**The Lion and the Eagle** Conrad Kent, Thomas Wolber, Cameron Hewitt, 1999-12-01. The German and Spanish speaking worlds have over the centuries developed an intrinsic relationship, one which predates the Habsburg dynasty and the Renaissance and baroque periods. The cross-fertilization and challenges have been both fruitful and complex, with novel inventions surfacing in one culture often achieving their greatest prosperity in the other. Martin Luther's Protestant Reformation stimulated a response in Spain that was to define the European Counter Reformation. Spanish Baroque writers were seminal in the development of German Romanticism. Carl Christian Friedrich Krause and other nineteenth-century liberals provided the foundation for Spanish reformist efforts on the one hand, while German conservatives like Novalis and Adam Müller inspired conservatives on the other. The music of Richard Wagner transformed Spanish music and the Spanish stage at the turn of the twentieth century. Pablo Picasso and other artists of the Spanish avant-garde sparked the enthusiasm of the Germans before the Nazi era. Today German and Spanish intellectuals and writers share a similar commitment to the creation of a European culture in the face of resistance from other members of the European Union. Viewed from a variety of disciplines, this volume explores the relentlessly consistent albeit often forgotten connections between the two linguistic and cultural groups, revealing the myriad of ways in which they have shared and transformed literature, art, culture, politics and history.

**Late Europeans and Melancholy Fiction at the Turn of the Millennium** Ian Ellison, 2022-04-01. This book is the first comparative study of novels by Patrick Modiano, W.G. Sebald and Antonio Muñoz Molina. Drawing on many literary figures, movements and traditions from the Spanish Golden Age to German Romanticism to French philosophy via Jewish modernist literature, Ian Ellison offers a fresh perspective on European fiction published around the turn of the millennium. Reflecting on what makes European fiction European, this book examines how certain novels understand themselves to be culturally and historically late, expressing a melancholy awareness of how the past and present are irreconcilable. Within this framework, however, it considers how backwards-facing tradition-oriented self-consciousness, burdened by a sense of exhaustion in European culture and the violence of its past, may yet suggest the potential for re-enchantment in the face of obsolescence.

**Breaking the Magic Spell** Jack Zipes, 2002-07-05. This revised, expanded and updated edition of the 1979

landmark *Breaking the Magic Spell* examines the enduring power of fairy tales and the ways they invade our subjective world. In seven provocative essays Zipes discusses the importance of investigating oral folk tales in their socio political context and traces their evolution into literary fairy tales a metamorphosis that often diminished the ideology of the original narrative. Zipes also looks at how folk tales influence our popular beliefs and the ways they have been exploited by a corporate media network intent on regulating the mystical elements of the stories. He examines a range of authors including the Brothers Grimm Hans Christian Andersen Ernst Bloch Tolkien Bettelheim and J K Rowling to demonstrate the continuing symbiotic relationship between folklore and literature.

***The Romantic Imperative*** Frederick C. Beiser, 2006-04-28 This study restores and enhances the philosophical aspect of early German Romanticism offering an understanding of the movement's origins development aims and accomplishments.

***Musical Revolutions in German Culture*** M. Hall, 2014-10-23 Drawing upon the philosophical insights of Friedrich Schlegel Walter Benjamin Theodor W Adorno and Blix Bargeld this book explores the persistence of a critical deconstructive approach to musical production consumption and reception in the German cultural sphere of the last two centuries.

***Locating the Romantic Subject*** Gail M. Newman, 1997 Gail Newman's extensive introduction locates Novalis in the sociohistorical and philosophical context of the late eighteenth century focusing on the theory of the subject that emerged at that time. She outlines the relationship of psychoanalytic and literary interpretation from the Freudian to the French to her own Winnicottian perspective. In the body of the text she provides a detailed and thorough analysis of Novalis's principal narrative text the novel *Heinrich von Ofterdingen* 1801.

***The Cambridge History of Literary Criticism: Volume 5, Romanticism*** George Alexander Kennedy, 1989 The history of the most hotly debated areas of literary theory including structuralism and deconstruction.

***Romanticism and Philosophy*** Sophie Laniel-Musitelli, Thomas Constantinesco, 2015-05-22 This volume brings together a wide range of scholars to offer new perspectives on the relationship between Romanticism and philosophy. The entanglement of Romantic literature with philosophy is increasingly recognized just as Romanticism is increasingly viewed as European and Transatlantic yet few studies combine these coordinates and consider the philosophical significance of distinctly literary questions in British and American Romantic writings. The essays in this book are concerned with literary writing as a form of thinking investigating the many ways in which Romantic literature across the Atlantic engages with European thought from 18th and 19th century philosophy to contemporary theory. The contributors read Romantic texts both as critical responses to the major debates that have shaped the history of philosophy and as thought experiments in their own right. This volume thus examines anew the poetic philosophy of Wordsworth Coleridge Blake Shelley and Clare also extending beyond poetry to consider other literary genres as philosophically significant such as Jane Austen's novels De Quincey's autofiction Edgar Allan Poe's tales or Emerson's essays. Grounded in complementary theoretical backgrounds and reading practices the various contributions draw on an impressive array of writers and thinkers and challenge our understanding not only of Romanticism but also of what we have

come to think of as literature and philosophy
