COVID-19 and Gender-Based Violence in Zimbabwe Isaiah Munyiswa,Pauline Mateveke,Ezra Chitando,2024-12-02 This book investigates the experiences of women in Zimbabwe facing COVID 19 and gender based violence arguing that the insights from this extremely tough period could be used as a springboard for positive legal cultural and policy changes In 2020 COVID 19 caught the world by surprise and often the socio cultural factors impacting the treatment and care of those infected by the virus were not fully considered In Zimbabwe the socially constructed role of women as caregivers left them particularly vulnerable Not only this but COVID 19 lockdowns coincided with particularly high levels of sexual exploitation and gender based violence with women again comprising the majority of victims Authors in this book analyse the pandemic experiences of women in Zimbabwe both in the workplace or in the home with the hope of fostering positive cultural change and sensitising policy makers to the need for legislation that

protects women in moments of disasters The important lessons and discussion points raised by this book will be important to policymakers both within Zimbabwe and beyond and to researchers working on gender public health philosophy sociology and politics in Africa *Routledge Handbook of Gender in South Asia* Leela Fernandes,2014-02-24 Providing a comprehensive overview of the study of gender in South Asia this Handbook covers the central contributions that have defined this area and captures innovative and emerging paradigms that are shaping the future of the field It offers a wide range of disciplinary and interdisciplinary perspectives spanning both the humanities and social sciences focussing on India Pakistan Bangladesh and Sri Lanka The Handbook brings together key experts in the field of South Asia and gender women and sexuality Chapters are organised thematically in five major sections Historical formations of gender and the significance of colonialism and nationalism Law Citizenship and the Nation Representations of Culture Place Identity Labour and the Economy Inequality Activism and the State This timely survey is essential reading for scholars who research and teach on South Asia as well as for scholars in related interdisciplinary fields that focus on women and gender from comparative and transnational perspectives *Feminist Futures* Kum-Kum Bhavnani,John Foran,Priya A. Kurian,Debashish Munshi,2016-10-15 Straddling disciplines and continents Feminist Futures interweaves scholarship and social activism to explore the evolving position of women in the South Working at the intersection of cultural studies critical development studies and feminist theory the book s contributors articulate a radical and innovative framework for understanding the linkages between women culture and development applying it to issues ranging from sexuality and the gendered body to the environment technology and the cultural politics of representation This revised and updated edition brings together leading academics as well as a new generation of activists and scholars to provide a fresh perspective on the ways in which women in the South are transforming our understanding of development Gender Inequalities, Sexual and Reproductive Health, and Sustainable Development in the Global South Praveen Kumar Pathak,Shah Md Atiqul Haq,Niharika Tripathi,Tizta Degfie,2025-08-22 Investing in Sexual and Reproductive Health SRH has been recognized as one of the prudent strategies to ensure the well being of girls and women and also to advance broader social and economic development for the nations and future generations Moreover it provides an excellent opportunity for millions of girls and women to make an informed choice about the number timing and spacing between births experience safe motherhood deliver healthy newborns and have a safe and satisfying sexual life However several young girls and women encounter an array of structural barriers patriarchy and unfavorable gendered norms practices including child marriage son preference gender based violence against women female foeticide lower access to economic property rights restriction of mobility etc that hinder their socioeconomic progress and health status Discourse on leveraging gender equity and reproductive health could be further strengthened with the involvement of young boys and men Given that restrictive gender norms affect both men s and women s reproductive health potential therefore integrating young boys and men along with young girls and women shall be a comprehensive strategy to

ensure equitable quality and sustainable reproductive health among people **Oxford Textbook of Global Public Health**

Perspectives on Reproductive Rights and Policies Pucelj, Maja, Matusiak-Fr?cczak, Magdalena, 2024-11-29 Reproductive
 rights and policies seek to balance different human rights ethics and morals as well as technology At the same time they
 concern probably the most intimate sphere of human life Issues related to reproductive rights are the subject of intensive
 public debate in which not only politicians but also many nongovernmental organizations NGOs and even religious groups
 take part All of these actors present essential arguments which should be taken into account when discussing reproductive
 rights Global Perspectives on Reproductive Rights and Policies comprehensively examines reproductive rights as an essential
 component of human rights It offers an in depth analysis of legal frameworks as well as the ethical implications and societal
 consequences associated with these rights Covering topics such as abortion policies legal frameworks and women s rights
 this book is an excellent resource for researchers academicians legal professionals healthcare professionals ethicists
 policymakers international organizations and NGOs *Gender before Birth* Rajani Bhatia, 2018-02-01 In the mid 1990s the
 international community pronounced prenatal sex selection via abortion an act of violence against women and unethical At
 the same time new developments in reproductive technology in the United States led to a method of sex selection before
 conception its US inventor marketed the practice as family balancing and defended it with the rhetoric of freedom of choice
 In *Gender before Birth* Rajani Bhatia takes on the double standard of how similar practices in the West and non West are
 divergently named and framed Bhatia s extensive fieldwork includes interviews with clinicians scientists biomedical service
 providers and feminist activists and her resulting analysis extends both feminist theory on reproduction and feminist science
 and technology studies She argues that we are at the beginning of a changing transnational terrain that presents new
 challenges to theorized inequality in reproduction demonstrating how the technosciences often get embroiled in colonial
 gender and racial politics Darkness at Noon Ashish Bose, 2003
