Homeless Youth of Pakistan Muhammad Naveed Noor, 2021-08-17 While homeless young people HYP are typically perceived as irresponsible and morally suspect individuals who lack essential social skills to navigate their lives this book offers an alternative and more positive perspective It demonstrates that HYP improvise with resources available on the streets to improve their social and financial status although they experience significant social structural constraints This ground breaking text provides an analysis of social processes that contribute to young people s homelessness their engagement in sex work their establishment of intimate partnerships and sexual practices which may increase their risk of HIV and other sexually transmitted infections STIs The book demonstrates how the ongoing social and financial instability and insecurity neutralises HYP s knowledge of HIV STIs and how financial considerations fear of violence by clients and social obligations in intimate partnerships contribute to their sexual risk taking The author argues that the

conventional approach of promoting health through raising awareness regarding HIV STI prevention may continue to bring less than promising outcomes unless we focus on how structural and contextual conditions operate in the backdrop and produce conditions less conducive for young people Included in the coverage factors that contribute to youth homelessness factors that shape sexual practice a Bourdieusian analysis of youth homelessness and sexual risk taking a health promotion approach that can potentially reduce youth homelessness and their risk of HIV STIs Homeless Youth of Pakistan Survival Sex and HIV Risk will attract undergraduate and postgraduate students and researchers interested in exploring issues such as youth homelessness sexual risk taking and HIV STIs
