The Politics of Latin Literature Thomas N. Habinek, 2001-11-13 This is the first book to describe the intimate relationship between Latin literature and the politics of ancient Rome Until now most scholars have viewed classical Latin literature as a product of aesthetic concerns Thomas Habinek shows however that literature was also a cultural practice that emerged from and intervened in the political and social struggles at the heart of the Roman world Habinek considers major works by such authors as Cato Cicero Horace Ovid and Seneca He shows that from its beginnings in the late third century b.c. to its eclipse by Christian literature six hundred years later classical literature served the evolving interests of Roman and more particularly aristocratic power It fostered a prestige dialect for example it appropriated the cultural resources of dominated and colonized communities and it helped to defuse potentially explosive challenges to prevailing values and authority Literature also drew upon and enhanced other forms of social authority such as patriarchy religious ritual cultural identity and the aristocratic procedure of self-scrutiny or *existimatio* Habinek's analysis of the relationship between language and power in classical Rome breaks from the long Romantic tradition of viewing Roman authors as world-weary figures aloof from mundane political concerns a view he shows that usually reflects how scholars have seen themselves The Politics of Latin Literature will stimulate new interest in the historical context of Latin literature and help to integrate classical studies into ongoing debates about the sociology of writing

Cicero's Catilinarians D. H. Berry, 2020-06-11 In this the first book length discussion of Cicero's Catilinarians D H Berry considers how the speeches should be interpreted as literature Can we treat them as representing what Cicero actually said Or do we have to read them merely as political pamphlets from a later time

Cicero and Roman Education Giuseppe La Bua, 2019-02-07 Cicero saw publication as a means of perpetuating a distinctive image of himself as statesman and orator He memorialized his spiritual and oratorical self by means of a very solid body of texts Educationalists and schoolteachers in antiquity relied on Cicero's oratory to supervise the growth of the young into intellectual maturity By reconstructing the main phases of textual transmission from the first authorial dissemination of the speeches to the medieval manuscripts and by re-examining the abundant evidence on Ciceronian scholarship from the first to the sixth century CE Cicero and Roman Education traces the history of the exegetical tradition on Cicero's oratory and re-assesses the didactic function of the speeches whose preservation was largely determined by pedagogical factors

s lex de provinciis a law which transformed the very nature of provincial command Though more familiar as political opponents Pompey and Cato were united in their interest in good governance and were capable of working alongside each other to effect positive change This book demonstrates that it was their eventual collaboration in the late 50s BC that produced the republic's most significant programme of provincial reform In the process it offers a new perspective on these two key figures as well as an enriched understanding of provincial governance in the late Roman republic *The Impact of the Roman Empire on Landscapes*, 2021-11-15 This volume presents the results of the fourteenth workshop of the international network Impact of Empire It focuses on the ways in which Rome's dominance influenced changed and created landscapes and examines in which ways Roman landscapes were narrated and semantically represented To assess the impact of Rome on landscapes some of the twenty contributions in this volume analyse functions and implications of newly created infrastructure Others focus on the consequences of colonisation processes settlement structures regional divisions and legal qualifications of land Lastly some contributions consider written and pictorial representations and their effects In doing so the volume offers new insights into the notion of Roman landscapes and examines their significance for the functioning of the Roman empire **The Oxford Handbook of Roman Law and Society** Paul J du Plessis, Clifford Ando, Kaius Tuori, 2016-10-20 The Oxford Handbook of Roman Law and Society surveys the landscape of contemporary research and charts principal directions of future inquiry More than a history of doctrine or an account of jurisprudence the Handbook brings to bear upon Roman legal study the full range of intellectual resources of contemporary legal history from comparison to popular constitutionalism from international private law to law and society thereby setting itself apart from other volumes as a unique contribution to scholarship on its subject The Handbook brings the study of Roman law into closer alignment and dialogue with historical sociological and anthropological research into law in other periods It will therefore be of value not only to ancient historians and legal historians already focused on the ancient world but to historians of all periods interested in law and its complex and multifaceted relationship to society **Cicero, Against Verres, 2.1.53-86** Marcus Tullius Cicero, Ingo Gildenhard, 2011 This volume provides a portion of the original text of Cicero's speech in Latin a detailed commentary study aids and a translation Ingo Gildenhard's commentary will be of particular interest to students of Latin at both high school and undergraduate level It will also be of help to Latin teachers and to anyone interested in Cicero language and rhetoric and the legal culture of Ancient Rome A free online interactive edition is also available
