The Atlas of U.S. and Canadian Environmental History Char Miller,2003-08-08 This visually dynamic historical atlas chronologically covers American environmental history through the use of four color maps photos and diagrams and in written entries from well known scholars Organized into seven categories each chapter covers agriculture wildlife and forestry land use and management technology and industry polluti

Gratitude for the Wild Nathaniel Van Yperen,2019-06-17 Since the passage of the Wilderness Act of 1964 a hotly contested debate over the value of wilderness reveals cultural anxieties about an American society that has spurned limits Gratitude for the Wild explores how the wild known in wilderness raises our tolerance for mystery in the recognition of our limits and in the celebration of a God loved world that exceeds our grasping The idea of wilderness introduces questions about the balance between utility and appreciation and between enjoyment and restraint Wilderness is a nexus of competing and contested accounts of responsibility In conversation with the work of Doug Peacock Terry Tempest Williams James Gustafson and Martin Luther King Jr Nathaniel Van Yperen offers an original argument for how wilderness can evoke a vision of a good life in which creaturely limits are accepted in gratitude even in the face of ambiguity and mystery Through the theme of gratitude the book refocuses attention on the role of affection and testimony in ecological ethics and Christian ethics *Wilderness Forever* Mark W. T. Harvey,2009-11-23 Winner of the Forest History Society s 2006 Charles A Weyerhaeuser Book Award As a central figure in the American wilderness preservation movement in the mid twentieth century Howard Zahniser 1906 1964 was the person most responsible for the landmark Wilderness Act of 1964 While the rugged outdoorsmen of the early environmental movement such as John Muir and Bob Marshall gave the cause a charismatic face Zahniser strove to bring conservation s concerns into the public eye and the preservationists plans to fruition In many fights to save besieged wild lands he pulled together fractious coalitions built grassroots support networks wooed skittish and truculent politicians and generated streams of eloquent prose celebrating wilderness Zahniser worked for the Bureau of Biological Survey a precursor to the Fish and Wildlife Service and the Department of the Interior wrote for Nature magazine and eventually managed the Wilderness Society and edited its magazine Living Wilderness The culmination of his wilderness writing and political lobbying was the Wilderness Act of 1964 All of its drafts included his eloquent definition of wilderness which still serves as a central tenet for the Wilderness Society an area where the earth and its community of life are untrammelled by man where man himself is a visitor who does not remain The bill was finally signed into law shortly after his death Pervading his tireless work was a deeply held belief in the healing powers of nature for a humanity ground down by the mechanized hustle bustle of modern urban life Zahniser grew up in a family of Methodist ministers and although he moved away from any specific denomination a spiritual outlook informed his thinking about wilderness His love of nature was not so much a result of scientific curiosity as a sense of wonder at its beauty and majesty and a wish to exist in harmony with all other living

things In this deeply researched and affectionate portrait Mark Harvey brings to life this great leader of environmental activism Rethinking Wilderness Mark Woods,2017-07-30 The concept and values of wilderness along with the practice of wilderness preservation have been under attack for the past several decades In Rethinking Wilderness Mark Woods responds to seven prominent anti wilderness arguments Woods offers a rethinking of the received concept of wilderness developing a positive account of wilderness as a significant location for the other than human value adding properties of naturalness wildness and freedom Interdisciplinary in approach the book combines environmental philosophy environmental history environmental social sciences the science of ecology and the science of conservation biology *Hunger for the Wild* Michael L. Johnson,2007 Americans have had an enduring yet ambivalent obsession with the West as both a place and a state of mind Michael L Johnson considers how that obsession originated how it has determined attitudes toward and activities in the West and how it has changed over the centuries Animals are the Issue Linda S Katz,2013-10-31 Supply your library with the best collection of resources on animal issues Animals are the Issue Library Resources on Animal Issues is a guide to books journals and Web sites on historic and modern animal treatment Expert librarians and scholars provide helpful resources showing what ideals and practical solutions exist in animal rights and welfare debates With this book students philosophers and politicians can find the best of written and electronic resources about the protection and ethical use of animals by humankind Animals are the Issue stands alone as a source for locating materials on animal protection and welfare This valuable guide will help librarians save time and money in locating diverse areas of information regarding animal consumption and exploitation The authors have noted what they consider to be the most essential resources for library collections This book offers references that discuss the utilization of animals by humans as companions in sports and entertainment in religion in science and education in industry in hunting Animals Are the Issue explores how animals are seen viewed and used by humans With bibliographies annotated lists and short commentaries by the authors on nearly every item you ll be able to supply your patrons with a highly effective animal rights welfare collection *Proving Up* Lisi Krall,2010-03-24 On July 9 1920 William Krall a coal miner in Wyoming was shot by his neighbor in a dispute over water as he attempted to prove up and gain title to his homestead Attempting to understand her grandfather s passion and determination for making his own 160 acres of land in dry sagebrush country led Professor Lisi Krall on a unique journey through the interconnections of economy culture and land in the history of the United States She tells the story of the domestication of land in the United States a story that hinges on the market economy and the agrarian and wilderness ethos as foundational land institutions Drawing on institutional or evolutionary economics Proving Up explores in detail the rich and ever changing intermingling of culture economic and material conditions through American history Untangling the complicated history of Americans experiences with nature Krall provides a critical focus and a timely contribution to the current debate surrounding our relationship to land and nature *The Saltwater Wilderness* Glenn S. The Routledge Companion to Landscape Studies Peter Howard,Ian Thompson,Emma Waterton,Mick Atha,2013-02-15 Landscape is a vital synergistic concept which opens up ways of thinking about many of the problems which beset our contemporary world such as climate change social alienation environmental degradation loss of biodiversity and destruction of heritage As a concept landscape does not respect disciplinary boundaries Indeed many academic disciplines have found the concept so important it has been used as a qualifier that delineates whole sub disciplines landscape ecology landscape planning landscape archaeology and so forth In other cases landscape studies progress under a broader banner such as heritage studies or cultural geography Yet it does not always mean the same thing in all of these contexts The Routledge Companion to Landscape Studies offers the first comprehensive attempt to explore research directions into the many uses and meanings of landscape The Companion contains thirty nine original contributions from leading scholars within the field which have been divided into four parts Experiencing Landscape Landscape Culture and Heritage Landscape Society and Justice and Design and Planning for Landscape Topics covered range from phenomenological approaches to landscape to the consideration of landscape as a repository of human culture from ideas of identity and belonging to issues of power and hegemony and from discussions of participatory planning and design to the call for new imaginaries in a time of global and environmental crisis Each contribution explores the future development of different conceptual and theoretical approaches as well as recent empirical contributions to knowledge and understanding Collectively they encourage dialogue across disciplinary barriers and reflection upon the implications of research findings for local national and international policy in relation to landscape This Companion provides up to date critical reviews of state of the art perspectives across this multifaceted field embracing disciplines such as anthropology archaeology cultural studies geography landscape planning landscape architecture countryside management forestry heritage studies ecology and fine art It serves as an invaluable point of reference for scholars researchers and graduate students alike engaging in the field of landscape studies
