Requiem A Setting For Choir Soloists And Organ:

The American Organist, 2008 **Durufié's Music Considered** Ronald Ebrecht, 2020-10-16 In this book Ronald Ebrecht has meticulously studied each of Durufié's works and put together the first book to discuss in detail all of Durufié's music. With encouragement from Durufié's editor and the foundation established in his name Ebrecht has compiled copious examples from manuscript sources to be published for the first time along with the little known contextualizing works of Messiaen and Barraine. Most widely known for his masterpiece Requiem the composer's orchestral gems are analyzed alongside his delightful miniature the orchestration of the Sicilienne. The organ works which set the standard for virtuosity at conservatories around the world are given new insightful and thorough evaluation by Ebrecht whose long association with late 19th and early 20th century France and French music affords illuminating connections between Durufié and his predecessors and successors with sweeping insight and minute detail [A Conductor's Guide to Choral-orchestral Works, Twentieth Century, Part II](#) Jonathan D. Green, 1998 This innovative survey of large choral orchestral works is a continuation of the author's previous study of twentieth century works with English texts. Green examines nearly one hundred works from Rachmaninov's Vesna to Penderecki's Song of Songs. For each work he provides a biography of the composer, complete instrumentation, text sources, editions, availability of performing materials, performance issues, discography and bibliography of the composer and the work. Based upon direct score study, each work has been evaluated in terms of potential performance problems, rehearsal issues and level of difficulty for both the choir and orchestra. When present solo roles are described. The composers represented in this work include Bela Bartok, Leonard Bernstein, Ernest Bloch, Maurice Durufé, Hans Werner Henze, Paul Hindemith, Arthur Honegger, Leos Janáček, György Ligeti, Gustav Mahler, Carl Orff, Krzysztof Penderecki, Francis Poulenc, Igor Stravinsky, Anton Webern and Kurt Weill. Written as a field guide for conductors and others involved in programming concerts for choir and orchestra, this text will prove a useful source of new repertoire ideas and an invaluable aid to rehearsal preparation [Dies Irae](#) Robert Chase, 2004-09-08 Since time immemorial the response of the living to death has been to commemorate the life of the departed through ceremonies and rituals. For nearly two millennia the Christian quest for eternal peace has been expressed in a poetic musical structure known as the requiem. Traditional requiem texts among them the anonymous medieval Latin poem Dies Irae, Day of Wrath, have inspired an untold number of composers in different ages and serving different religions, Western and Eastern. This book, the first comprehensive survey of requiem music for nearly half a century, provides a great deal of diverse and detailed information that will be of use to the professional musician, the musical scholar, the choral conductor, the theologian and liturgist and the general reader. The main body of the guide is a description of some 250 requiems. Each entry includes a concise biography of the composer and a description of the composition. Details of voicing, orchestration, editions and discography are given. An extensive bibliography includes dictionaries, encyclopedias, prayer books, monographs and articles. An appendix lists more than 1700 requiems not discussed.

debates in French classical music of the period highlights key figures and institutions and provides a context for the chapters that follow. The first two of these are concerned with opera in the nineteenth and twentieth centuries respectively, addressed by Thomas Cooper for the nineteenth century and Richard Langham Smith for the twentieth. Timothy Jones's chapter follows, which assesses the French contribution to those most Germanic of genres: nineteenth-century chamber music and symphonies. The quintessentially French tradition of the nineteenth-century salon is the subject of James Ross's chapter, while the more sacred setting of Paris's most musically significant churches and the contribution of their organists is the focus of Nigel Simeone's essay. The transition from the nineteenth to the twentieth century is explored by Roy Howat through a detailed look at four leading figures of this time: Fauré, Chabrier, Debussy and Ravel. Robert Orledge follows with a later group of composers: Satie, Les Six, and examines the role of the media in promoting French music. The 1930s, and in particular the composers associated with Jeune France, are discussed by Deborah Mawer, while Caroline Potter investigates Parisian musical life during the Second World War. The book closes with two chapters that bring us to the present day. Peter O'Hagan surveys the enormous contribution to French music of Pierre Boulez, and Caroline Potter examines trends since 1945. Aimed at teachers and students of French music history as well as performers and the inquisitive concert and opera-goer, *French Music Since Berlioz* is an essential companion for an
