Review Of Northeast Fishery Stock Assessments:

Review of Northeast Fishery Stock Assessments National Research Council, Division on Earth and Life Studies, Ocean Studies Board, Commission on Geosciences, Environment and Resources, Committee to Review Northeast Fishery Stock Assessments, 1998-05-17 The collapse of cod flounder and haddock fish stocks in the Northeast United States has caused widespread concern among managers and fishers in the United States and Canada The diminishing stocks have forced managers to take strict regulatory measures Numerous questions have been raised about the adequacy of stock assessment science used to evaluate the status of these stocks and the appropriateness of the management measures taken Based on these concerns Congress mandated that a scientific review of the methodology and data used to evaluate these stocks be conducted In this volume the committee concludes that although there are improvements to be made in data collection modeling uncertainty and communicating between fishers managers and scientists the scientific methods used in the Northeast stock assessments are sound Recommendations are made on how the stock assessment process can be improved
