Renewing Philosophy:

Renewing Philosophy Hilary Putnam, 1995-08-11 Hilary Putnam one of America's most distinguished philosophers surveys an astonishingly wide range of issues and proposes a new clear cut approach to philosophical questions a renewal of philosophy He discusses topics from artificial intelligence to natural selection *Renewing Philosophy*, 2002 **Managing Self-renewal in Secondary Education** William Jay Bailey, 1975 *Space, Time and Culture* David Carr, Chan-Fai Cheung, 2012-11-03 Interculturality has been one of key concepts in phenomenological literature It seeks to clarify the philosophical basis for intercultural exchange within the horizon of our life world The essays in this volume focus on the themes around space time and culture from the perspectives of Chinese and Western phenomenologists Though the discussions begin with classical phenomenological texts in Husserl Heidegger or Merleau Ponty they extend to the problems of Daoism and Buddhism as well as to sociology and analytic philosophy The collection of this volume is a fruitful result of inter cultural exchange of phenomenology *Badiou and the German Tradition of Philosophy* Jan Völker, 2019-02-07 The oeuvre of Alain Badiou has gained international success and recognition but most of the secondary literature focuses on internal problems of Badiou's philosophy rather than its position within a broader philosophical genealogy This book unites philosophers from Germany Slovenia the UK Australia and France to trace the relation between elements of Badiou's philosophy and the German philosophical tradition namely the three significant movements of German Idealism Phenomenology Marxism and the Frankfurt School This is a discussion that has not yet been established although the parallels and decisive differences between poststructuralist French philosophy and German philosophy are apparent Through these paradigms Badiou's reception of German Idealism Marxism Adorno and the Critical Theory and Heideggerian phenomenology the authors shed light onto Badiou's inheritance of and engagement with these specific traditions but also highlight the links between these philosophies to open up new questions for contemporary continental thought With an original chapter from Alain Badiou himself looking back at his influences and antagonisms within the German tradition this book is essential for readers interested in the exploration of Badiou's legacy It illustrates the continuation of poststructuralist philosophy Critical Theory and the Frankfurt School assessing the place of classic continental philosophy to tackle how we might benefit from these intellectual exchanges today **Neurophilosophy of Free Will** Henrik Walter, 2009-01-23 Walter applies the methodology of neurophilosophy to one of philosophy's central challenges the notion of free will Neurophilosophical conclusions are based on and consistent with scientific knowledge about the brain and its functioning Neuroscientists routinely investigate such classical philosophical topics as consciousness thought language meaning aesthetics and death According to Henrik Walter philosophers should in turn embrace the wealth of research findings and ideas provided by neuroscience In this book Walter applies the methodology of neurophilosophy to one of philosophy's central challenges the notion of free will Neurophilosophical conclusions are based on and consistent with scientific

knowledge about the brain and its functioning Walter's answer to whether there is free will is It depends The basic questions concerning free will are 1 whether we are able to choose other than we actually do 2 whether our choices are made intelligibly and 3 whether we are really the originators of our choices According to Walter freedom of will is an illusion if we mean by it that under identical conditions we would be able to do or decide otherwise while simultaneously acting only for reasons and being the true originators of our actions In place of this scientifically untenable strong version of free will Walter offers what he calls natural autonomy self determination unaided by supernatural powers that could exist even in an entirely determined universe Although natural autonomy can support neither our traditional concept of guilt nor certain cherished illusions about ourselves it does not imply the abandonment of all concepts of responsibility For we are not mere marionettes with no influence over our thoughts or actions

Pragmatism Russell B. Goodman, 2020-11-25 Russell Goodman examines the curious reemergence of pragmatism in a field dominated in the past decades by phenomenology logic positivism and deconstruction With contributions from major contemporary and classical thinkers such as Cornel West Richard Rorty Nancy Fraser Charles Sanders Peirce and Ralph Waldo Emerson Russell has gathered an impressive chorus of philosophical voices that reexamine the origins and complexities of neo pragmatism The contributors discuss the relationship of pragmatism and literary theory phenomenology existentialism and the work of Ralph Waldo Emerson They question the meaning of pragmatics what it is to be practical and ask provocative questions such as what is reading and whether democracy is a precondition for the functioning of intelligence This work places this reemergent and interesting neo development in its proper context and will provide readers with a strong sense of the movement's foundations history and subtleties **Volume 1**

Freud's Mass Psychology C. Surprenant, 2002-12-06 Freud's Mass Psychology examines one of the key concepts in the theory of the psyche Surprenant treats it as an epistemological issue rather than exclusively as a socio political issue Focusing on this neglected concept enables the author to raise anew the question of the application of psychoanalysis beyond a mechanistic understanding of this term and of Freud's writings This study brings together important topics associated with

Beyond Deconstruction Alberto Martinengo, 2012-08-31 The controversy over Jacques Derrida's legacy is one of the most effective engines driving the contemporary debate far beyond the bounds of philosophy By now the variety of contesting positions is so wide that it calls for a critical assessment to achieve a unified theoretical scheme The dyad of deconstruction and reconstruction to which the title of the volume refers aims at composing a kind of map of this debate The three sections of the book include essays that investigate specific aspects of Derrida's reception from the view of 1 philosophy 2 literary studies and 3 politics and law These contributions study the implications of deconstruction beyond its original scope and intervene by taking stock of its most relevant aporias

In Dewey's Wake William J. Gavin, 2012-02-01 In a pluralistic tapestry of approaches eminent Dewey scholars address his pragmatic philosophy and whether it should be reinterpreted reconfigured or passed by so as to better deal with the problems posed by the twenty first century For some Dewey's contextualism remains intact requiring more to be amended than radically changed For others his work needs significant revision if he is to be relevant in the new millennium Finally there are those who argue that we should not be so quick to pass Dewey by for he has much to offer that has still gone unnoticed or unappreciated This rich narrative indicates both where the context has changed and what needs to be preserved and nurtured in Dewey as we advance into the future

The Apologetic Value of Human Holiness Victoria S. Harrison, 2012-12-06 The Apologetic Value of Human Holiness begins by providing the first comprehensive account of the model of human holiness developed by the leading theologian Hans Urs von Balthasar In so

doing the book also provides the first detailed explication of his Christocentric philosophical anthropology Part 2 argues that von Balthasar anticipates some key developments in late twentieth century Anglo American analytical philosophy and that certain of these developments in particular the internal realism of Hilary Putnam provide powerful support for von Balthasar's theological philosophy The final part elucidates von Balthasar's core intuition that human holiness is of immense apologetic value for religious faith and concludes with a new internalist theory of religious pluralism The Apologetic Value of Human Holiness will be seen as an important and original contribution to both Philosophy of Religion and Theology and is likely to prove essential reading in upper level undergraduate and postgraduate courses in both subjects
