Peking Table Top Cooking Linda Lew, Agnes Lee, Elizabeth Brotherton, 1972 *Chop Suey, USA* Yong Chen, 2014-11-04 American diners began to flock to Chinese restaurants more than a century ago making Chinese food the first mass consumed cuisine in the United States By 1980 it had become the country's most popular ethnic cuisine Chop Suey USA offers the first comprehensive interpretation of the rise of Chinese food revealing the forces that made it ubiquitous in the American gastronomic landscape and turned the country into an empire of consumption Engineered by a politically disenfranchised numerically small and economically exploited group Chinese food's tour de America is an epic story of global cultural encounter It reflects not only changes in taste but also a growing appetite for a more leisurely lifestyle Americans fell in love with Chinese food not because of its gastronomic excellence but because of its affordability and convenience which is why they preferred the quick and simple dishes of China while shunning its haute cuisine Epitomized by chop suey American Chinese food was a forerunner of McDonald's democratizing the once exclusive dining out experience for such groups as marginalized Anglos African Americans and Jews The rise of Chinese food is also a classic American story of immigrant entrepreneurship and perseverance Barred from many occupations Chinese Americans successfully turned Chinese food from a despised cuisine into a dominant force in the restaurant market creating a critical lifeline for their community Chinese American restaurant workers developed the concept of the open kitchen and popularized the practice of home delivery They streamlined certain Chinese dishes such as chop suey and egg foo young turning them into nationally recognized brand names *Food and Philosophy* Spencer Wertz, 2017-02-08 These essays on food and philosophy were written over several decades Not only philosophers and historians but individuals who have an ongoing interest in food should relish them The essays cover wide ranging topics that include genetically modified organisms chocolate and its world food as art the pornography of food and the five flavors of Chinese cuisine In addition there are several chapters that deal with the refinement of erudite professional cuisine from popular regional cuisine in the seventeenth and eighteenth centuries in Europe One chapter stands alone as an analysis of the Native American cultural foundations of maize The book opens with an essay on the philosophy of food history that addresses three fundamental problems the duplication of sensations and taste the understanding of recipes from other historical periods and the sorts of judgments that are included or excluded in a historical narrative The book ends with an exposition of R G Collingwood's anthropology of eating and dining which completes the discussion with an analysis of the magical symbolism of those cultural activities *Oxford Symposium on Food and Cookery 1991* Harlan Walker, 1992 **Catalog of Copyright Entries.
