Hay, 2021-09-27 This book is a thorough introduction to climate science and global change The author is a geologist who has spent much of his life investigating the climate of Earth from a time when it was warm and dinosaurs roamed the land to today's changing climate Bill Hay takes you on a journey to understand how the climate system works He explores how humans are unintentionally conducting a grand uncontrolled experiment which is leading to unanticipated changes We follow the twisting path of seemingly unrelated discoveries in physics chemistry biology geology and even mathematics to learn how they led to our present knowledge of how our planet works He explains why the weather is becoming increasingly chaotic as our planet warms at a rate far faster than at any time in its geologic past He speculates on possible future outcomes and suggests that nature itself may make some unexpected course corrections Although the book is written for the layman with little knowledge of science or mathematics it includes information from many diverse fields to provide even those actively working in the field of climatology with a broader view of this developing drama Experimenting on a Small Planet is a must read for anyone having more than a casual interest in global warming and climate change one of the most important and challenging issues of our time This new edition includes actual data from climate science into 2021 Numerous Powerpoint slides can be downloaded to allow lecturers and teachers to more effectively use the book as a basis for climate change education Church Conflicts Ernst Käsemann, 2021-08-03 This important work by one of the most significant New Testament scholars of the modern period now available in English for the first time explores the significance of Christian apocalyptic for the church in times of conflict and crisis Engaging with global social and political realities that are still very much with us Ernst Käsemann offers a theological indictment of global white supremacy capitalism and militarism and passionately articulates an apocalyptic theology of liberation The book includes a foreword by James H Cone and an introduction by Ry O Siggelkow *pt. 2.
