Transgressive Bodies Niall Richardson, 2016-02-17 In recent years the body has become one of the most popular areas of study in the arts social sciences and humanities Transgressive Bodies offers an examination of a variety of non normative bodies and how they are represented in film media and popular culture Examining the non normative body in a cultural studies context this book reconsiders the concept of the transgressive body establishing its status as a culturally mutable term arguing that popular cultural representations create the transgressive or freak body and then proceed to either contain its threat or s exploit it Through studies of extreme bodybuilding obesity disability and transsexed bodies it examines the implications of such transgressive bodies for gender politics and sexuality Transgressive Bodies engages with contemporary cultural debates always relating these to concrete studies of media and cultural representations This book will therefore appeal to scholars across a range of disciplines including media and film studies cultural studies gender studies sociology sports studies and cultural theory

Doing Rebellious Research , 2022-05-09 The ways in which research and scholarship are co produced co performed and proclaimed as particular kinds of knowledges and truths in and beyond the academy is radically changing The capacity to write rebelliously in varying registers and voices tempos and volumes as featured across this book is boundaryless In this edited volume we ask new questions which simultaneously trouble and open up what the product and performance of academic work words and worlds might come to be At the heart of this book we move between departing radically from academic writing to arriving at a new academic endeavor and transaction between reader and text driven by the invitation to open rebellion in academic research and writing This unique volume brings together an extraordinary range of international scholars researchers and artists that include contemporary social scientists critical theorists visual artists poets musicians hip hoppers choreographers activists film makers theatre makers magicians and circus artists from both within and outside the academy in Europe UK India Africa USA Canada Australia and New Zealand They articulate new concepts for thinking differently generate new theories differently and present new methods of writing differently This book provides permission to depart radically in academic writing and creative practice particularly for doctoral and higher degree research students and those who work alongside them as supervisors and advisors and higher research degree educators The claim here is that rebellious departures and performances in academic research and writing are the future of academia This book provides a series of steps toward preparing for that future

Uncovering the Body Ed Levine, 2005 Uncovering the Body provides a new perspective on how to experience and think about art and the artistic process It uses the bodily experience as the source and mode of engaging and experiencing work Our older ways of thinking about art imply the dualities of mind and body reason and feeling Author Ed Levine includes chapters on the following subject matter to explain his innovative philosophy Bodily thoughts and the intelligent flesh Art and ornithology artist as migratory bird The artistic process Looking into time Western culture is marked by dualities of mind and body and of body

and spirit which have found their way into our thinking and understanding of art and the artistic process Thinking and experiencing through and by means of the body can dissolve these dichotomies and provide an alternative way of engaging and finding meaning in works of art Uncovering the Body provides an alternative to the postmodern interpretation of art It offers a point of view that moves beyond the limitations that postmodern thinking imposes on our understanding of art and its methods By reengaging our bodies we can establish a new relationship between art and ourselves *Perfecting Training* Witness Lee, 1990-06-01 According to Ephesians 4 11 16 we are first told that the gifts were given And He gave some apostles and some prophets and some evangelists and some shepherds and teachers This is the initial step then the result is unto the work of the ministry that is unto the building up of the Body of Christ How could the Body be built up By the growth in life Then out of the growth in life the function will come the operation in measure of each one part to cause the growth of the Body unto the building up of itself in love Thus there is the initial stage and then there is the result Between these two ends is the perfecting of the saints If there is no perfecting of the saints all the gifts given by the Head become vain Also there will be nothing to cause the growth of the Body in life that functions may come out to build up the Body in love The crucial and central point in this portion of the Word is the perfecting of the saints Throughout the past years the Lord has been leading us in the ministry to perfect the saints for the growth in life so that the functions may come out to build up the Body in love **Rebellion and Revolution** Melissa Etzler, Priscilla Layne, 2020-05-22 Rebellion and Revolution Defiance in German Language History and Art is a transnational collection of twelve essays by scholars of history literature and film It offers new perspectives on several of the key moments in history when the German revolutionary spirit was at its peak Inspired by both the 20th anniversary of the Fall of the Berlin Wall and the 40th anniversary of the student movements of 1968 this book contributes to current discourses on resistance by providing a retrospective look at events and time periods ranging from the German Peasants War of 1525 to the American War for Independence and the French Revolution in the 18th century and from the tumultuous period of the Weimar Republic up until the final days of the German Democratic Republic This book not only provides a new outlook on important historical moments and sociopolitical issues rather the articles take a multidisciplinary approach to analyze a variety of artistic works inspired by historical rebellious movements This book provides a variety of theoretical interpretations which will be useful to readers interested in historiography gender studies rhetoric philosophy film music and literature **Digital Theatre** Nadja Masura, 2020-10-21 Digital Theatre is a rich and varied art form evolving between performing bodies gathered together in shared space and the ever expanding flexible reach of the digital technology that shapes our world This book explores live theatre performances which incorporate video projection animation motion capture and triggering telematics and multisite performance robotics VR and AR Through examples from practitioners like George Coates the Gertrude Stein Repertory Theatre Troika Ranch David Saltz Mark Reaney The Builder s Association and ArtGrid a picture emerges of how and why digital technology can be used to effectively create

theatre productions matching the storytelling and expressive needs of today's artists and audiences. It also examines how theatre roles such as director, actor, playwright, costumes, and set are altered and how ideas of body, place, and community are expanded. *Totempole* Sanford Friedman, 2014-09-02. Totempole is Sanford Friedman's radical coming-of-age novel featuring Stephen Wolfe, a young Jewish boy growing up in New York City and its environs during the Depression and war years. In eight discrete chapters which trace Stephen's evolution from a two-year-old boy to a twenty-four-year-old man, Friedman describes with psychological acuity and great empathy Stephen's intellectual, moral, and sexual maturation. Taught to abhor his body for the sake of his soul, Stephen finds salvation in the eventual unification of the two: the recognition that body and soul should not be partitioned but treated as one being, one complete man. Hamburg during the G20 gathering, Washington D.C. on the day of Trump's inauguration, the squares and streets of Paris and Tunis at the end of 2018. Public space is temporarily taken by those who rise against the powers that keep structural oppression and social order in its place. Not only riots but collective social centres, protest camps, and temporary as well as permanent occupations of lands and buildings are other utopian spatial alternatives created by autonomous social movements to prefigure a horizontal social organization. This book discusses spatial practices of autonomous social movements: the movements who see their everyday experiences and creations as the revolution they are making together with these movements and in taking the diversity of their articulations into account. Sites of Dissent is thus the story of a daring attempt to create research practices for radical transformation which requires a radical transformation of research practices. During this attempt, methodological rules of scientific research are broken and methodological heresy and wild experimentation with research practices take place. Sites of Dissent aims at opening new possibilities of including diverse

ways of knowing and speaking into a collective knowledge creation process at overcoming the individualized isolation in which the researcher produces knowledge about the outside world and it aims to create a space for collective learning about spatial practices of autonomous social movements to learn with and from the movements *Conscious Living* Swami Rama, 2007-08-15 Based on the lectures delivered by the author in Singapore during 1991 and 1992 *A Companion to Rainer Werner Fassbinder* Brigitte Peucker, 2012-01-04 *A Companion to Rainer Werner Fassbinder* is the first of its kind to engage with this important figure Twenty eight essays by an international group of scholars consider this controversial director's contribution to German cinema German history gender studies and auteurship A fresh collection of original research providing diverse perspectives on Fassbinder's work in films television poetry and underground theatre Rainer Werner Fassbinder remains the preeminent filmmaker of the New German Cinema whose brief but prolific body of work spans from the latter half of the 1960s to the artist's death in 1982 Interrogates Fassbinder's influence on the seminal ideas of his time auteurship identity race queer studies and the cataclysmic events of German twentieth century history Contributions from internationally diverse scholars specializing in film culture and German studies Includes coverage of his key films including *Gods of the Plague* 1970 *Beware of a Holy Whore* 1971 *The Bitter Tears of Petra von Kant* 1972 *Martha* 1973 *TV World on a Wire* 1973 *Effi Briest* 1974 *Ali Fear Eats the Soul* 1974 *Fox and His Friends* 1975 *Fear of Fear* 1975 *Chinese Roulette* 1976 *In a Year With 13 Moons* 1978 *Despair* 1978 *The Third Generation* 1979 *Berlin Alexanderplatz* 1980 *TV and Querelle* 1982 *Global Cultures of Contestation* Esther Peeren, Robin Celikates, Jeroen de Kloet, Thomas Poell, 2017-11-30 This book guides the reader through the many complications and contradictions that characterize popular contestation today focusing on its socio political cultural and aesthetic dimensions The volume recognizes that the same media and creative strategies can be used to pursue very different causes as the anti gay marriage *Manif Pour Tous* movement in France makes clear The contributors are scholars from the humanities and social sciences who analyze protests in particular regions including Egypt Iran Australia France Spain Greece and Hong Kong and transnational protests such as the NSA leaks and the mobilization of migrants and refugees Not only the specificity of these protest movements is examined but also their tendency to connect and influence each other as well as the central often ambiguous role global digital platforms play in this *City Devotional* Joel D. The Vagina: A Literary and Cultural History Emma L. E. Rees, 2013-08-01 From South Park to Kathy Acker and from Lars Von Trier to Sex and the City women's sexual organs are demonized Rees traces the fascinating evolution of this demonization considering how calling the c word obscene both legitimates and perpetuates the fractured identities of women globally Rees demonstrates how writers artists and filmmakers contend with the dilemma of the vagina's puzzlingly covert visibility In our postmodern porn obsessed culture vaginas appear to be everywhere literally or symbolically but crucially they are as silenced as they are objectified The Vagina A Literary and Cultural History examines the paradox of female genitalia through five fields of artistic expression literature film TV visual and performance art There is a peculiar paradox unlike any other regarding female genitalia Rees focuses on this paradox of what is termed the covert visibility of the vagina and on its monstrous manifestations That is what happens when the female body refuses to be pathologized eroticized or rendered subordinate to the will or intention of another Common and often offensive slang terms for the vagina can be seen as an attempt to divert attention away from the reality of women's lived sexual experiences such that we don't look at the vagina itself slang offers a convenient distraction to something so taboo The Vagina A Literary and Cultural History is an important contribution to the ongoing debate in understanding the feminine identity **The Collected Works of Witness Lee, 1980, volume 1** Witness Lee, The Collected Works of Witness Lee 1980 volume 1 contains messages given by Brother Witness Lee from January 6 1980 through May 21 1982 In 1980 Brother Lee spoke one hundred thirty two messages that were published in Life study of Exodus Life study of Colossians Life study of Galatians Life study of Philippians and Life study
