Davies, 2012-09-20 The Republic F 105 Thunderchief was the fastest and most successful strike fighter of the Cold War Designed to deliver nuclear weapons at low altitude and then fight its way back to base by the early 1960s it was the primary weapon in the USAF's tactical strike arsenal Thunderchief pilots in Europe the Far East and the USA stood on short notice alert ready to take on the formidable defenses of their Communist Bloc targets The F 105 was however to become a legend in a very different conflict As direct American involvement in Vietnam increased F 105s were deployed initially as a deterrent but ever more as conventional attack fighters against insurgency in Laos and Vietnam With the start of the bombing campaign against North Vietnam the Thunderchief became a vital element in attacks against some of the most heavily defended territory in modern history **USAF F-105 Thunderchief vs VPAF MiG-17** Peter E. Davies, 2019-07-25 The F 105D Thunderchief was originally designed as a low altitude nuclear strike aircraft but the outbreak of the Vietnam War led to it being used instead as the USAF's primary conventional striker against the exceptionally well defended targets in North Vietnam and Laos F 105 crews conducted long distance missions from bases in Thailand refuelling in flight several times and carrying heavy external bombloads The MiG 17 was the lightweight highly manoeuvrable defending fighter it encountered most often in 1965 68 during Operation Rolling Thunder A development of the MiG 15 which shocked UN forces during the Korean War its emphasis was on simplicity and ease of maintenance in potentially primitive conditions Fully illustrated with stunning artwork this book shows how these two aircraft totally different in design and purpose fought in a series of duels that cost both sides dearly *F-105 Wild Weasel vs SA-2 'Guideline' SAM* Peter E. Davies, 2011-12-20 A detailed account of the suppression of North Vietnam's surface to air missile defences during the Vietnam War initiating a totally new concept of air war The Vietnam War was the first conflict that saw extensive use of surface to air anti aircraft missiles and thus became a training ground for the tactics of this new type of battle as USAF pilots battled with supersonic Soviet ground to air missiles Featuring illustrations throughout this instalment in Osprey's Duel series presents this story in the context of two of the main opponents America's top fighter bomber and the NVA's best anti aircraft missile **The United States Air Force** John C.
