Reign of the Morning Star K. C. Wallace, 2024-05-16 Dark forces are at work in Seregon as Thuria and Cluros come into alignment It is a world where mythological creatures are more than myths and reality is what legends are made from Selah a young orphan lives in the Utopian kingdom of Havilah where King Heyl the Morning Star reigns supreme Selah struggles to fit into a society where she is always found lacking and suddenly everything she has ever believed is challenged as she finds herself on a journey of

self discovery Zayne a renowned warrior is sent on a mission to find the key before it falls into enemy hands With turmoil and battles at every turn Zayne faces deadly giants and ravaging marauders Selah and Zayne are destined to meet and it will change them and the future of Seregon forever Will Zayne be able to find the key before it is too late , *Return to the Corner of the Dead* Henry May,2003-09-23 This is a story of love and action drawn on a backdrop of revolutionary violence The novel is set in Peru in 1993 when the country is recovering from a long brutal still simmering civil war The protagonist Jim Hiram has returned to Peru at the request of an old friend a collector of pre Columbian antiquities who has a job for him locating a special artifact Jim had worked as a financial planner in Lima until 1985 when he left after the Sendero Luminoso guerrilla movement brought the war to the capital from its sierra stronghold of Ayacucho the Corner of The Dead He expects his return to be a short term venture but he is drawn into a spiraling series of complications and intrigues He is also drawn into love Against the dark wine red canvas the somber shade of dried blood is set the bright fuchsia of renewing love Through the maze of a society reeling on the edge of disintegration Jim makes his way by his wit and his words As another character observes he is a smooth liar but there are no lies when it comes to love and its regenerative power for him **Adorno and Literature** David Cunningham,Nigel Mapp,2006-06-08 Despite the recent upsurge of interest in Theodor Adorno s work his literary writings are generally under represented However literature is a central element in his aesthetic theory Bringing together original essays from a distinguished international group of contributors this book offers a wide ranging account of the literary components of Adorno s thinking It is divided into three sections dealing with the concept of literature with poetry and with modernity and the novel respectively At the same time the book provides a clear sense of the unique qualities of Adorno s philosophy of literature by critically relating his work to a number of other influential theorists and theories including contemporary postmodernist theory and cultural studies Remember Me Davide Sisto,2021-04-13 As the end of December draws near Facebook routinely sends users a short video entitled Your Year on Facebook It lasts about a minute and brings together the images and posts that received the highest number of comments and likes over the last year The video is rounded off with a message from Facebook that reads Sometimes looking back helps us remember what matters most Thanks for being here It is this looking back increasingly the focus of social networks that is the inspiration behind Davide Sisto s brilliant reflection on how our relationship with remembering and forgetting is changing in the digital era The past does not really exist it is only a story we tell ourselves But what happens when we tell this story not only to ourselves but also to our followers when it is recorded not only on our social media pages but also on the pages of hundreds or thousands of others making it something that can be viewed and referenced forever Social media networks are becoming vast digital archives in which the past merges seamlessly with the present slowly erasing our capacity to forget And yet at the same time our memory is being outsourced to systems that we don t control and that could become obsolete at any time cutting us off from our memories and risking total oblivion This timely and thoughtful reflection on memory and forgetting in

the digital age will be of interest to students and scholars in media studies and to anyone concerned with the ways our social and personal lives are changing in a world increasingly shaped by social media and the internet *Zion's Hope*, 1906

Laurence Sterne's *Tristram Shandy*, James Boswell's *Life of Johnson*, the novels of Maria Edgeworth and Jane Austen and the satirical poetry of Lord Byron in tandem with print culture and partisan activity this book shows how these writings remained animated by disaffected impulses and recalcitrant energies at odds with available party positions and emerging governmental norms even as they sought to imagine perspectives that looked beyond the divided political world altogether. No one can be more sick of or indifferent to politics than I am, Lord Byron wrote in 1820. Between the later eighteenth century and the Romantic age disaffected political attitudes acquired increasingly familiar shapes. Yet this was also a period of ferment in which unrest associated with the global age of revolutions including a dynamic transatlantic opposition movement collided with often inchoate assemblages of parties and constituencies. As writers adopted increasingly emphatic removes from the political arena and cultivated familiar stances of cynicism, detachment and retreat, their estrangement also promised to loop back into political engagement and to make their works parties all their own.
