attacking people taken from the Book of Revelation chapter 9 What will a transhuman technology do to our future Is it wise to create hybrids Could some of our tinkering in dark science end up coming to haunt mankind I have personally met the Men in Black many years ago and had many strange paranormal experiences in seeing UFO s on five different occasions Some of the experiences were not pleasant What are the Ley lines Why does science pretend to know so much when in fact they know very little because they deny so much Why Because they leave out the supernatural and the fact there are many other dimensions The Author

Russian and American Poetry of Experiment Vladimir Feshchenko,2023-07-17 An experiment with language Is it an object cultivated in poetic laboratories where entry is locked for mere mortals And what do language scholars think about it Specialists in language and literature studies interested in linguistic innovation and experimental poetry will find answers to these questions in Vladimir Feshchenko s book The study investigates various strategies of radical linguistic creativity in Russian and American experimental writing of the 20th century and explores cases of contemporary language oriented and trans language poetry It is a comparative examination of two national avant garde cultures but also a juxtaposition of the relationships that Russian and American avant garde poetics had with linguistic ideas of their times The monograph may serve as a wonderful introduction to the entire field of linguistic poetics of the avant garde

A Blue Moon in Poorwater Cathryn Hankla,1998 In a sleepy but troubled Appalachian coal mining town a powerfully evocative novel details the coming of age of a young girl

(M)Other Tongues Juliane Prade,2020-05-15 M Other Tongues Literary Reflexions on a Difficult Distinction examines a key problem of literary criticism the differentiation between languages is at the same time necessary and impossible It is indispensable in order to read a text yet literary texts are precisely those that question this distinction articulating the link between languages and cultures as well as the inherent strangeness of even one s own mother tongue M Other Tongues explores texts from the 16th century to the 21st century focusing on different aspects of one main feature of literary texts formally as well as semantically they transcend the rules and conventions of the language they speak Crossing cultural borders is commonly discussed in historical social linguistic and psychoanalytical terms whether it be as post colonialism exilic or diasporic identities creoles or the displaced other within the own M Other Tongues argues that rather than being mere evidence in the theoretical analysis of cultural transitions literary texts are a unique medium to reflect such processes as they challenge and modify the notion of language itself The book discusses texts written mainly in English French and German but also in Spanish and the complex formerly known as Yugoslavian M Other Tongues shows that such distinctions between languages are precise since they can be exemplified with an indefinite number of words and rules and still remain uncertain because they cannot be abstracted from these examples What separates the mother tongue from other tongues is indeed precise uncertainty
