to the contemporary scene *Photography, History, Difference* Tanya Sheehan, 2014-12-02 Over the past decade historical studies of photography have embraced a variety of cultural and disciplinary approaches to the medium while shedding light on non Western vernacular and other photographic practices outside the Euro American canon *Photography History Difference* brings together an international group of scholars to reflect on contemporary efforts to take a different approach to photography and its histories What are the benefits and challenges of writing a consolidated global history of photography How do they compare with those of producing more circumscribed regional or thematic histories In what ways does the recent emphasis on geographic and national specificity encourage or exclude attention to other forms of difference such as race class gender and sexuality Do studies of other photographs ultimately necessitate the adoption of nontraditional methodologies or are there contexts in which such differentiation can be intellectually unproductive and politically suspect The contributors to the volume explore these and other questions through historical case studies interpretive surveys of recent historiography criticism and museum practices and creative proposals to rethink the connections between photography history and difference A thought provoking collection of essays that represents new ways of thinking about photography and its histories It will appeal to a broad readership among those interested in art history visual culture media studies and social history *Peace in the US Republic of Letters, 1840-1900* Sandra M. Gustafson, 2023-09-06 *Peace in the US Republic of Letters 1840 1900* explores the early peace movement as it captured the imagination of leading writers The book charts the rise of the peace cause from its sources in the works of William Penn and John Woolman through the founding of the first peace societies in 1815 and the mid century peace congresses to the postbellum movement s consequential emphasis on arbitration The Civil War is the central axis for the book with three chapters organized around readings of novels by James Fenimore Cooper Harriet Beecher Stowe and Nathaniel Hawthorne spanning the period from 1840 to 1865 Cooper had personal connections to the movement and thought deeply about the issues it addressed Literary interest in peace at times overlapped with abolitionism as was true for Stowe And in the case of Hawthorne attention to peace advocacy arose out of a mixture of skepticism regarding perfectionist impulses a desire to explore the nature and limits of violence and fear of civil conflict The volume also explores fiction engaged with problems that arose in the aftermath of that war including novels by Henry Adams and John Hay on political corruption and class conflict works on the failures of Reconstruction by Albion Tourg e and Charles Chesnutt and the varied treatments of Indigenous experience in Helen Hunt Jackson s *Ramona* and Simon Pokagon s *Queen of the Woods* All of these writers focused on issues related to the cause of peace expanding its thematic reach and anticipating key insights of twentieth century peace scholars [Encyclopedia of Nineteenth-Century Photography](#) John Hannavy, 2013-12-16 *The Encyclopedia of Nineteenth Century Photography* is the first comprehensive encyclopedia of world photography up to the beginning of the twentieth century It sets out to be the standard definitive reference work on the subject for years to come Its coverage is global an important first in that authorities from all

over the world have contributed their expertise and scholarship towards making this a truly comprehensive publication The Encyclopedia presents new and ground breaking research alongside accounts of the major established figures in the nineteenth century arena Coverage includes all the key people processes equipment movements styles debates and groupings which helped photography develop from being a solution in search of a problem when first invented to the essential communication tool creative medium and recorder of everyday life which it had become by the dawn of the twentieth century The sheer breadth of coverage in the 1200 essays makes the Encyclopedia of Nineteenth Century Photography an essential reference source for academics students researchers and libraries worldwide Jamaica Kincaid's Writings of History Antonia Purk,2023-09-18 Jamaica Kincaid s works consistently explore how colonial history affects contemporary everyday lives Throughout her novels short fiction and non fictional essays Kincaid s texts engage with history through its medial representations which are starkly determined by colonial perspectives This study examines the entanglements of temporalities in current perceptions of the past and how literary text intervenes in historical consciousness With a focus on the media text image and the human body the chapters of this book demonstrate how Kincaid s poetics of impermanence counter colonial representations of history with strategies of ambiguity repetition and redirection Kincaid s texts repeat and revise aspects of colonial history a process that decenters the totality of historical colonial ideology and replaces it with self determined versions of the past through a multiplication of perspectives and voices *Fieldwork of Empire, 1840-1900* Adrian S. Wisnicki,2019-03-20 *Fieldwork of Empire 1840 1900 Intercultural Dynamics in the Production of British Expeditionary Literature* examines the impact of non western cultural political and social forces and agencies on the production of British expeditionary literature it is a project of recovery The book argues that such non western impact was considerable that it shaped the discursive and material dimensions of expeditionary literature and that the impact extends to diverse materials from the expeditionary archive at a scale and depth that critics have previously not acknowledged The focus of the study falls on Victorian expeditionary literature related to Africa a continent of accelerating British imperial interest in the nineteenth century but the study s findings have the potential to inform scholarship on European expeditionary imperial and colonial literature from a wide variety of periods and locations The book s analysis is illustrative not comprehensive Each chapter targets intercultural encounters and expeditionary literature associated with a specific time period and African region or location The book suggests that future scholarship especially in areas such as expeditionary history geography cartography travel writing studies and book history needs to adopt much more of a localized non western focus if it is to offer a full account of the production of expeditionary discourse and literature *The Pioneering Photographic Work of Hercule Florence* Boris Kossoy,2017-12-14 This book delivers an in depth analysis of Hercule Florence who is virtually unknown despite being among the world s photographic pioneers Based on the texts of various manuscripts letters diaries notes and advertisements this book answers numerous questions surrounding Florence s work including the

materials methods and techniques he employed and why it took more than a century for his discovery to come to light Kossoy's groundbreaking research establishes Florence's use of photography to describe the product of his experiments half a decade before Sir John Herschel recommended photography to Henry Fox Talbot This book aims to change the fact that despite its cultural and historical importance Florence's photographic breakthrough remains largely unknown in the English speaking world
