Toward a Recovery of Nineteenth Century Farming Handbooks

While researching texts written about nineteenth century farming, I found a few authors who published books about the literature of nineteenth century farming, particularly agricultural journals, newspapers, pamphlets, and brochures. These authors often placed the farming literature they were studying into an historical context by discussing the important events in agriculture of the year in which the literature was published (see Demaree, for example). However, while these authors discuss journals, newspapers, pamphlets, and brochures, I could not find much discussion about another important source of farming knowledge: farming handbooks. My goal in this paper is to bring this source into the agricultural literature discussion by connecting three agricultural handbooks from the nineteenth century with nineteenth century agricultural history.

To achieve this goal, I have organized my paper into four main sections, two of which have sub-sections. In the first section, I provide an account of three important events in nineteenth century agricultural history: population and technological changes, the distribution of scientific new knowledge, and farming's influence on education. In the second section, I discuss three nineteenth century farming handbooks in connection with the important events described in the first section. I end my paper

Titles are centered and written in 12-point, Times New Roman font. The title is not bolded, underlined, or italicized.

The thesis statement usually is the last sentence of the introduction.

The thesis is a clear position that you will support and develop throughout your paper. This sentence guides or controls your paper.

MLA requires double-spacing throughout a document; do not single-space any part of the document.

The introductory paragraph, or introduction, should set the context for the rest of the paper. Tell your readers why you are writing and why your topic is important.

If your paper is long, you may want to write about how your paper is organized. This will help your readers follow your ideas.

1500-1800 Joshua B. Fisher, Rebecca Steinberger, 2014-07-24 This volume addresses two key questions 1 How can ephemera be understood as a critical category of literary and historical inquiry and 2 How can ephemera serve pedagogical purposes in the classroom Each of the essays in Encountering Ephemera 1550 1800 Scholarship Performance Classroom addresses these questions by exploring a diverse range of materials as well as periods The essays collectively work to define ephemera as a complex and multi faceted critical category in terms of its literary cultural and historical significance Each contributor works to complicate the traditional binary opposition between the ephemeral transitory and the canonical enduring in part by recognizing how attending to the material processes of textual production transmission and dissemination highlights the potential instability and mutability of texts and textual relationships whether discussing broadside ballads or coterie poetry By shifting the focus to the processes by which texts are constructed and construed the prospect of recognizing any text regardless of its canonical status as a static and fixed entity becomes difficult and in turn the ephemeral qualities that define and constitute the text s materiality come more sharply into focus Along these lines the ephemeral spaces across and between discourses what might be called the ephemera of cultural poetics play a key role in shaping literary texts Thus early modern and eighteenth century ephemera constitute both the material texts not intended to last or designed for limited cultural life and the process fleeting and transitory aspects of cultural production Whether discussing the circulation of cheap print the performative traces of music and gesture in Shakespeare s plays or the diffuse cultural influences that both surround and pervade literary texts attending to ephemeral matters underscores the dynamic unfixedness of early modern and eighteenth century cultural practices **Reading and Understanding Research** Lawrence F.
