The Revival of Pragmatism Morris Dickstein, 1998-11-23 An assessment by a distinguished panel of experts on the impact of pragmatism on contemporary thought

Process Mysticism Daniel A. Dombrowski, 2023-01-01 Process Mysticism uses the process philosophies of Charles Hartshorne Alfred North Whitehead and Henri Bergson to explore mystical religious experiences The aim is not so much to demonstrate that such experiences are true or veridical as it is to understand in a William Jamesian fashion how they could be possible and not contradict the concept of God held by philosophers and theologians Divine world inclusiveness ideal power and tragedy the ontological argument asceticism and the via negativa divine visions and voices and the aesthetics and ethics of mysticism are all treated in detail The book is ecumenical in that it is meant to illuminate mystical experiences as they occur around the world in different religious traditions but the author is especially familiar with those in the Abrahamic religions Mysticism can refer to either direct experience of God or the claim that such experience is ineffable and both senses of the term are carefully analyzed in the book

Encounters with God in Augustine's Confessions Carl G. Vaught, 2012-02-01 This book continues Carl G Vaught's thoroughgoing reinterpretation of Augustine's Confessions one that rejects the view that Augustine is simply a Neoplatonist and argues that he is also a definitively Christian thinker As a companion volume to the earlier Journey toward God in Augustine's Confessions Books I VI it can be read in sequence with or independently of it This work covers the middle portion of the Confessions Books VII IX Opening in Augustine's youthful maturity Books VII IX focus on the three pivotal experiences that transform his life the Neoplatonic vision that causes him to abandon materialism his conversion to Christianity that leads him beyond Neoplatonism to a Christian attitude toward the world and his place in it and the mystical experience he shares with his mother a few days before her death which points to the importance of the Christian community Vaught argues that time space and eternity intersect to provide a framework in which these three experiences occur and which give Augustine a three fold access to God

postmodern interpretations of science PIS and the closely related sociology of scientific knowledge SSK This movement traces its origin to Thomas Kuhn's revolutionary work *The Structure of Scientific Revolutions* 1962 but is more extreme It believes that science is a social construction having little to do with nature and is determined by contextual forces such as the race class gender of the scientist laboratory politics or the needs of the military industrial complex Since the 1970s PIS has become fashionable in the humanities social sciences and ethnic or women's studies as well as in the new academic discipline of Science Technology and Society STS It has been attacked by numerous authors and the resulting conflicts led to the so called Science Wars of the 1990s While the present book is also critical of PIS it focuses on its intellectual and political origins and tries to understand why it became influential in the 1970s The book is both an intellectual and a political history It examines the thoughts of Karl Popper Karl Mannheim Ludwik Fleck Thomas Kuhn Paul Feyerabend David Bloor Steve Woolgar Steve Shapin Bruno Latour and PIS like doctrines in mathematics It also describes various philosophical contributions to PIS ranging from the Greek sophists to 20th century post structuralists and argues that the disturbed political atmosphere of the Vietnam War era was critical to the rise of PIS
