Secrets Of The Sphinx Mysteries Of The Ages Revealed:

The Zodiac Conspiracy Atara, Dr. Atara, 2011-11 The appearance of an astronomer who was discussing the 13th constellation on national TV last year caused a huge outcry from the public. The big question was: How can my sun sign be different? Many people concluded that the astronomer did not know what he was talking about. People wanted to know how their Sun sign could be different than what they had been told all these years. Actually, the astronomer was very correct; he was telling everyone the truth as indicated by the science of astronomy, which the psychological art of astrology is based upon. There are 13 constellations and has always been 13. This is why the book also features a section on Ophiuchus, which is the 13th constellation and the only constellation sign named after a human being, Imhotep, an African Egyptian. There has been a conspiracy of silence among Western astrologers to misrepresent the history of astrology and ignore the truth of astronomy. Since astrologers did not adhere to the science of astronomy as dictated by the constellations, they created an alternative paradigm called the Koch zodiac system, which only acknowledges 12 constellations and therefore 12 signs. Astrologers who live in the Eastern part of the world practice the truth of astronomy by using the Sidereal zodiac system. Most people in the Western world actually believe that on January 1st their Sun sign is Capricorn. However, the truth is that the Sun is actually in the constellation of Sagittarius. This is the truth of astronomy and the sidereal zodiac system. So if you were born on January 1st of any year, your Real Sun Sign is Sagittarius, not Capricorn. This book shows everyone who wants to continue believing in their old sign while embracing the truth of their Real Sun Sign how to blend these two systems so that who you REALLY ARE and what you are destined to learn about yourself is anchored in the truth. It is a gentle reminder that you are not living your most authentic self. Are you the Virgo Selfless Servant or Aquarius The Giver? Read *The Zodiac Conspiracy* and be introduced to the truth and Your Real Sun Sign. *13 Different Men of the Zodiac* Dr. Regina Atara Wead, 2022-06-10 This is not an astrological textbook and it doesn't provide any astrological forecasts. You'll never understand all the planets simply by reading this book. This book is a simplified and entertaining way of describing the influences that the planet Mars has on the human personality and the particular way the planet influences men. This information is based on decades of professional astrological consultation and research along with a careful evaluation of human psychology. Hopefully, it will provide you with insight into what makes a man tick. **13 Sun Signs of the Zodiac** Dr. Regina Atara Wead, 2014-10-29 Using the Sidereal Zodiac like Nostradamus, an astrologer and metaphysician shares her insight about the blending of Eastern and Western astrology in *The Zodiac Conspiracy*. This book underscores the omission of Ophiuchus, a major constellation that the Greeks left off the tropical zodiac wheel. It includes a brief section on Ophiuchus, the only constellation named after a real man named Imhotep. *The 13 Sun Signs of the Zodiac* outlines the differences between popular tropical astrology that you read in the daily horoscopes and the science astronomy of sidereal astrology. This book merges the sidereal and tropical systems to help us understand how the tropical zodiac represents who we are learning to be while the sidereal zodiac represents who

we really are Rev Dr Martin Luther King Jr was really a Sagittarian The Seeker who was learning how to be a Capricorn goat climbing up the mountain to become The Achiever Jesus was probably born under the sign of Virgo to a virgin mother However he was really a Libra The Peacemaker who was learning how to be a Virgo The Selfless Servant All of this and much much more is explained in this extraordinary book13 Sun Signs of Zodiac **The Secret Teachings of All Ages** Manly P. has continued almost uninterruptedly for over two years The greater part of the research work however was carried on prior to the writing of the manuscript The collection of reference material was begun in 1921 and three years later the plans for the book took definite form For the sake of clarity all footnotes were eliminated the various quotations and references to other authors being embodied in the text in their logical order The bibliography is appended primarily to assist those interested in selecting for future study the most authoritative and important items dealing with philosophy and symbolism To make readily accessible the abstruse information contained in the book an elaborate topical cross index is included I make no claim for either the infallibility or the originality of any statement herein contained I have studied the fragmentary writings of the ancients sufficiently to realize that dogmatic utterances concerning their tenets are worse than foolhardy Traditionalism is the curse of modern philosophy particularly that of the European schools While many of the statements contained in this treatise may appear at first wildly fantastic I have sincerely endeavored to refrain from haphazard metaphysical speculation presenting the material as far as possible in the spirit rather than the letter of the original authors By assuming responsibility only for the mistakes which may appear herein I hope to escape the accusation of plagiarism which has been directed against nearly every writer on the subject of mystical philosophy Having no particular ism of my own to promulgate I have not attempted to twist the original writings to substantiate preconceived notions nor have I distorted doctrines in any effort to reconcile the irreconcilable differences present in the various systems of religio philosophic thought The entire theory of the book is diametrically opposed to the modern method of thinking for it is concerned with subjects openly ridiculed by the sophists of the twentieth century Its true purpose is to introduce the mind of the reader to a hypothesis of living wholly beyond the pale of materialistic theology philosophy or science The mass of abstruse material between its covers is not susceptible to perfect organization but so far as possible related topics have been grouped together The Platonist ,1881
