The Esoteric Secrets of Surrealism Patrick Lepetit, 2014-04-24 A profound understanding of the surrealists' connections with alchemists and secret societies and the hermetic aspirations revealed in their works Explains how surrealist paintings and poems employed mythology gnostic principles tarot voodoo alchemy and other hermetic sciences to seek out unexplored regions of the mind and recover lost psychic and magical powers Provides many examples of esoteric influence in surrealism such as how Picasso's *Demoiselles d'Avignon* was originally titled *The Bath of the Philosophers* Not merely an artistic or literary movement as many believe the surrealists rejected the labels of artist and author bestowed upon them by outsiders accepting instead the titles of magician alchemist or in the case of Leonora Carrington and Remedios Varo witch Their paintings poems and other works were created to seek out unexplored regions of the mind and recover lost psychic and magical powers They used creative expression as the vehicle to attain what Andr Breton called the supreme point the point at which all opposites cease to be perceived as contradictions This supreme point is found at the heart of all esoteric doctrines including the Great Work of alchemy and enables communication with higher states of being Drawing on an extensive range of writings by the surrealists and those in their circle of influence Patrick Lepetit shows how the surrealists employed mythology gnostic principles tarot voodoo and alchemy not simply as reference points but as significant elements of their ongoing investigations into the fundamental nature of consciousness He provides many specific examples of esoteric influence among the surrealists such as how Picasso's famous *Demoiselles d'Avignon* was originally titled *The Bath of the Philosophers* how painter Victor Brauner drew from his father's spiritualist vocation as well as the Kabbalah and tarot and how doctor and surrealist author Pierre Mabille was a Freemason focused on finding initiatory paths where it is possible to feel a new system connecting man with the universe Lepetit casts new light on the connection between key figures of the movement and the circle of adepts gathered around Fulcanelli He also explores the relationship between surrealists and Freemasonry Martinists and the Elect Cohen as well as the Grail mythos and the Arthurian brotherhood *Trading Secrets* Mark Huband, 2012-12-14 Today's intelligence community faces challenges that would have been inconceivable only a dozen years ago Just as al Qaeda's destruction of the Twin Towers heralded a revolution in global diplomacy the events of 9/11 also threw two centuries of spy craft into turmoil because this new enemy could not be bought Gone were the sleepers and moles whose trade in secrets had sustained intelligence agencies in both peacetime and war A new method of intelligence had been born The award winning former Financial Times security correspondent Mark Huband here takes us deep inside this new unseen world of spies and intelligence With privileged access to intelligence officers from Rome to Kabul and from Khartoum to Guantanamo Bay he reveals how spies created secret channels to the IRA deceived Iran's terrorist allies frequently attempted to infiltrate al Qaeda and forced Libya to abandon its nuclear weapons Using accounts from ex KGB officers

Huband vividly describes the devastation caused by the West's misreading of Soviet intentions in Africa and explains how ill prepared western intelligence agencies were when the Cold War was replaced by the perception of a new terrorist threat. Benefiting from privileged access to intelligence sources across the world, *Trading Secrets* provides a unique and controversial assessment of the catastrophic failure of spies to grasp the realities of the Taliban's grip on Afghanistan and draws upon exclusive interviews with serving officers in assessing the ability of the major intelligence agencies to combat the threat of twenty first century terrorism.
