Renderings, Words on Canvas Kathy Nesselroad,2005-06-01 Renderings Words on Canvas takes the reader on a journey through the darkness recognition redemption comfort and conscience of life Each poem paints a picture of subsistence in its rawest form and forces the reader to take notice of emotions and truths that lie underneath the guise of acceptance and complacency The Darkness visits the deepest recesses of the mind and embraces the pain insecurities and fear that hold captive the spirit in each of us The Recognition sheds light on the beauty of family we sometimes take for granted the love we all need in order to survive and the loss that we can neither escape nor ignore as one of life's bitter realities The Redemption brings realism to the forefront and asks the reader to contemplate the priorities in their world The Comfort reminds us it is okay to see the beauty underneath the darkness and to smile more than just occasionally Finally The Conscience through description assumption and observation triggers the questions we all want to have answered and ignites new questions of how we live and what we are willing to accept from others and ourselves **The Culture of Fragments** Clara

Orban,2023-11-20 Works of art such as paintings with words on them or poems shaped as images communicate to the viewer by means of more than one medium Here is presented a particular group of hybrid art works from the early twentieth century to discover in what way words and images can function together to create meaning The four central artists considered in this study investigate word image forms in their work F T Marinetti invented parole in libert  among other ideas to free language from syntactic connections Umberto Boccioni experimented with newspaper clippings on the canvas from 1912 1915 and these collages constitute an important exploration into word image forms Andr  Breton's collection of poems Clair de terre 1923 contains several typographical variations for iconographic effect Ren Magritte explored the relationship between words and images juxtaposing signifiers to contradictory signifieds on the canvas A final chapter introduces media other than poetry and painting on which words and images appear Posters the theater and the relatively new medium of

cinema foreground words and images constantly This volume will be of interest to scholars of twentieth century French or Italian literature or painting and to scholars of word and image studies

the increasing circulation of pictures and the democratization of the viewing public generated the need for a shorthand by which to identify works at a far remove from their creation The spread of literacy both encouraged the practice of titling pictures and aroused new anxieties about relations between word and image including fears that reading was taking the place of looking Yeazell demonstrates that most titles composed before the nineteenth century were the work of middlemen and even today many artists rely on others to name their pictures A painter who wants a title to stick Yeazell argues must engage in an act of aggressive authorship She investigates prominent cases such as David s Oath of the Horatii and works by Turner Courbet Whistler Magritte and Jasper Johns Examining Western painting from the Renaissance to the present day *Picture Titles* sheds new light on the ways that we interpret and appreciate visual art **The Art of Rendering** Frank H. privacy **Rendering** Kyle May, Julia van den Hout, 2012-01-01 As information is distributed and consumed at an increasingly rapid pace one of the most effective or at least pervasive ways to communicate architectural ideas is through renderings Typically a perspectival image that can be understood without any knowledge of architectural drawing conventions the rendering derives power from its accessibility to a wide audience hence its crucial role in design competitions client presentations press releases and other such public forums While these architectural visualizations are certainly nothing new advances in software and hardware have enabled renderings to be made faster and more realistic than ever before This presents both an opportunity and a challenge On the one hand design concepts can now be tested and conveyed with an unprecedented degree of visual accuracy Conversely whether through omission extreme dramatization or even intentional fakery architects now have the ability to realistically depict the impossible Furthermore both clients and public are beginning to expect photorealistic imagery even at the earliest stages of a project when supposed realism can oftentimes belie the fundamentally speculative nature of design Given the importance of these images in mediating between architects and the people they ultimately serve CLOG will critically assess the state of renderings today
