International Economic Integration and Asia Michael G. Plummer, Erik Jones, 2006 Regional economic integration has become a key force in international commercial policy in the 2000s Europe has traditionally embraced regionalism the United States became actively involved in preferential trading arrangements only in the 1980s While Asia has been late in accepting formal regional economic integration accords all Asian countries are now in the process of creating various free trade areas and other forms of economic integration programs and some are already in place This volume analyzes the regionalism trend from an Asian perspective It considers the lessons from and the economic implications of various economic integration programs in the OECD mostly the EU but also NAFTA as well as the proposals for closer economic integration in the region itself Chapters deal with both real and financial integration issues

Asean Economic Integration: Trade, Foreign Direct Investment, And Finance Michael G Plummer, 2009-07-17 Given the rapid emergence of regional economic arrangements in Asia especially in Southeast Asia it is useful to understand clearly what regionalism implies for the region as well as to take stock as to the far reaching and complicated effects of formal economic cooperation and integration This book allows the reader to better understand the relevant international policies of the Southeast Asian economies and to appreciate the potential lessons for other developing regions It also focuses on the regionalism trend with an explicit application to

ASEAN as well as the implications of regionalism in the developed countries The goal of this book is to survey the economics and political economy of regionalism in the ASEAN context from a variety of perspectives and using various techniques from standard economic analysis of preferential trading arrangements to the political economy analysis of institutions Its approach is comprehensive in that it includes ASEAN economic integration in the areas of trade foreign direct investment and finance Presentation of the material is designed to be accessible to non technical audiences without sacrificing the rigor expected by economists and other experts **African-Asian Relations: Past, Present, Future** Patrick Ziltener, Christian

Suter, 2023-03-15 Is the impression of a new dynamism in African Asian relations empirically correct Is it a process that will once be accepted as one of the fundamental transformations of World Society in the 21st century This volume addresses these questions in 14 chapters from a look back to 2000 years of African Asian contacts and exchange to the analysis of the origins of this new inter regional dynamism On the Asian side the focus is on China which has with the Forum on China African Cooperation FOCAC the Belt and Road Initiative with numerous infrastructure projects development assistance resource deals and the support for the African Union in Africa drawn most attention but also recent initiatives by India and South Korea are described On the African side the recent developments in Burkina Faso Cote d'Ivoire Ethiopia Angola Guinea Tanzania Ghana Zimbabwe and South Africa are analyzed in detail with a special focus on the various impacts of the recent and ongoing projects and initiatives and the conditions under which they exert developmental or detrimental economic Do we witness the repetition of past mistakes of development policies at higher level or is this time everything different
