Modernism in Settings Ramona Simuț,2024-11-26 This book is analytical and often critical about the subject it investigates including literary and cultural aesthetics social and political literatures national identity speeches and the psychoanalytic theory of language Modernism in Settings attempts to reevaluate some important debates in those fields either from the 19th 20th centuries or otherwise Debates at that at the time often failed to take into consideration their full philosophical social theological or political implications The book is primarily aimed at teachers and researchers interested in issues related to modernism within humanities and cultural studies It discusses works by writers including James Joyce and Edgar Allan Poe and philosophers and critics including Julia Kristeva and Wolf Lepenies and covers issues including feminism technology and psychoanalysis *Romania* ,1973

Hidden Multilingualism in 19th-Century European Literature Jana-Katharina Mende,2023-08-21 The disparagement of multilingualism is a European development of the 18th and 19th centuries in which one national language and national literature were advocated established and institutionalised Multilingual writers made use of the creative potential of several languages even then However they often adapted to an increasingly monolingual book market which made their individual multilingualism invisible This is evident in literary historiography which established a monolingual national canon Researching hidden multilingualism is often difficult since multilingual texts by multilingual writers were often not published or were published in a monolingual version sources are scarce Literary histories of the time often do not mention multilingualism Furthermore many multilingual writers were members of minority groups women Jewish Non European and thus often neglected The volume offers methods and theories to systematically approach this hidden material as well as case studies on authors and national literatures in a multilingual context It thus contributes to the restructuring of a multilingual transnational literary history that is applicable to different philologies

Inside the Mechanisms of Romanian Modernization Florin Grancea,2006-09-05 This book analyzes in the relation with the Romanian modernity the transformations of the Romanian public sphere political system and journalism from the beginning of the 19th Century up to 2005 The argumentation starts from the idea that the Romanian Enlightenment never had the chance to reach its purpose the creation of the individual as a human category As a consequence of this historical fact the Romanian modernity was not explored in all its dimensions and was not congruent with its western model of development Only after late 90 s signs for a surpassing historical backwardness were seen in Romania and only after the integration into EU become sure From this perspective this book looks onto the change in the modernization engine of Romania in late 90 s This change is happening as a transgression from a three steps modernization model in which the role of the elite is central to a two steps modernization model in which the role of the elite is minimal Because the three steps modernization model fits the idea of an acclamatory public sphere while the two steps

modernization engine fits the concept of civil public sphere this book proves that the Romanian democracy is evolving from its totalitarian background to become a participative democracy The only question unanswered yet is if the elite and the mass media are willing to let Romania and its citizens to breakup the ties with the totalitarian past **Manual of Standardization**

Re-Configuring Romanian Culture on its Way Towards Modernity Alexandra Chiriac, 2022-09-26 As a direct result of an international conference organized in the year 2021 the volume tries to shed light on the way in which the translation activity contributed to the Romanian culture and language drawing from different traditions and cultures it came in contact with directly or indirectly and thus mingling the own Slavonic church tradition with the new and revolutionary ideas of the Western world and using this mix to modernise the society language and the politics in this region Furthermore this eclectic collection of articles highlights the fact that it was neither the exclusive merit of the Transylvanian scholars nor of the Moldavian or Wallachian ones to have contributed decisively to the formation of the national consciousness and to the standardisation of the language but it was rather the collaboration the circulation of people and ideas that furthered the modernity in all three Romanian Principalities Without disregarding the regional specificity of the Romanian Enlightenment the volume focuses on the interconnections of the agents involved in the cultural transfer on the networks they created for the dissemination of knowledge and political thought and on the common effort to render the new ideas and concepts of the foreign cultures in a national language that could be accessible to the Romanians

Habsburg Galicia and the Romanian Kingdom Raluca Goleşteanu-Jacobs,2023-12-01 This comparative attempt intended for postgraduates and scholars of Eastern Central Europe investigates the political economic and cultural landscape of Habsburg Galicia and the Romanian Kingdom in the second half of the 19th century Often in historiography and in the public sphere alike the two cases under study have been separately regarded as contexts that provided atypical answers to modernity and parts of a region that has been regarded as atypical in itself Recently efforts have been made to integrate each of the cases in a post imperial paradigm identifying the complex interactions between their socio political modernisation and historical memory This book continues this trend by investigating for the first time the two cases together as parts of a space of alterity as labs of shifting ideologies and labels The public figures and the institutions depicted in the book are physically located in Central and in Eastern Europe but by

sometimes competing experiences they are illustrative for several identities and historical realms local regional and continental Secondly the current work addresses dilemmas related to Nationalism and nation building for the sake of separating those discourses which reflected on civic nationalism from those which directed the public mind to the values of ethnic nationalism *Directory of Published Proceedings ,2002*
