around us to a higher religious world. Moderate constructivism holds that certain statements about that higher world are relatively true, that is, true dependent on religious extrapolation. *The Cambridge History of Eighteenth-century Philosophy* Knud Haakonssen, 2006 This two-volume set presents a comprehensive and up-to-date history of eighteenth-century philosophy. The subject is treated systematically by topic, not by individual thinker, school, or movement, thus enabling a much more historically nuanced picture of the period to be painted. **Protestant Nonconformist Texts: The eighteenth century** Alan P. F. Sell, Kenneth

Dix, Alan Ruston, 2006 This book is one of four substantial volumes designed to demonstrate the range of interests of the several Protestant Nonconformist traditions from the time of their Separatist harbingers to the end of the twentieth century In this volume we are concerned with the eighteenth century It was a period in which Old Dissent the Congregationalists Baptists Presbyterians and Quakers had to face challenges from Enlightenment thought on the one hand and Evangelical Revival enthusiasm on the other Largely in their own words though with introductions contributed by the editors we enter into the philosophical world of Isaac Watts Richard Price and others we overhear doctrinal disputes over the doctrine of the Trinity we meet such new arrivals on the religious scene as the Moravians Sandemanians Swedenborgians and Methodists Calvinistic and Arminian We consider the Nonconformists views on the Church the ministry and the sacraments on Church state and society and on Christian nurture piety and church life From philosophical tomes to hymns from sacramental questions to prison reform from the most strait laced Presbyterian to the most enthusiastic Jumper this volume will remind scholars of and acquaint others with the intellectual excitements the practical witness and the worship of the eighteenth century Nonconformists Protestant Nonconformist Texts Volume 2 Alan P.F. Sell, David J. Hall, Ian Sellers, 2015-02-05 This book is one of four substantial volumes designed to demonstrate the range of interests of the several Protestant Nonconformist traditions from the time of their Separatist harbingers to the end of the twentieth century In this volume we are concerned with the eighteenth century It was a period in which Old Dissent the Congregationalists Baptists Presbyterians and Quakers had to face challenges from Enlightenment thought on the one hand and Evangelical Revival enthusiasm on the other Largely in their own words though with introductions contributed by the editors we enter into the philosophical world of Isaac Watts Richard Price and others we overhear doctrinal disputes over the doctrine of the Trinity we meet such new arrivals on the religious scene as the Moravians Sandemanians Swedenborgians and Methodists Calvinistic and Arminian We consider the Nonconformists views on the Church the ministry and the sacraments on Church state and society and on Christian nurture piety and church life From philosophical tomes to hymns from sacramental questions to prison reform from the most strait laced Presbyterian to the most enthusiastic Jumper this volume will remind scholars of the intellectual excitements the practical witness and the worship of the eighteenth century Nonconformists **Essays on Ethics and Method** Henry Sidgwick, 2000-12-21 Essays on Ethics and Method is a selection of shorter writings on the 19th century philosopher Henry Sidgwick The essays develop further Sidgwick's ethical ideas and illuminate other aspects of his thought Richard Price and the Ethical Foundations of the American Revolution Richard Price, 1979 Richard Price was a loyal although dissenting subject of Great Britain who thought the British treatment of their colonies as wrong not only prudentially financially economically militarily and politically but above all morally wrong He expressed these views in his first pamphlet early in 1776 It concluded with a plea for the cessation of hostilities by Great Britain and reconciliation Its analyses arguments and conclusions however along with its admiration for the colonists their moral position and qualities

could hardly fail to contribute to their reluctant recognition that there was no real alternative to independence Price found some of his views not only misunderstood but vilified by negative critics in the ensuing controversy So he wrote a second pamphlet which was published in early 1777 He expanded his analysis of liberty extended its application to the war with America and greatly expanded his discussion of the economic impact upon Great Britain After the war in 1784 he published a third pamphlet on the importance of the American Revolution and the means of making it a benefit to the world appending an extensive letter from the Frenchman Turgot Implicitly the letter regards Price as a perceptive theorist of the revolution explicitly it identifies the problems facing the prospective new nation and expresses a wish that it will fulfill its role s the hope of the world Selections in the appendices present a part of the pamphlet controversy and the selection of correspondence shows how seriously Price was regarded by Revolutionary leaders *The Correspondence of Richard Price: July 1748-March 1778* Richard Price, Bernard Peach, David Oswald Thomas, 1983

Pulpits, Politics and Public Order in England, 1760-1832 Robert Hole, 2004-05-20 This book explores the relationship between religion and

politics in England from the accession of George III to the First Reform Bill considering the political and social ideas of Catholics Anglicans Methodists Dissenters deists and atheists It examines the effect of the French Revolution on Christian political and social theory as well as reactions to the American Revolution riots and disorder economic and social education secularisation Blasphemy and Seditious Libel the growth of atheism and the Reform of the Constitution in 1832 Major figures such as Burke Paine Wollstonecraft Coleridge Bentham and Wesley are considered but popular everyday arguments are also analysed The book examines Christian views on political obligation and the right of rebellion and suggests that religion was used as a means of social control to maintain public order and stability in a rapidly changing society Dictionary of Twentieth-Century British Philosophers Stuart Brown, 2005-06-01 This is a two volume work with entries on individuals who made some contribution to philosophy in the period 1900 to 1960 or soon after The entries deal with the whole philosophical work of an individual or in the case of philosophers still living their whole work to date Typically the individuals included have been born by 1935 and by now have made their main contributions Contributions to the subject typically take the form of books or journal articles but influential teachers and people otherwise important in the world of philosophy may also be included The dictionary includes amateurs as well as professional philosophers and where appropriate thinkers whose main discipline was outside philosophy There are special problems about the term British in the twentieth century partly because of human migration partly because of decolonization and the changing denotation of the term The intention has been to include not only those who were British subjects at least for a significant part of their lives even if they mostly lived outside what is now the U K but also people who spent a significant part of their lives in Britain itself irrespective of their nationality or country of origin In the first category are included for instance a number of people who were born and educated in Britain but who subsequently taught in universities abroad In the second category are included those who were born elsewhere but who came to Britain and contributed to its philosophical culture *Ethical Rationalism and Secularisation in the British Enlightenment* Dafydd Mills Daniel, 2020-10-22 This book reassesses the ethics of reason in the Age of the Reason making use of the neglected category of conscience Arguing that conscience was a central feature of British Enlightenment ethical rationalism the book explores the links between Enlightenment philosophy and modern secularisation while responding to longstanding criticisms of rational intuitionism and the analogy between mathematics and morals derived from David Hume and Immanuel Kant Questioning in what sense British Enlightenment ethical rationalism can be associated with a secularising Enlightenment project Daniel investigates the extent to which contemporary and secular liberal invocations of reason and conscience rely on the early modern Christian metaphysics they have otherwise disregarded The chapters cover a rich collection of subjects ranging from the Enlightenment's secular legacy reason and conscience in the history of ethics and controversies in the Scottish Enlightenment to the role of British moralists such as John Locke Joseph Butler and Adam Smith in the secularisation of reason and conscience Each chapter expertly refines Enlightenment ethical rationalism by

reinterpreting its most influential proponents in eighteenth century Britain the followers of Isaac Newton's bulldog Samuel Clarke including Richard Price Edmund Burke's opponent over the French Revolution and John Witherspoon the only clergyman to sign the US declaration of Independence
