Beckford,2019-03-19 This book first published in 1989 demonstrates that sociologists have much to gain from a strengthening of the connections between general theories about the changing character of modern western societies and specific studies of religion It combines an exegesis of sociological classics in the study of religion and a history of their influence upon the subject s development a criticism of Talcott Parson s attempt to synthesise classical viewpoints into a single theory of modernity a discussion of post Parsonian theories of religion s declining importance and an argument that some quasi Marxist thinkers may offer fresh insights into the place of religion in capitalist societies Post-Secular Society Peter Nynas,Mika Lassander,Terhi Utriainen,2012-08-14 Are we still secular If not what can one possibly mean by post secular The answers depend on what one considers secular as well as the people societies and institutions that one considers Post Secular Society argues for the experience of living in a secular world and a secular age and the experience of living without religion as a normal condition Religion in the Western world is often described as being marked to some degree by both innovation and disarray The past couple of decades have seen the emergence of reformulated versions of theories of secularization variants of rational choice and supply side models of religion and new theoretical perspectives on de secularization of religion In spite of these different approaches and perspectives a majority of scholars agree that the West is experiencing a general resurgence of religion and that the public visibility of religious actors and discourses is on the rise across most Western societies Post Secular Society discusses the changes in religion related to globalization as well as New Age and other forms of popular religion The contributors review religion that is rooted in the globalized political economy and the relationship of post secularism to popular and consumer culture They also detail current innovative discourse as a religious belief system discuss theories of the post secular religious and spiritual well being and consider healing practices in Finland and environmentalism
