GENERAL PLAN FOR DEMOBILIZATION

Project Name: _____ Spill

Project Date: _____

FOSC: _____

SOSC: _____

RPIC: _____

Prepared By: _____, Operations Section Chief

General Information

Personnel and Equipment will be demobilized from the incident in accordance with this plan.

Demobilization is an orderly and cost effective process for the release and return of all response resources and personnel to their respective home destinations.

The demobilization of the resources and personnel from the _____ incident is a team effort involving all personnel working on the incident. It is the responsibility of the Planning Section Chief to ensure that a systematic plan is established and implemented by the Demobilization Unit. This demobilization plan will be implemented upon approval of the Unified Command.

Resources no longer required for the response to the incident will be demobilized as rapidly as is feasible. They will be released in the following general priority.

Priority I -- Resources required to be returned to emergency services.

Priority II -- Resources mobilized from off-site

Priority III -- Local resources

A Demobilization Check-Out Form will be used to facilitate the process and to provide resource accountability. As resources are identified which are available for demobilization, the demobilization form will be initiated by the section chief responsible for that resource. The Check-Out Form will then be reviewed by the Operations Section Chief and the Planning Section Chief to verify that the resource is not planned for another task. After their approval and the communicating to the Unified Command the intended reduction in resources, the resource will be demobilized from the incident. The

Rossano, 2021-08-15 An exceptional piece of scholarship Rossano clearly points out that military organizations in general and a naval air force in particular are built from the ground up and not the other way around While we celebrate the exploits of the pilots Rossano reminds us that there were myriad mechanics constructors paymasters and even some ship drivers who played a vital role in naval aviation during WWI Craig C Felker U S Naval Academy A fine book that will stand for many years as the definitive study of U S naval aviation in Europe Well researched and written the book ranges widely from the high level planning in Washington for a naval air war to moving thousands of men and hundreds of aircraft across the ocean to the routine but dangerous training patrol and bombing flights that constituted the navy's air mission in World War I William F Trimble author of *Attack from the Sea* *Stalking the U Boat* is the first and only comprehensive study of U S naval aviation operations in Europe during WWI The navy's experiences in this conflict laid the foundations for the later emergence of aviation as a crucial sometimes dominant element of fleet operations yet those origins have been previously poorly understood and documented Begun as antisubmarine operations naval aviation posed enormous logistical administrative personnel and operational problems How

the USN developed this capability on foreign soil in the midst of desperate conflict makes a fascinating tale sure to appeal to all military and naval historians **Gas World** ,1919
