Menopause, Me and You Ellen Cole, Esther D Rothblum, Ann M Voda, 2013-11-12 Menopause Me and You will help you put menopause in proper perspective as a normal and natural developmental process in the lives of women not as a disorder or state that causes disease This informative book gives you self monitoring tools for collecting information and monitoring changes in your body during menopause These tools will also help you understand the dynamics of the change process A guideline as to how to best use this information when interacting with care providers especially those who view menopause as a disorder to be treated is also included Menopause Me and You is filled with information gathering tools scientific facts and stories from the true experts on menopause the women themselves who have experienced or are experiencing menopause In chapter after chapter you ll gain valuable information for viewing menopause from a woman centered perspective Specifically the book includes detailed information on conception and fertilization reconceptualizing these events from a woman centered feminist perspective a description and reconceptualization of the menstrual cycle and menstruation providing the knowledge base the physiological endocrinological and biochemical mechanisms that regulate the menstrual cycle and menstruation to understand menopause as the closure of menstrual life and not the end of life a journey into the steroid hormone target cell shows at a scientific level that women were genetically programmed to end the production of reproductive hormones a description and clarification of some of the terms used to describe menopause common menopausal changes and diseases attributed to being estrogen deficient tools for gathering information for discovering knowledge about yourself a menstrual calendar card hot flash body diagrams a basal body temperature record a body composition record a menstrual bleeding scale and factors to consider when choosing a care provider The women who share their experiences in Menopause Me and You represent women at various stages of menopause They describe for you what they are feeling as well as what it means to be a mid life woman at the closure of reproductive life they celebrate the end of menstruation but curse the changes including mood swings hot flashes and vaginal bleeding changes they are experiencing These changes are normal and expected however and need to be understood in that context They are not symptoms of disease or an excuse for care providers to instantly prescribe hormones or drugs With the information in Menopause Me and You women nearing or experiencing menopause health care providers such as nurses health educators and physicians and counselors will better understand how women view this transition and come to accept it as another normal necessary and beautiful process in the lives of women **Fertility and Contraception in America: Contraception technology and development** United States. Congress. House. Select Committee on Population, 1978 **Fertility and Contraception in America** United States.

Congress. House. Select Committee on Population,1978 The Ford Foundation at Work Richard Magat,2012-12-06 This report originated in a request to me from the Board of Trustees of the Ford Foundation in the summer of 1975 The trustees aware that there would be a change of leadership at the Foundation before 1980 wanted to make a running start in the process of planning for the future Their first step was to make a study of the great national and international needs that might lie ahead in the next decade and a half and where and how the Foundation might address them They sought advice both within the Foundation and outside it and they engaged in long discussions of their own Although the exercise was directed toward planning for the future the trustees also wished to review our past not exhaustively but at least well enough to have a clear sense of what the Foundation had been up to in the quarter century of its existence as a national and international institution In this connection the chairman of our board Alexander Heard asked for I a canvass of the Ford Foundation's experiences successes and failures during the last twenty five years focused on the broad objectives sought the means pursued to achieve them and the results **Current Catalog** National Library of Medicine (U.S.),1979 First multi year cumulation covers six years 1965 70 Fundamentals of Histology G. Holmes,Betty B. Hoskins,Michael Gross,2012-12-06 Women most fully experience the consequences of human reproductive technologies Men who convene to evaluate such technologies discuss It them the women who must accept avoid or even resist these technologies the women who consume technologies they did not devise the women who are the objects of policies made by of women is neither sought nor listened to The men So often the input and perspectives that women bring to the privileged insights consideration of technologies in human reproduction are the subject of these volumes which constitute the revised and edited record of a Workshop on Ethical Issues in Human Reproduction Technology Analysis by Women EIR TAW held in June 1979 at Hampshire College in Amherst Massachusetts Some 80 members of the workshop 90 percent of them women from 24 states represented diverse occupations and personal histories different races and classes varied political commitments They included doctors nurses and scientists lay midwives consumer advocates historians and sociologists lawyers policy analysts and ethicists Each session however made plain that ethics is an everyday concern for women in general as well as an academic profession for some *Curbing Population Growth* Oscar Harkavy,2013-06-29 Oscar Harkavy offers a unique insider's view of the fascinating world of population politics Chapters trace the growth of the movement as well as the various foundations governments and intergovernmental organizations which were an integral part

of it from its beginning in the 1950s through its growth during the 60s and 70s to the present Topics include the role of social science in understanding the causes and effects of population growth reproductive research and contraceptive development and the politics of family planning sex education and abortion in the United States **Mathematical Modelling and**

Computers in Endocrinology Rosalind McIntosh,2012-12-06 The building of conceptual models is an inherent part of our interaction with the world and the foundation of scientific investigation Scientists often perform the processes of modelling subconsciously unaware of the scope and significance of this activity and the techniques available to assist in the description and testing of their ideas Mathematics has three important contributions to make in biological modelling 1 it provides unambiguous languages for expressing relationships at both qualitative and quantitative levels of observation 2 it allows effective analysis and prediction of model behaviour and can thereby organize experimental effort productively 3 it offers rigorous methods of testing hypotheses by comparing models with experimental data by providing a means of objectively excluding unsuitable concepts the development of ideas is given a sound experimental basis Many modern mathematical techniques can be exploited only with the aid of computers These machines not only provide increased speed and accuracy in determining the consequences of model assumptions but also greatly extend the range of problems which can be explored The impact of computers in the biological sciences has been widespread and revolutionary and will continue to be so
