Plague Of Perfection:

Writing Plague Susan L. Einbinder, 2022-10-11 A wave of plague swept the cities of northern Italy in 1630 31 ravaging Christian and Jewish communities alike In Writing Plague Susan L Einbinder explores the Hebrew texts that lay witness to the event These Jewish sources on the Great Italian Plague have never been treated together as a group Einbinder observes but they can contribute to a bigger picture of this major outbreak and how it affected people institutions and beliefs how individuals and institutions responded and how they did or did not try to remember and memorialize it High self consciousness characterizes many of the authorial voices and the sophisticated and deliberate ways these authors represented themselves reveal a complex process of self fashioning that equally contours the representation and meaning of plague Conversely it is under the strain of plague that conventions of self fashioning come to the fore In the end what proves most striking is how quickly these accounts retreated into obscurity Why was this plague which was among the most documented of all outbreaks since the Black Death of the fourteenth century ultimately consigned to silence in Jewish memory Did the memory take shape outside the written or material remains that we typically consult in ephemeral forms that were lost over time How much were the official genres of commemoration responsible for the erosion of historical particularity How much did these conventionalized forms of mourning help individuals find language for private experience And how conversely was private experience reconfigured to signify public grief Throughout Writing Plague Einbinder unearths and analyzes a cluster of little known texts reading them as much for the things about which they remain silent as for the things they seem openly to express It is a compelling hybrid work of literary criticism and historical reflection about premodern constructions of self and community

Perfection's Therapy Mitchell B. Merback,2018-01-02 Albrecht Dürer's master engraving Melencolia I has stood for centuries as a pictorial summa of knowledge about melancholia and an allegory of the limits of earthbound arts and sciences Zealously interpreted since the nineteenth century the work also presides over the origins of modern iconology Yet more than a century of research has left us with a tangle of mutually contradictory theories In Perfection's Therapy Mitchell Merback discovers in Melencolia's opacity a fascinating possibility that Dürer's masterpiece is not only an arresting diagnosis of melancholic distress but an innovative instrument for its undoing Merback deftly analyses the visual and narrative structure of Dürer's image revisits its philosophical and medical contexts and resituates it within the long history of the therapeutic artifact Placing Dürer's project in dialogue with that of humanism's founder Francesco Petrarca Merback also unearths the German artist's ambition to act as a physician of the soul Celebrated by contemporaries as the Apelles of our age and ever since as Germany's first Renaissance painter theorist the Dürer we encounter here is also the first modern Christian artist addressing himself to the distress of souls including his own Melencolia thus emerges as a key reference point in a project of spiritual ethical therapy a work designed to exercise the mind rebalance the passions remedy the soul and help in getting on with the project of perfection

Be a Perfect Man Andrew J. Romig,2017-08-28 The life of an aristocratic Carolingian man involved an array of behaviors and duties associated with his gender and rank an education in arms and letters training in horsemanship soldiery and hunting betrothal marriage and the virile production of heirs and the masterful command of a prominent household In *Be a Perfect Man* Andrew J. Romig argues that Carolingian masculinity was constituted just as centrally by the performance of caritas defined by the early medieval scholar Alcuin of York as a complete and all inclusive love for God and for fellow human beings flowing from the whole heart mind and soul The authority of the Carolingian man depended not only on his skills in warfare and landholding but also on his performances of empathy devotion and asceticism Romig maps caritas as a concept

rooted in a vast body of inherited Judeo Christian and pagan philosophies shifting in meaning and association from the patristic era to the central Middle Ages Carolingian discussions and representations of caritas served as a discourse of power a means by which early medieval writers made claims both explicit and implicit about the hierarchies of power that they believed ought to exist within their world During the late eighth ninth and early tenth centuries they creatively invoked caritas to link aristocratic men with divine authority Romig gathers conduct handbooks theological tracts poetry classical philosophy church legislation and exegetical texts to outline an associative process of gender ideology in the Carolingian Middle Ages one that framed masculinity asceticism and authority as intimately interdependent The association of power and empathy remains with us to this day Romig argues as a justification for existing hierarchies of authority privilege and prestige
