Saunders,2003 Throughout Charles Tomlinson's fifty year career borders have served him as setting topic theme leitmotif metaphor and formal principle Encompassing discussion of more than two hundred individual poems this study offers a coherent framework for understanding the body of work created by a major late twentieth century poet The borders he explores are spatial temporal perceptual and ideological thus they comprehend a wide range of concerns from the ecological to the sociopolitical the philosophical the ethical and the aesthetic The poems focus on places literal and figurative where disparate realms converge e g sites of political and cultural displacement of theological or economic confrontation Defining what lies on either side of a given boundary Tomlinson's work invites a back and forth process of comparison and contrast hence it fosters a dynamic and multifaceted awareness A commitment to principles of juxtaposition and counterpoint influences the prosodical workings of the poetry as well manifesting itself in structural patterns in figurative usage in deployment of rhyme in line in syntax and in diction      *The William H. **The Poetry of the Americas** Harris Feinsod, 2017-09-08 The Poetry of the Americas offers a lively and detailed history of relations among poets in the US and Latin America spanning three decades from the Good Neighbor diplomacy of World War II through the Cold War cultural policies of the late 1960s Connecting works by Martin Ad n Elizabeth Bishop Paul Blackburn Jorge Luis Borges Julia de Burgos Ernesto Cardenal Jorge Carrera Andrade Allen Ginsberg Langston Hughes Jos Lezama Lima Pablo Neruda Charles Olson Octavio Paz Heberto Padilla Wallace Stevens Derek Walcott William Carlos Williams and many others Feinsod reveals how poets of many nations imagined a poetry of the Americas that linked multiple cultures even as it reflected the inequities of the inter American political system This account offers a rich contextual study of the state sponsored institutions and the countercultural networks that sustained this poetry from Nelson Rockefeller's Office of the Coordinator for Inter American Affairs to the mid 1960s avant garde scene in Mexico City This innovative literary historical project enables new readings of such canonical poems as Stevens's Notes Toward a Supreme Fiction and Neruda's The Heights of Macchu Picchu but it positions these alongside lesser known poetry translations anthologies literary journals and private correspondences culled from library archives across the Americas The Poetry of the Americas thus broadens the horizons of reception and mutual influence and of formal historical and political possibility through which we encounter midcentury American poetry recasting traditional categories of U S or Latin American literature within a truly hemispheric vision
