Comrades and Critics Candida Rifkind, 2009-01-01

Comrades and Critics is the first full length study of Canada's 1930s literary left

Contributing Citizens Shirley Tillotson, 2009-01-01

Contributing Citizens tells the social cultural and political history of Community Chests the forerunners of today's United Way to provide a unique perspective on the evolution of professional fundraising private charity and the development of the welfare state Blending a national perspective with rich case studies of Halifax Ottawa and Vancouver Shirley Tillotson shows that fundraising work in the mid twentieth century involved organizing and promoting social responsibility in new ways sometimes coercively In the 1940s and 1950s fundraisers adopted the language of welfare state reform and helped to establish both the notion of universal contribution and the foundation of community organization from which major social policies grew Peopled by a host of forceful characters this is a lively account of how raising money raised the level of Canadian democracy

Jailed for Possession Catherine Carstairs, 2006-12-15

As rates of illegal drug use increase the debates over drug policy heat up While some believe penalties should be harsher others advocate complete decriminalisation Certainly debate over the war on drugs is not new In the early 1920s as the drive for Chinese Exclusion gathered steam Canadians blamed the Chinese for the growing use of opium and other drugs and parliamentarians passed extremely harsh drug laws to counter this use These laws remained in place until the 1960s In Jailed for Possession Catherine Carstairs examines the impact of these drug laws on users health work lives and relationships In the middle of the century drug users regularly went to jail for up to two years for possession of even the smallest amount of opium morphine

heroin or cocaine often spending more time incarcerated than on the street As enforcement increased and drugs became harder to obtain drug use became an increasingly central preoccupation making it almost impossible for users to hold down steady jobs support families or maintain solid relationships *Jailed for Possession* is the first social history of drug use in Canada and provides a careful examination of drug users and their regulators including doctors social workers and police officers

Pick One Intelligent Girl Jennifer Anne Stephen,2007-04-28 During the tumultuous formative years of the Canadian welfare state many women rose through the ranks of the federal civil service to oversee the massive recruitment of Canadian women to aid in the Second World War Ironically it became the task of these same female mandarins to encourage women to return to the household once the war was over *Pick One Intelligent Girl* reveals the elaborate psychological economic and managerial techniques that were used to recruit and train women for wartime military and civilian jobs and then at war s end to move women out of the labour force altogether Negotiating the fluid boundaries of state community industry and household and drawing on a wide range of primary sources Jennifer A Stephen illustrates how women s relationships to home work and nation were profoundly altered during this period She demonstrates how federal officials enlisted the help of a new generation of experts to entrench a two tiered training and employment system that would become an enduring feature of the Canadian state This engaging study not only adds to the debates about the gendered origins of Canada s welfare state it also makes an important contribution to Canadian social history labour and gender studies sociology and political science

Governing Charities Paula Maurutto,2003 Maurutto details how welfare bureaucracies as they began to expand during the 1930s and 1940s did so by building stronger links with private voluntary agencies not by disabling them Far from being shunted aside voluntary organizations such as Catholic charities became increasingly entrenched within the expanding welfare state Standardized reports state inspections financial audits and social work case records to name only a few were emblematic of the social scientific impulse that permeated the operations of Catholic charities and enabled them to more systematically police discipline and regulate the lives of relief recipients and those designated as moral and social deviants Notably they allowed church authorities and the state to exercise greater control and supervision over the internal operations and procedures of charities in effect enabling these institutions to govern the daily affairs of the voluntary sector

Gatekeepers Franca Iacovetta,2006-10-01 An in depth study of European immigrants to Canada during the Cold War *Gatekeepers* explores the interactions among these immigrants and the gatekeepers mostly middle class individuals and institutions whose definitions of citizenship significantly shaped the immigrant experience Iacovetta s deft discussion examines how dominant bourgeois gender and Cold War ideologies of the day shaped attitudes towards new Canadians She shows how the newcomers themselves were significant actors who influenced Canadian culture and society even as their own behaviour was being modified Generously illustrated *Gatekeepers* explores a side of Cold War history that has been left largely untapped It offers a long overdue Canadian perspective on one of the defining eras of the

last century The Rise of the Neighbourhood in Canada, 1880s-2020s Richard Harris, 2025-03-31 Neighbourhoods matter now more than ever before. They sustain fewer social connections but in an era of great social inequality and high levels of immigration they have become vital as places for homeowner investment and educational opportunity for children. The Rise of the Neighbourhood in Canada 1880s-2020s traces the changing character and significance of Canadian urban neighbourhoods city and suburban since the 1880s. The book highlights patterns in neighbourhood life particularly noticeable in larger urban areas which are especially important for the least mobile people: workers, lower income households, immigrants, women, children and the elderly. It explores how the physical and social characteristics of neighbourhoods affect public health, crime rates, social capital and job opportunities while shaping the lifelong prospects of children. Analysing long term trends, the book examines the importance of communications technology in the context of rising inequality and immigration. It shows how, as homeownership rose, neighbourhoods became vital settings for investment increasingly financialized, reducing affordability. Using examples from all types of neighbourhoods in cities small and large from St John's through Montreal and Winnipeg to Victoria, The Rise of the Neighbourhood in Canada argues that the current prominence of neighbourhoods will persist.

The Nurture of Nature Sharon Wall, 2010-01-01 Thousands of children attended summer camps in twentieth century Ontario. Did parents simply want a break or were broader developments at play? The Nurture of Nature explores the history of summer camps and sheds light on a wider phenomenon: the divided consciousness that informs modern assumptions about nature, technology and identity. Wall examines how two competing tendencies—antimodern nostalgia and modern sensibilities about the landscape, child rearing and identity—played out in the camp's interaction with nature, its class and gendered dimensions, its engagement with emerging ideologies of childhood and in the politics of race inherent in its Indian programming. The Nurture of Nature offers a fascinating discussion of the summer camp's contribution to modern social life that will appeal to students and practitioners of the history of childhood, the natural environment and recreation or anyone who has been packed off to camp and wants to explore why.

Changing Women, Changing History Diana Lynn Pedersen, 1996 Changing Women Changing History is a bibliographic guide to the scholarship both English and French on Canadian women's history. Organized under broad subject headings and accompanied by author and subject indices, it is accessible and comprehensive.

Fostering Nation? Veronica Strong-Boag, 2011 The first comprehensive perspective on Canada's provision for marginalized youngsters from the nineteenth to the twenty-first century. It's examination of kin care institutions, state policies, birth parents, foster parents and foster youngsters provides ample reminder that children's welfare cannot be divorced from that of their parents and communities.

A Poetics of Social Work Kenneth James Moffatt, 2001-01-01 Moffatt considers the epistemological influences in the field of Canadian social work and social welfare from 1920 to 1939 through the analysis of the thought of leading social welfare practitioners.

High Ideals and Noble Intentions Peter R. Elson, 2011-01-01 The relationships between governments and the voluntary sector in Canada are

long standing and complex Beginning with an historical overview of developments in voluntary sector government relations from 1600 to 1930 High Ideals and Noble Intentions goes on to explore more recent events and to bring present day policy and practice into focus Peter R Elson examines critical historical events in the relationship between the federal government and the voluntary sector which continue to exert their influence He demonstrates through in depth case studies that these events are critical to understanding contemporary voluntary sector government relations Elson explores the impact of the regulation of charities based on amendments to the 1930 Income War Tax Act the shift from citizen based program funding to service based contract funding in the mid 1990s and advocacy regulation changes in the 1980s Elson s case is strengthened by an important and timely comparison between voluntary sector and central government relations in Canada and England This historically informed comparative analysis provides the basis for practical recommendations meant to improve the future of voluntary sector government relations across Canada

Be Wise! Be Healthy! Catherine Carstairs,Bethany Philpott,Sara Wilmschurst,2018-05-01 Lose weight Quit smoking Exercise more For over a century governments and voluntary groups have run educational campaigns encouraging Canadians to adopt healthy habits in order to prolong lives cost the state less and produce more efficient workers Be Wise Be Healthy explores the history of public health in Canada from the 1920s to the 1970s Through the Health League of Canada people were urged to drink pasteurized milk immunize their children and avoid extramarital sex Health was presented as a responsibility of citizenship and doctors and dentists as expert guides Public health campaigns have reduced preventable deaths But such campaigns can also stigmatize marginalized populations by implying that poor health is due to inadequate self care despite clear links between health and external factors such as

poverty and trauma This clear eyed study demonstrates that while we may well celebrate the successes of public health campaigns they are not without controversy

Our Lives: Canada After 1945 Alvin Finkel, 2012-05 The people forces and events that have shaped post war Canada

Social Policy and Practice in Canada Alvin Finkel, 2012-05-09 *Social Policy and Practice in Canada* A History traces the history of social policy in Canada from the period of First Nations control to the present day exploring the various ways in which residents of the area known today as Canada have organized themselves to deal with or to ignore the needs of the ill the poor the elderly and the young This book is the first synthesis on social policy in Canada to provide a critical perspective on the evolution of social policy in the country While earlier work has treated each new social program as a major advance and reacted with shock to neoliberalism s attack on social programs Alvin Finkel demonstrates that right wing and left wing forces have always battled to shape social policy in Canada He argues that the notion of a welfare state consensus in the period after 1945 is misleading and that the social programs developed before the neoliberal counteroffensive were far less radical than they are sometimes depicted *Social Policy and Practice in Canada* A History begins by exploring the non state mechanisms employed by First Nations to insure the well being of their members It then deals with the role of the Church in New France and of voluntary organizations in British North America in helping the unfortunate After examining why voluntary organizations gradually gave way to state controlled programs the book assesses the evolution of social policy in Canada in a variety of areas including health care treatment of the elderly child care housing and poverty
