Retrieving Democracy In Search Of Civic Equality:

Retrieving Democracy Philip Green, 2023-03-31 Originally published in 1985 Retrieving Democracy offers a thorough and systematic answer to the familiar objection that genuine democracy is utopian The book outlines an imaginary yet imaginable society that would be non racist non sexist and sufficiently classless to support true civic equality Moving beyond previous discussions of re industrialization and economic democracy the book proposes the social control of corporations a democratic division of labour that would maximize equality of citizenship rather than merely the production of commodities the democratization of trade unions the equalization of wages and job opportunities and the insulation of electoral politics from the power of money *Democracy and the "Kingdom of God"* H.P. Kainz, 2012-12-06 I A Dangerous and or Useful Kingdom 5 II Is There a Concept of the Kingdom of God 9 III The Development of the Concept of a Kingdom of God in the Old Testament 15 IV Is an Apolitical Kingdom of God Possible 21 V The Vicissitudes of Theocracy in Israel 27 VI New Testament Conceptualization of Messianic Fulfillment 37 VII Is an Alternative Messianic Scenario Conceivable 43 VIII Did Jesus make a Major Mistake 51 IX The Dialectics of Christian Interpretation 59 X Hermeneutical Circle or circulus vitiosus 67 XI Political Milestones Three Romes Three Reichs Three Kingdoms and a Holy Roman 73 E mplre viii XII Catholic Political Theology The Two Cities and Two Swords and Beyond 83 XIII How Visible can a City of God be 101 XIV Protestant Political Theology Beyond the Two Kingdoms and the Two Regiments 109 XV Does Hegelian Political Theology have a Future 119 XVI The Emergence of the Secular Kingdom of God 125 XVII Secularization a Boon to Mankind 137 XVIII Religious Experience Chosenness and Political Expression 145 XIX Does Democracy need Redefinition 157 XX The Dialectics of Democracy 169 XXI Democracy and the Kingdom of God 183 XXII Are Church and State Mutually Conducive 195 XXIII World Federalism and Ecumenical Christianity 205 Conclusion 221 BIBLIOGRAPHY 225 **Self-management and the Crisis of Socialism**

Michael Wayne Howard, 2000 While some conclude from the revolutions of 1989 that socialism is dead interest in socialism continues because of persisting problems of contemporary capitalism In this exciting text Michael W Howard offers critiques of liberal communitarian postmodern and some Marxist perspectives in order to develop a left liberal defense of a model of self managed market socialism that includes a basic income for all Specific applications of his view include analyses of its implications for the global marketplace the changing nature of workplaces and media restructuring and ownership This work is sure to be of interest to social scientists public policy makers and economists as well as to feminists ecologists and others concerned with how market socialism is relevant to their social issues Which Equalities Matter? Anne Phillips, 2013-07-08 Democracy and democratization are now high on the political agenda but there is growing indifference to the gap between rich and poor Political equalities matter more than ever while economic inequality is accepted almost as a fact of life It is the separation between economic and political that lies at the heart of this book *The Dissonance of Democracy* Susan Bickford, 2018-10-18 Although the role of shared speech in political action has received much theoretical attention too little

thought has focused on the practice of listening in political interaction according to Susan Bickford Even in a formally democratic polity political action occurs in a context of conflict and inequality thus the shared speech of citizenship differs significantly from the conversations of friendly associates Bickford suggests that democratic politics requires a particular quality of attention one not based on care or friendship Analyzing specifically political listening is central to the development of democratic theory she contends and to envisioning democratic practices for contemporary society Bickford's analysis draws on the work of Aristotle and of Hannah Arendt to establish the conflictual and contentious character of politics To analyze the social forces that deflect attention from particular voices Bickford mobilizes contemporary feminist theory including Gloria Anzaldua's work on the connection between identity and politics She develops a conception of citizen interaction characterized by adversarial communication in a context of inequality Such a conception posits public identity and hence public listening as active and creative and grounded in particular social and political contexts *Arguments*

Democratic Theory as Public Philosophy: The Alternative to Ideology and Utopia Norman Wintrop, 2017-11-01 This title was first published in 2000 This text contends that there are pronounced ideological apologetic and utopian biases in how democracy is now viewed by most academic writers politicians and journalists Ideological biases result from democracy being seen in formal and procedural ways as parliaments free elections and competitive parties and pressure groups irrespective of the standards which guide or the effects produced by these procedures Utopian democrats reject this narrow empiricism for normative approaches and instead of realistic norms they offer impractical perfectionist and counter productive standards and goals As the alternative to ideology and utopia the author builds upon and draws conclusions from a realistic and
